

Brooksource is a Microsoft Solutions Partner with designations in Data and AI (Azure), as well as Digital and App Innovation (Azure). We provide end-to-end support for our Fortune 500 clients, including application migration and implementation efforts. Clients also invest in our Elevate program to engage diverse emerging resources and build sustainable succession plans for long-term cloud strategies. Whether you need top-level advisory, niche teams for execution, or cost-effective upskilling, our tailored solutions are adapted to meet your unique needs.
