

# GitHub Copilot Assessment with Cloud Intel

Accelerate Your AI-Powered Software Development

GitHub Copilot is the AI-powered tool that has paved the way for all AI-powered tooling for software developers. It helps you write code faster and smarter. It can suggest code completions, snippets, and entire functions based on your context and comments. It also helps you fix bugs, refactor code, and write tests.

Are you looking for a way to leverage the power of AI in your software development process? Do you want to save time and effort by using GitHub Copilot, the AI-powered tool that can write code for you?

Cloud Intel's GitHub Copilot Assessment service is a comprehensive and customisable solution that helps you learn how GitHub Copilot works and what to consider while using it. It helps you evaluate your current capabilities, identify your goals and challenges, and provide you with a roadmap for successful adoption of GitHub Copilot.

## Cloud Intel's GitHub Copilot Assessment service provides you:

A thorough analysis of your current software development environment, processes, and challenges

A benefits analysis that will quantify the potential benefits of using GitHub Copilot, such as cost savings, time savings, quality improvement, and innovation potential

A proof of concept that will demonstrate how you can use GitHub Copilot to create, modify, or enhance your code

A roadmap for successful implementation of GitHub Copilot based on your specific needs and preferences

## Cloud Intel is the best choice for the GitHub Copilot Assessment service because

It has extensive expertise in assessment and cloud adoption, having helped hundreds of organizations across various industries and domains achieve their cloud goals.

It has a pragmatic and holistic approach that considers not only the technical but also the legal and cultural aspects of using AI-powered tools.

It has a flexible and customisable service that ensures a smooth and successful adoption of GitHub Copilot from end-to-end.

Harness the benefits of GitHub Copilot, enhance developer productivity, and drive innovation in your software development processes. Get started with Cloud Intel's GitHub Copilot Assessment today.
