

App of the Future Engagement

A fully funded engagement by Microsoft and Optimus

Organizations must reshape their engagement strategies to thrive in the digital economy by developing intelligent, user-centric apps that take business into the future. However, navigating the complex landscape of future apps is challenging for many organizations. Microsoft and Optimus present the Azure App of the Future engagement – a transformative initiative designed to empower organizations to unleash the full potential of cloud-native technologies.

Approach

Milestone 1: Architecture Design

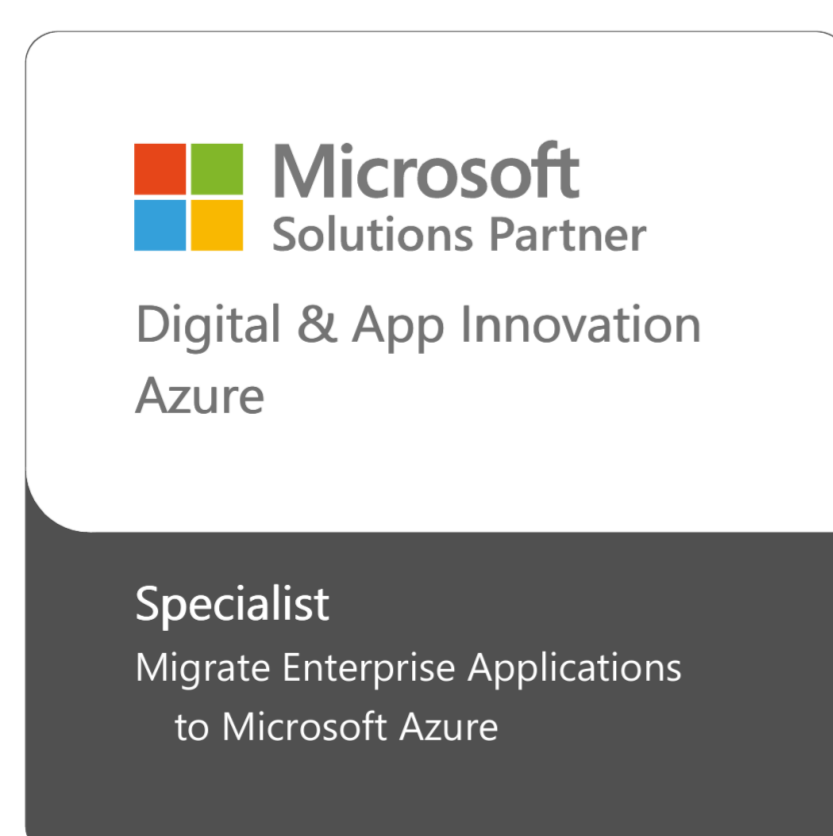

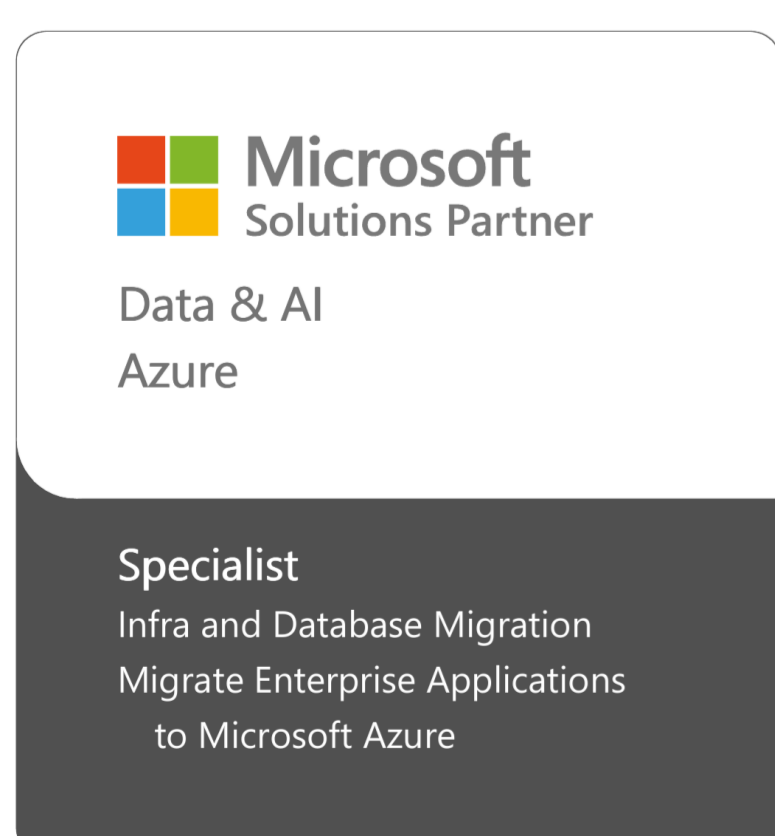

- ➔ Identify authentication and authorization requirements for various applications
- ➔ Identify employee change triggers and related authorization changes
- ➔ Explore alternate solutions
- ➔ Provide recommended solutions to customers
- ➔ Create architecture for the recommended solution

Milestone 2: Proof of Concept

- ➔ Identify use cases for proof of concept of prototyping
- ➔ Build PoC/prototype, as required

Deliverables

- » Executive Summary - Overview of engagement scope, customer objectives, results of envisioning and prototyping, and recommendations for next steps
- » Azure Consumption Estimates for Azure (PAYG, AHUB, RI over 1 and 3 years)
- » Azure service and architecture design recommendations
- » Proposal for additional services (PoC/Pilot/Cloud Adoption Framework)

Why choose Optimus Information:

Optimus Information is a Microsoft Solutions Partner and Cloud Solution Provider with advanced specialization in Migrate Enterprise Applications & Infra and Database Migration. Leveraging an experienced Microsoft Partner like Optimus can save you time and money and ensure a successful cloud and data strategy.
