App-in-a-Day

1-Day Workshop

XRMVISION.COM

XRM VISION

One day to learn the fundamentals behind PowerApps and equip your team with the motivation needed to transform your business processes.

Want to learn how to create great custom apps without writing code? This accelerated workshop will enable your team to use PowerApps within your organisation effectively.

Led by one of our seasoned solutions Architects, this 1-Day workshop is specifically designed to help Business & IT Analysts understand the value of PowerApps and how to implement it within your business processes.

This full-day workshop, held at your location, covers basics of Microsoft PowerApps and Flow with specific use cases and lab exercises. We'll happily guide you through the first steps of implementing PowerApps within your environment.

At the end of this experience, participants will have built a sample application using PowerApps and Microsoft Flow.

AGENDA

- ◆ PowerApps Lab
- ◆ Introduction to Microsoft Flow
- ◆ Microsoft Flow Lab
- ◆ Introduction to Common Data Service
- ◆ Common Data Service Lab

At the end of the day, you will be able to:

- ❖ Create custom business applications without writing code
- ❖ Learn how to build sophisticated business processes and complex data relationships within your applications
- ❖ Learn how to connect your app to a variety of data sources to bring it to life
- ❖ Share your apps inside your organization securely
