

Compass MS Teams App

Compass is available as an app in MS Teams which can be downloaded by anyone having MS Teams

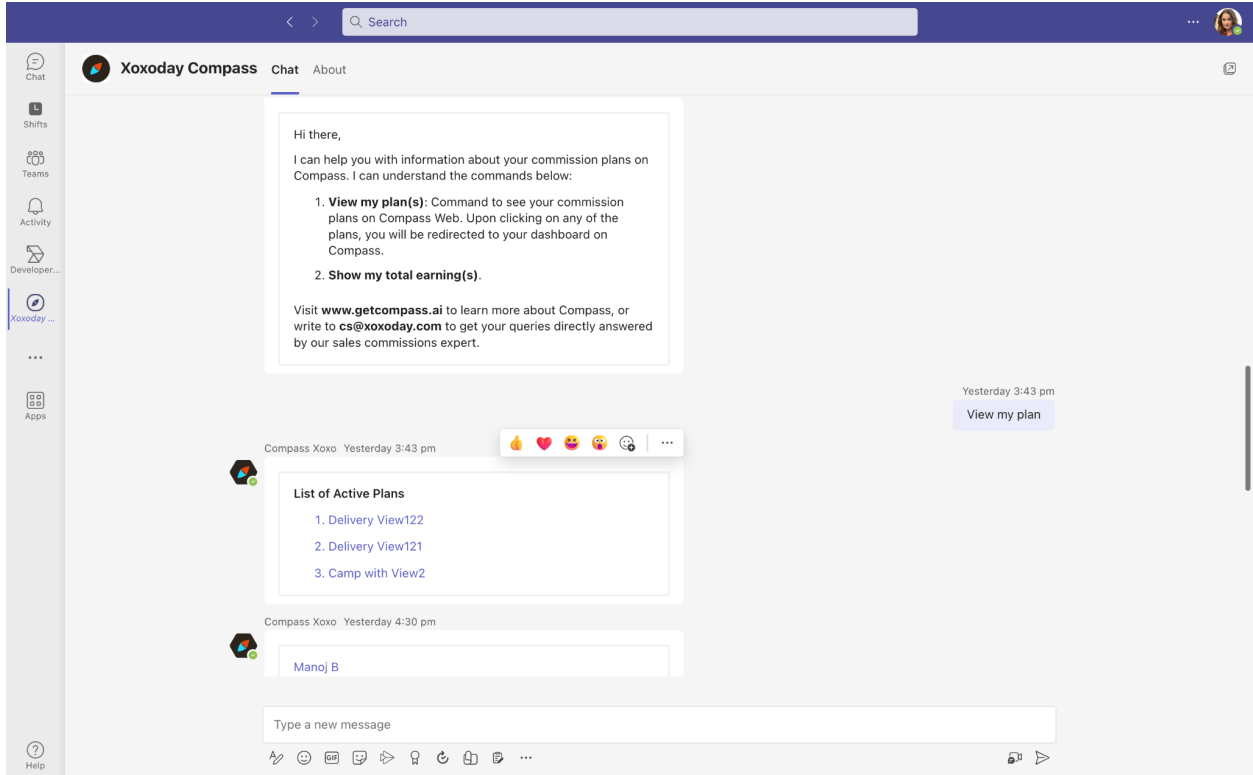

Installation:

The screenshot shows the app listing for Xoxoday Compass in the Microsoft Teams marketplace. At the top left is the app icon, a black circle with a blue and orange compass needle. To its right is the app name "Xoxoday Compass" and the publisher "Empuls". A blue tag indicates it "Works in Teams, Outlook, and the Microsoft 365 app". A prominent blue "Add" button is visible. Below the header are two tabs: "Overview" (selected) and "Permissions". The "Overview" section contains a sub-header "Compass helps companies build happy partner network." followed by a paragraph describing the app as a sales performance and commissions management platform. It lists features like a robust calculation engine, automation, gamification, and real-time data tracking. It also provides contact information: "Visit www.getcompass.ai to learn more about Compass, or write to cs@xoxoday.com to get your queries directly answered by our sales commissions expert." Below this is the "App features" section, which includes "Bots" (Chat with the app to ask questions and find info) and "Created by: Empuls" (Version 1.0.0). The "Permissions" section states "This app will have permission to:" followed by a bullet point: "Receive messages and data that I provide to it." At the bottom, a footer line reads: "By using Xoxoday Compass, you agree to the [privacy policy](#), [terms of use](#), and [permissions](#)."

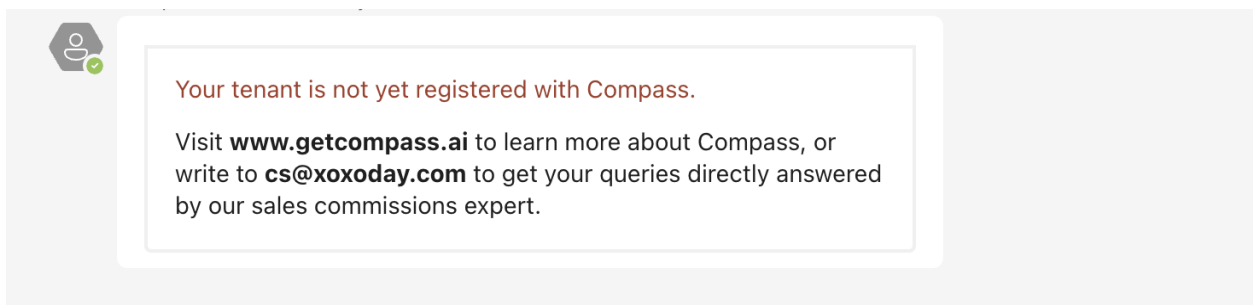

NOTE: The user will install the Compass application from Microsoft Teams, by clicking the **Add** button after searching the marketplace.

After Installation:

User Validation:

CASE:1> When the tenant is not registered with Compass, the app should throw an error message.

CASE:2> When the user is not registered with Compass, the app should throw an error message.

Compass Xoxo Yesterday 20:45

Seems like your account is yet to be created. Please reach out to your **Compass administrator** for registration or write to **cs@xoxoday.com** to get your queries directly answered by our sales commissions expert.

CASE:3> If the user is registered with Compass, the app bot should send a welcome message.

Compass overview for SaaS listing on MS app store

Overview

Xoxoday Compass

The only sales performance & commission management tool you'll need

Xoxoday Compass allows you to:

- Automate commissions & payouts
- Gamify commission plans to build engagement
- Improve sales teams' performance and productivity
- Make data-driven business decisions with real-time analytics

Trusted by leading companies in the BFSI, retail, automobile, and many other sectors, Compass simplifies the commission process for sales teams, motivates teams, and helps drive more revenue.

With this seamless integration of Xoxoday Compass with Microsoft Teams, you can:

- Bring commission plans view to Teams chat
- Track active commission plans from your chat window
- Give your team the flexibility to monitor targets, earnings, and critical updates while they are on the go
- Send push notifications about plan updates, group messages, and wallet balances directly to your team members' chats

Intrigued? If you want to know how Xoxoday Compass can help increase your sales process efficiency, please [schedule a quick demo](#) with our sales commission expert today.
