

Microsoft Dynamics 365 Discovery Session

2-day session at USD 949

Our Dynamics 365 Discovery Session comprehensively analyzes your current business processes, systems, and infrastructure to determine how Dynamics 365 can be effectively integrated into your organization. We consider your business objectives and work closely with you to identify areas that can be streamlined or improved to optimize performance.

Agenda

During our two-day assessment, we will cover the following:

- Demo and briefing of Dynamics 365
- Obtain insight into how the executive and leadership team currently leverage technology.
- Uncover day-to-day challenges and concerns with the existing environment.
- Identify inefficiencies and potential technology risks.
- Assess how reporting can be tailored to meet your business needs.
- Evaluate potential solutions and select the best fit.

Deliverables

During our two-day assessment, we will cover the following:

- Suitable solution tailored to your needs.
- Project implementation timeline
- Business process improvements
- Licensing and costs associated with upgrading to Dynamics 365
