

Evalúa Academic

Manage the learning cycle of your students

With **Evalúa Academic**, manage the **learning process** of your students and prepare them for the **Saber Examinations**.

Evalúa Academic is a technological tool that guarantees the compliance of any academic requirement: from the structuring of the test, the question bank elaboration and the test application, until the analysis of the evaluation's results.

Benefits for students and teachers

1. Improve the perception and understanding of the competency-based evaluation's methodology.
2. Active participation in the students' evaluation process.
3. Incorporation of evaluation to the learning processes across all grades, thus improving the institution's academic quality.
4. Active participation in the question banks' construction and maintenance processes.
5. Drive technological appropriation by students and teachers.
6. Individual development plans' generation based on the students' results.

Benefits for the institution

1. Evaluate and develop the level of the knowledge competencies to take the Saber Examinations from 3rd to 11th grades.
2. Generation of statistics in real time.
3. Improvement of the institution's quality with your faculty, and not through external resources.
4. Creation or strengthening of the auto-evaluation culture.
5. Timely recognition of improvements in the competency-based evaluation processes.

Evalúa's Technical Characteristics

Cloud solution

Evalúa is a cloud based platform, which allows the users to access through any computer, tablet or smartphone with internet connection.

Historical records

The platform allows the students to review all their previous evaluations and results.

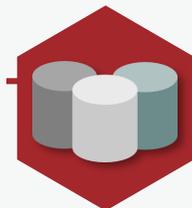

Real time statistics

Evalúa Academic allows the institution's faculty and directors and the Education Secretariats, to gather real time statistics and evaluation reports, so they can generate improvement plans.

Question banks

Evalúa Academic has pre-built question banks, with questions designed by Education Secretariats, teachers and Evalúa, based on previous national examinations for the different evaluated areas.

Questions by levels

The platform allows the teachers to structure questions and question banks for the different levels or Examinations (Saber 3, 5, 9 and 11).

A solution designed for **Education**

Since the beginning, EVALÚA® has been oriented towards competency-based evaluation for k12 students, and with time has developed solutions for higher education institutions, public and private sectors.
