

MAQ Software

MAQ Software delivers innovative software solutions for Fortune 500 companies. Using the latest agile engineering techniques in a focused and disciplined manner, we accelerate software initiatives that enable our customers to transform their industries.

MAQ Software serves customers in multiple industries including technology, retail, energy, and healthcare. We focus on Data Analytics, Cloud, Artificial Intelligence (AI), and Content Management and Collaboration at our three state-of-the-art engineering centers located in Washington state and India. Our company is closely aligned with Microsoft Corporation.

We have been a Microsoft Preferred Supplier for over 18 years. We hold Gold competencies in Data Analytics, Data Platform, Application Development, and Collaboration and Content.

Microsoft Dynamics 365 Expertise

- We helped our esteemed customers achieve faster time to market, automate business processes, and streamline all stages of service delivery by developing highly configurable and personalized solutions with Dynamics 365. Key highlights of these solutions include:
 - Creating a shopping cart experience
 - Integrating multiple external systems to resolve data silos and improve consistency
 - Establishing a notification network through multiple channels like email and MS Teams
- We have built an intuitive Dynamics 365-based portal that speeds up the review process by automatically creating tickets and assigning them to the appropriate privacy team with all relevant details

Other Competencies

We work with a wide range of Microsoft technologies. Our experience has helped us tailor our processes and methodology to meet the needs of Microsoft groups effectively. Our clients choose to work with us because we complete work on time and on budget.
