

Swift Migration to Azure Synapse Link

Transition Microsoft Dynamics data export to the contemporary Azure Synapse Link technology

Visionet's migration offering transitions from legacy data export methods to the contemporary Azure Synapse Link to facilitate data ingestion from Microsoft Dynamics. Our solution aims to optimize organizations' data ingestion pipelines, to enable organizations to make the most of their data analytics, business intelligence, and machine learning capabilities.

Benefits of Synapse Link

Fully managed, cost-optimized solution for operational analytics

Leverages Azure Synapse Analytics to enable end-to-end analytics solution with big data and data warehousing

Provides seamless accessibility to Dynamics data

Eliminates complex ingestion processes

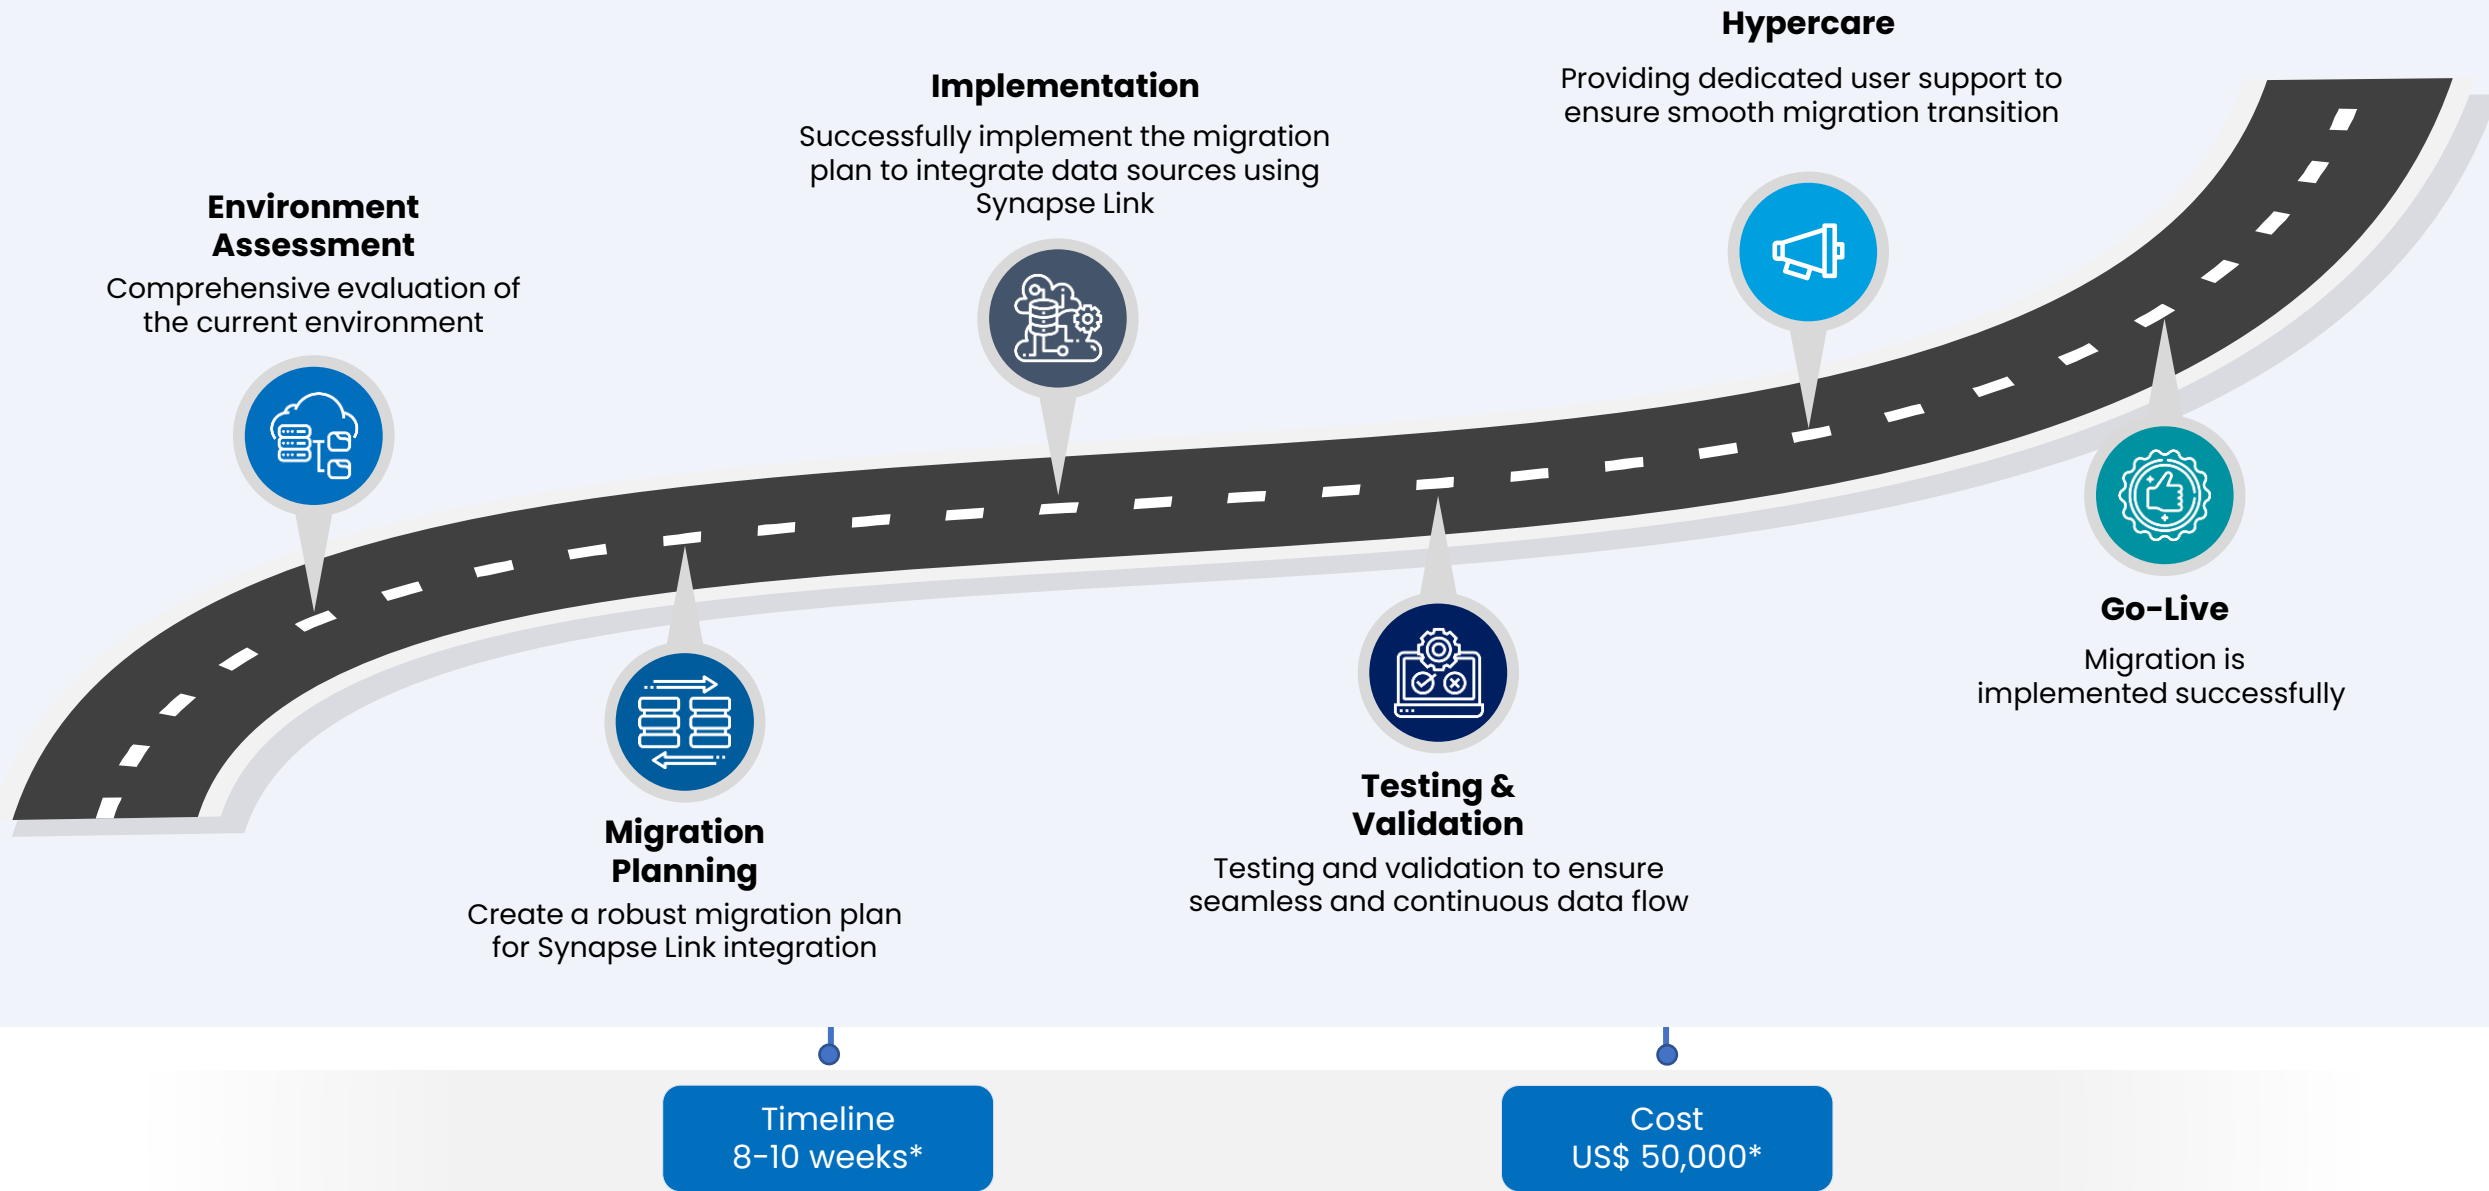

Perform real-time analytics on data without moving it

Speeds up time-to-insights

Make informed decisions on real-time data

Lower operational costs

Unified experience with easy integrations with analytical tools such as Power BI & Synapse Analytics

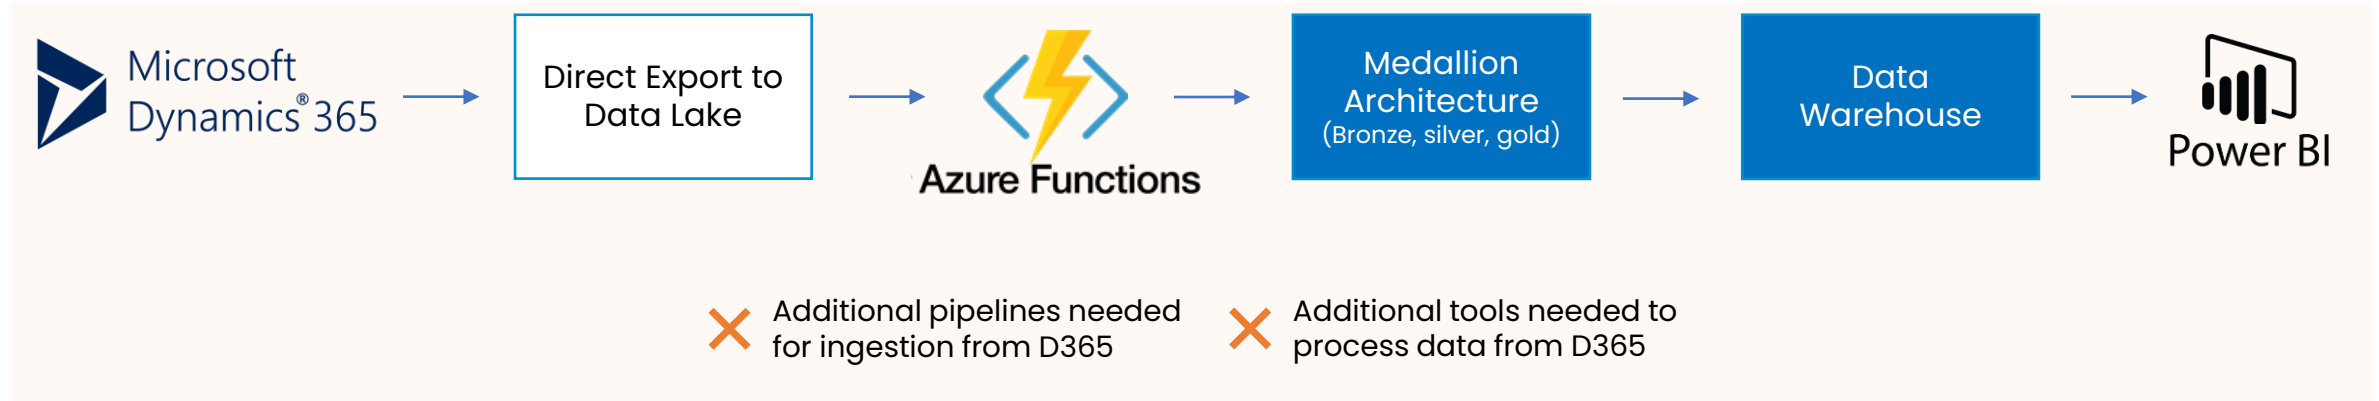

**The exact time and cost for your organization's Synapse Link migration can vary. An accurate time and cost estimate will be determined after the assessment stage.*

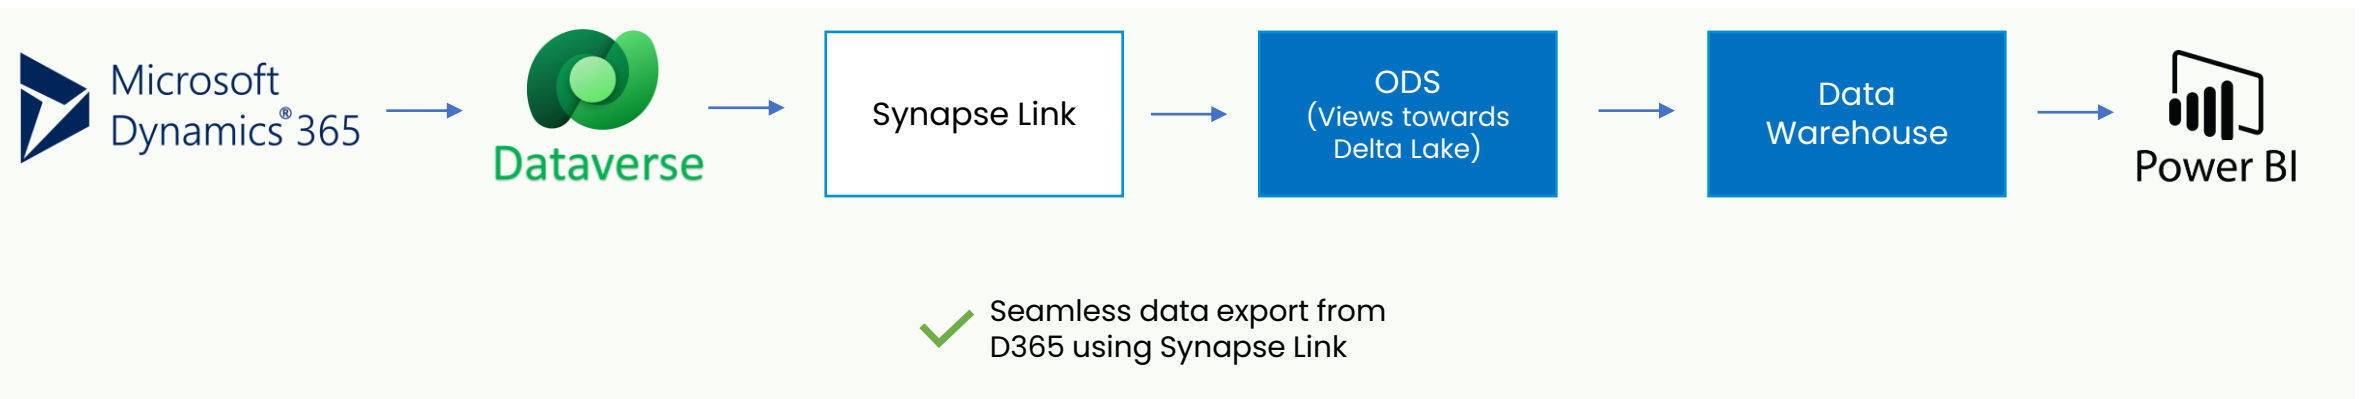

The Synapse Link Impact

Replace 'Direct Export to Data Lake' – Scenario 1

Direct Export to Data Lake

The Synapse Link Impact

Replace 'BYOD' – Scenario 2

BYOD

Azure Synapse Link

As a Microsoft Partner, Visionet harnesses the power of Azure technologies to deliver cloud-based, scalable, and cost-effective data and analytics solutions

We partner with clients to help construct a resilient data strategy and establish a robust data foundation by leveraging Azure-powered solutions

Our Synapse Link migration allows you to adopt contemporary data ingestion methods which lead to faster data processing, analytics, and decision-making. This helps to reduce the load on data teams, increases efficiency, and reduces costs

By partnering with Visionet, you can upgrade your data infrastructure for optimal performance and increased efficiency
