

Why Aximsoft “Azure Management Services”?

- ✦ You no longer need to set up, manage, and scale your Azure cloud resources. We ensure the total visibility & control of your dynamic Azure environment.
- ✦ We at aximsoft understand that cloud service monitoring & management forms a vital aspect in delivering value to your customers.

Deliver the stability and scalability needed for a business

Provision systems, services and deployments

Ensure database integrity and security

Provide best practices on Azure cloud management services

24/7 Consistent Support

Automation (CI/CD)

8 - Weeks Engagement

Focuses on implementing Continuous Integration and Continuous Deployment (CI/CD) pipelines to automate the software development and release processes.

Microsoft
Partner

Automation Roadmap

Week 1-2: Assessment and Planning

- Assess current development processes
- Plan CI/CD pipeline architecture

Week 3-6: Implementation

- Configure and implement CI/CD pipelines
- Integrate testing and deployment automation

Week 7-8: Optimization and Training

- Optimize CI/CD processes for efficiency
- Provide training for the development team

Microsoft
Partner

Deliverables

- Implemented and optimized CI/CD pipelines.
- Training materials and sessions for the development team

In the early stages of your product, deployment seems like a trivial issue. But as your product grows, cloud deployment becomes complicated.

“Aximsoft has addressed this situation by providing a comprehensive application deployment service”

Application Deployments

“Our deployment goals fits better in a cloud native environment”

“Aximsoft ensures the successful deployment and roll-out of the required system”

1. Minimize Downtime

2. Rollback on Failure

3. Script Everything to reduce Human Error

4. Version Control Everything

5. Continuous Integration and Deployment

6. Repeatable Deployment Across Environments
