

Succeed with your business processes

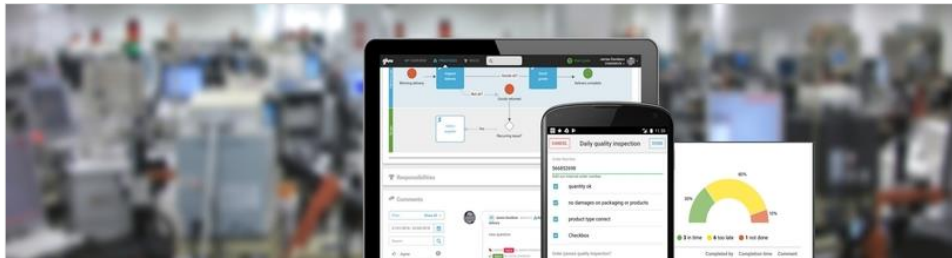

Gluu helps you to make recurring work easier to understand, execute and improve.

One, integrated platform that connects with Office 365:
Enable your teams to assign roles, create and collaborate around visual process flows, work instructions, cases and recurring tasks.

What is Gluu?

Unlike other BPM tools, Gluu combines **all** the moving parts of process management. Within minutes you can map a flow and have it executed by frontline staff via native Android and iOS apps.

Why customers use Gluu

They say Gluu enables digitization, risk and task management, and results in...

- **Fewer errors** and non-compliance issues.
- **Faster onboarding** and higher scalability of operations.
- **88% time saving.**
- Up to **10 x more process improvements.**

For Frontline Workers

- Easily complete tasks and forms on your mobile device.
- Find the right work instruction and save time by not having to contact HQ.
- Feel safe and confident knowing that you work the right way.

For Process Owners

- Connect people across the organization around your process.
- Make and communicate changes with a single click.
- Get ideas, questions and answer questions only once.

For Executives

- Ensure that your agreed way of working is followed.
- Delegate process ownership while staying in control of your customer journey.
- Avoid micro-management and get more time to develop the business.

“My colleagues now say “just Gluugle it...”

“Through more than 600 processes covering everything from ordering toilet paper to annual reporting, Gluu now binds our HQ and centers closer together. This has created a common way of working. All roles, from executives to staff in each center use it to understand, execute and improve our common processes.”

Rikke Sigdal,
**Business
Development Director**

Gluu helps to ensure that your company's good intentions are realized every time...

A Enable managers to digitalize and manage their own process flows

- Business users draw their own process flows, add instructions and tasks with ease.
- **90% reduction in coordination time.**

Save time and avoid errors with digital task management and registrations

- Business users let Gluu send recurring tasks with forms to the right role at the right time. Data is saved directly through Microsoft Graph.
- **Higher data quality and full traceability.**

Ensure compliance with IT Security, QHSE, GDPR and more

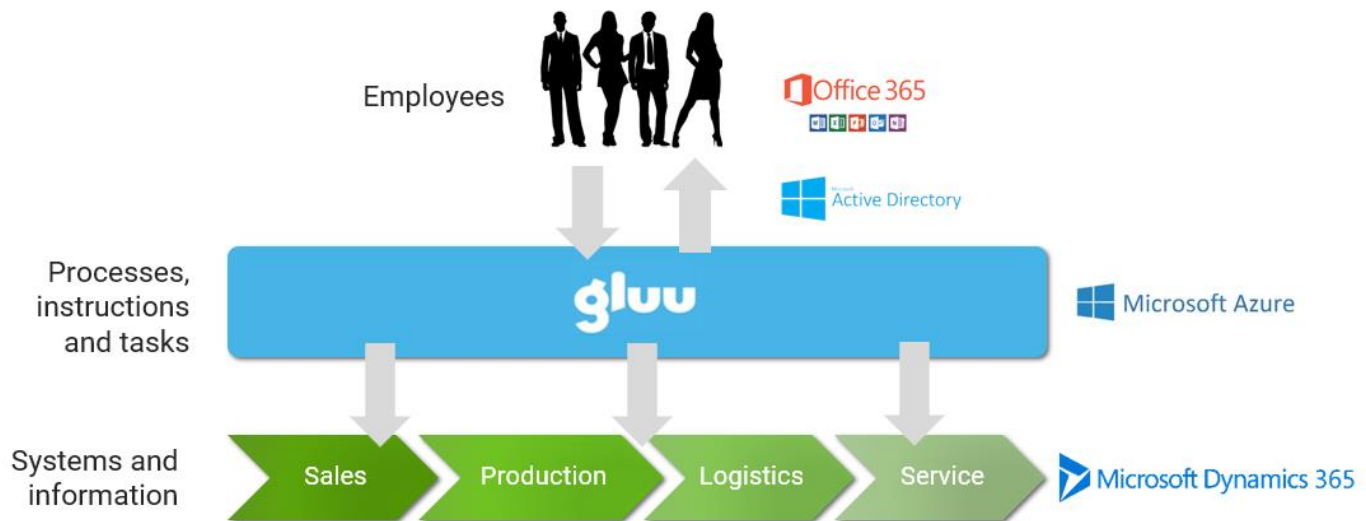

- Auditors see if processes are followed each time with automatic reporting of time, place and person.
- **Go from sampling to full understanding of compliance.**
