

Enterprise – Zero Trust Strategy & Journey Map

In today's rapidly evolving business environment, organizations require a security model that is agile and tailored to the complexities of the modern workspace. John Keells IT is at the forefront of this paradigm shift. We offer an established Zero Trust practice designed to provide unparalleled Cloud security services for all clients.

Our Zero Trust Journey

John Keells IT, a trusted leader in Cloud security services, has a proven track record steering numerous organizations through their Zero Trust journey. In 2021, we achieved a major milestone by implementing a full-fledged Zero Trust architecture, encompassing Identity, Device, Network, Application, Data, and Infrastructure for Sri Lanka's largest conglomerate across 7 diverse industries.

Our Comprehensive Approach

We take a comprehensive approach to Zero Trust, covering an organization's entire digital estate. It's not just security; it's an end-to-end strategy. At John Keells IT, we seamlessly integrate all elements for a strong and unified security posture.

Zero Trust Pillars and Corresponding Microsoft Tools

- **Identity:** Microsoft Entra ID (Formerly Azure Active Directory), Microsoft Entra ID Protection, Defender for Identity
- **Device:** Microsoft Intune, Defender for Endpoint
- **Data:** Microsoft Purview, Defender for Microsoft Office 365
- **Infrastructure:** Defender for Cloud, Azure Monitor, Update Management
- **Apps:** Defender for Cloud Apps
- **Network:** Azure Bastion, Azure Front Door, Application Gateway, Azure DDoS Protection, Network Watcher, Azure Firewall
