

Fast-Track Modernization with Microsoft Cloud Services

Maximize your investments in the Microsoft ecosystem with comprehensive, innovative Microsoft cloud solutions tailored to your business.

Maximize the Value of Your Investment

We are more than just a consulting firm and an advisor; our experts work alongside you to empower your business with the latest technology solutions in the Microsoft ecosystem and beyond with:

Microsoft Cloud Services

Microsoft 365 Licensing

Select the right Microsoft licensing and streamline operations, including seamless Microsoft 365 tenant migration, and Exchange Online and Microsoft Project Server deployments.

Azure Infrastructure & Security

Harness the full potential of Azure for your infrastructure, applications, and data with licensing support and assistance for migration, architecture, deployment, management, and security.

Microsoft Teams Collaboration

Experience effective collaboration with services focusing on Microsoft Teams implementation, migration, calling, customization, integration, and support.

Microsoft SharePoint Intranet

Enhance productivity, information sharing, document management, and consistent communication with custom SharePoint services - migration, upgrades, and updates.

Power Platform Business Solutions

Enable and empower with automated workflows and business processes through Power Apps, Power Automate, and Power BI solutions tailored to your unique business needs to drive efficiency and innovation.

Collaboration Training & Support

Big Cloud University

Empower business users with on-demand, customized and live training options to better utilize their productivity tools and enable efficient collaboration.

Collaboration & Integration

Accomplish your integration goals through APIs and other connection options for Microsoft 365 to leverage external data across SharePoint, Azure, Microsoft Teams, and Power BI.

We consider Big Cloud a partner not just a service provider. Their hands-on approach to implementing and supporting our team through our migration to Microsoft 365 has transformed our workflow and collaboration methods. Their attention to detail, personalized training sessions, and unwavering support have not only optimized our productivity but also enhanced our overall IT capabilities. We highly recommend Big Cloud to any organization seeking reliable and efficient solutions."
