

## Threat Protection Workshop

WORKSHOP

Learn how to put next-generation Microsoft security tools to work for you.

### Workshop Highlights

-  Identify real threats to your cloud environment with Threat Check
-  Understand your security goals and objectives
-  Deliver the end-to-end Microsoft security story
-  Showcase security scenarios with product demos
-  Develop joint plans and next steps

### Improve Your Security Posture With a Microsoft Threat Protection Workshop

Organisations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Get help achieving your broader security objectives — and identify current and real threats — by scheduling a Microsoft Threat Protection Workshop.

We can help you develop a strategic plan customised for your organisation and based on the recommendations of Microsoft cyber security experts. You'll gain visibility into immediate threats across email, identity, and data, plus clarity and support on how to upgrade your security posture for the long term.

Member of  
Microsoft Intelligent  
Security Association

## Why You Should Attend

Given the volume and complexity of identities, data, applications, devices, and infrastructure, it's essential to evaluate how secure your organisation is right now, and to learn how to mitigate and protect against threats moving forward. By attending this workshop, you will be able to:

- Identify current, ongoing risks to your cloud environment
- Walk away with actionable next steps based on your specific needs and objectives
- Document your security strategy for the benefit of key stakeholders
- Better understand how to accelerate your security journey using the latest tools.

## What To Expect

During this workshop, we'll partner with you to strengthen your organisation's approach to cyber security. We'll help you better understand how to prioritise and mitigate potential attacks, with:

- Deep analysis from Threat Check of cyber security threats found targeting your organisation
- Actionable recommendations to help immediately mitigate the identified threats
- A detailed assessment of your IT and security priorities and initiatives, direct from cyber security professionals
- An inside look at Microsoft's holistic approach to security, and how it relates to your organisation
- Demonstrations of integrated security, including the latest tools and methods
- Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps.

## Our Workshop Includes

## Who Should Attend

The workshop is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Data Protection Officer
- Data Governance Officer
- IT Security, IT Compliance, and/or IT Operations
- Data Governance

“The Threat Protection Security Workshop helps our clients understand their maturity levels within different cybersecurity domains.”

Martin Riley  
Director of Managed Services

## About Bridewell

Trusted globally by highly-regulated and complex organisations to deliver tailored cyber security, managed security, penetration testing and data privacy services, providing protection against cyber attacks and driving continuous transformation.

Bridewell are a PCI DSS QSA company with NCSC, CREST, ASSURE, IASME Consortium, SOC2, Cyber Essentials Plus, ISO27001, and ISO9001 accreditations. It's award-winning team of experts, comprised of highly trained and certified consultants work closely to understand organisations key challenges and ambitions, creating flexible outcome-focussed solutions to strengthen cyber security posture, ensuring business continuity by keeping them protected and productive from the inside out.

In today's ever-changing digital economy, the importance placed upon critical infrastructure cannot be underestimated, with clients in sectors including transport and aviation, financial services, oil and gas, government and communications.
