KONNEKT

Store your data in Office 365

a brand of

glueckkanja gab

Why KONNEKT?

Online:

No permanent sync = no waste of local disc

Large Libraries:

Work with libraries >100.000 files

Drive Letters:

Enable legacy apps to use SharePoint Online

VDI:

Designed to run in VDI environments

Auto Mapping:

Automatically maps all or a defined subset
of sites you have access to

Basic Architecture

SharePoint Online

Windows Client

Device Management

SharePoint API

Graph API

MDM Policy

or GPO

optional

Basic Architecture

SharePoint Online	Windows Client	Device Management

SharePoint API →

← Graph API →

MDM Policy ←→ or GPO

optional

✓ **No Backend or Local Server**
(Data flows directly between client and SharePoint Online)

✓ **Powerful APIs**
(usage of modern Graph and SharePoint API to ensure features, security and performance)

✓ **No Super User**
(access to M365 happens in the context of the current user, only)

✓ **Independent of**
.NET, Citrix versions, Microsoft365 Apps, OneDrive Sync Client)
