

iMIS

BUILT FOR YOU.

Achieve More with a Platform Purpose-Built for Associations

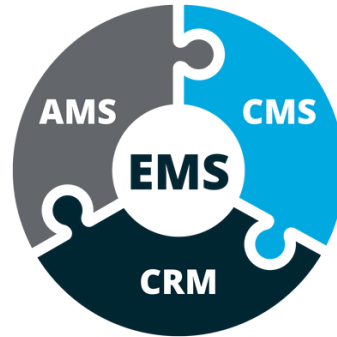

Modern association software that gets you.

iMIS, the world's only Engagement Management System (EMS), is designed to meet your unique core membership needs with the flexibility to extend and grow all with automatic continuous upgrades.

Harness the power of Microsoft.

Powered by Microsoft Azure, the world's #1 cloud computing platform, iMIS provides automatic upgrades, world-class data security, and peak performance.

Fuses your member data with your web presence.

Purpose-built for the way associations work.

Get a complete picture of your members with a single data source.

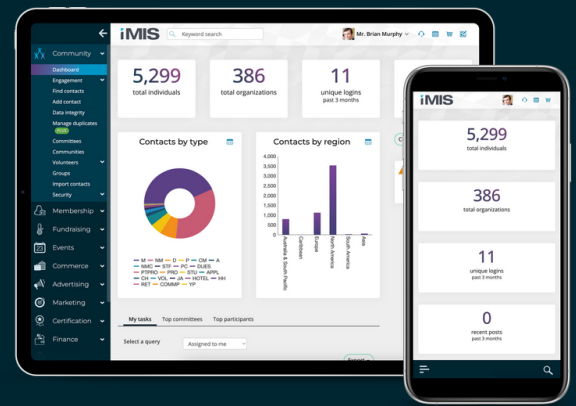

Easily handles your complex billing & pricing structures.

Delight members with personalized web experiences.

“Something that I really love about iMIS is its flexibility. We can put any piece of data on a page that we want either for our staff or for the public. And as a bonus, our staff can get to the data that they need anywhere that they are with the staff site.”

Texas Bankers Association

Connects to your favorite association apps.

Enjoy all the features you need to effectively manage your association plus a powerful API with 100s of proven integrations, easy to use dashboards and reports, and an optional Web CMS.

Unmatched ecosystem of support.

With iMIS, you're never alone. Only iMIS offers an unmatched ecosystem of award-winning client support and online education, an independent users' group and a growing network of 80+ consulting partners to help you succeed.

Natively provides the core features you need.
