

NAVIGATE YOUR NEXT

INFOSYS INTEGRATE+ FOR AZURE

Turbocharge Your Digital Journey

A photograph of three business professionals in a meeting, overlaid with a semi-transparent blue filter. The man on the left is smiling and holding a document. The man in the middle is also smiling and looking at the document. The man on the right is partially visible, wearing glasses. In the background, there are charts and a window.

Why Re-imagine the Way we Integrate today?

Digital Disruption and The Need for Speed!

...Old ways of **disruption** are over!

- ✗ Big Bang Approaches
- ✗ Large Projects
- ✗ Huge Investments
- ✗ Long Time Span
- ✗ Win or Fail Mentality

Digital disruption demands

10x more **Innovation**

20x more **Velocity**

100x wider **Impact**

1/10th of **Cost**

...New ways of **disruption** are here to stay!

- ✓ Iterative Approaches
- ✓ Small Teams, Small Projects
- ✓ Small Investments
- ✓ Shorter Time Spans
- ✓ Feedback Loop for Guaranteed Success

Integration challenges in rapidly changing Digital Ecosystem

Pervasive Integration

Agility in connecting SaaS
to Enterprise SORs

Complex Mobile
Integration to unlock core
information data

IOT Integration

Enable cloud for
channel-less integration

B2B Modernization

Real-time analytics on
core data

All-in-one cloud solution for
cloud based integration

The more you innovate, the more you need to integrate (Gartner).

Why Azure Integration Services?

Tailor-made **Azure Integration Services (AIS)** might just be the 'Silver Bullet' for Enterprises already invested in or planning to invest in Azure Cloud

Ability to tame, store and stream fast data, configure event-triggered workflows, processes & powerful analytics. **Not just integrate!**

Seamlessly **interconnects everything** on-cloud and on-premise including complex A2A, SaaS, B2B & IOT use cases.

Packs in **holistic integration** capabilities including APIM, EAI, Process orchestration, Messaging & events.

Lower TCO though Agile and Integrated operations for Applications & Integrations under a single 'Azure' umbrella

Pre-integrated access to leverage all essential cloud services on Azure OOTB.

'**Plug and play**' solutions and flexible al-a-carte subscriptions that leverage your existing Azure cloud investments.

Server-less ecosystem that is flawless, nimble and massively scalable to the core.

Ability to **integrate and dis-integrate** dynamically on-demand.

AIS is **NOT** just any other IPAAS

AIS addresses modern integration use cases OOTB

API Management

Cloud ETL

B2B, EDI

Blockchain

EAI, A2A

SaaS Integration

Data Lake

IOT Integration

ERP Integration

Citizen Integrator

Why Infosys?

Infosys Experience is backed by Enablers for Robust Execution and Scale

4000+

Consultants on Integration & API, **150+** on Microsoft Integration

Cloud based Integration Architecture Jumpstart kit, Core Component Reference Implementations

Integration maturity assessment model for Assessment and Roadmap development

15+ Years of Collaboration with Microsoft focused on joint innovation

Accelerators for Native Cloud
– Externalization, Visibility / Reuse of assets

Process robustness e.g. CI, CD tooling with close to 100% Automation

- Azure Integration Platform setup, Administration & Governance
- Integration Architecture and design
- Establish and maintain technology Frameworks

Platform Services

- Integration Core framework development
- Integration Solution development
- Integration Factory Setup & Services

Implementation Services

- Azure Integration Architecture definition
- Platform Architecture
- Cloud & Integration Strategy and Consultancy

Architecture Consulting

- Engineering and Support
- Monitoring and Troubleshooting

Support services

Integrate+ for Azure: Infosys has proven Leading Edge Credentials on AIS

Grounds-up offering for rapid, painless execution.
Jumpstart and accelerate Azure Integration adoption with Infosys

Infosys Integrate+ Platform for Azure

Jumpstart Kit for Azure Integration Platform Setup with 50% faster Time to Market.

Core Framework Components on Security, Universal Logging & other Cross-Cutting Concerns. Azure API Auto-Creator.

Pre-configured curated patterns aligning with AIS best practices recommended by Microsoft.

Infosys Azure Integration DevOps Package for streamlined automated execution eliminating manual plumbing activities

Intelligent SmartMap Tool to convert legacy transformation components.

Pre-Curated monitoring dashboard on Azure Insights for Business Activity Monitoring.

Infosys Promise

Faster Time to Market

Pre-Curated Platform Scripts

Ready to Export Analytics

Lower TCO

Reduced Cost of quality

Increased Productivity

The Infosys Edge

- Cloud based Integration Architecture Jumpstart kit
- Integration maturity assessment model
- Cloud Factory services
- Cloud based Integration Architecture definition
- Comprehensive Monitoring framework

THANK YOU
