 NAVISPHERE® **VISION**

RISE OF DIGITAL BUSINESS AND SUPPLY CHAIN TRANSFORMATION

“Visibility is a prerequisite for making the supply chain agile, resilient, competitive, and profitable.”

WHY ARE COMPANIES CRAVING SUPPLY CHAIN VISIBILITY?

45% growing global operations/complexity

43% the need to improve supply chain speed/accuracy

30% increased demand for accurate/timely shipments

26% business mandate to reduce supply chain execution costs

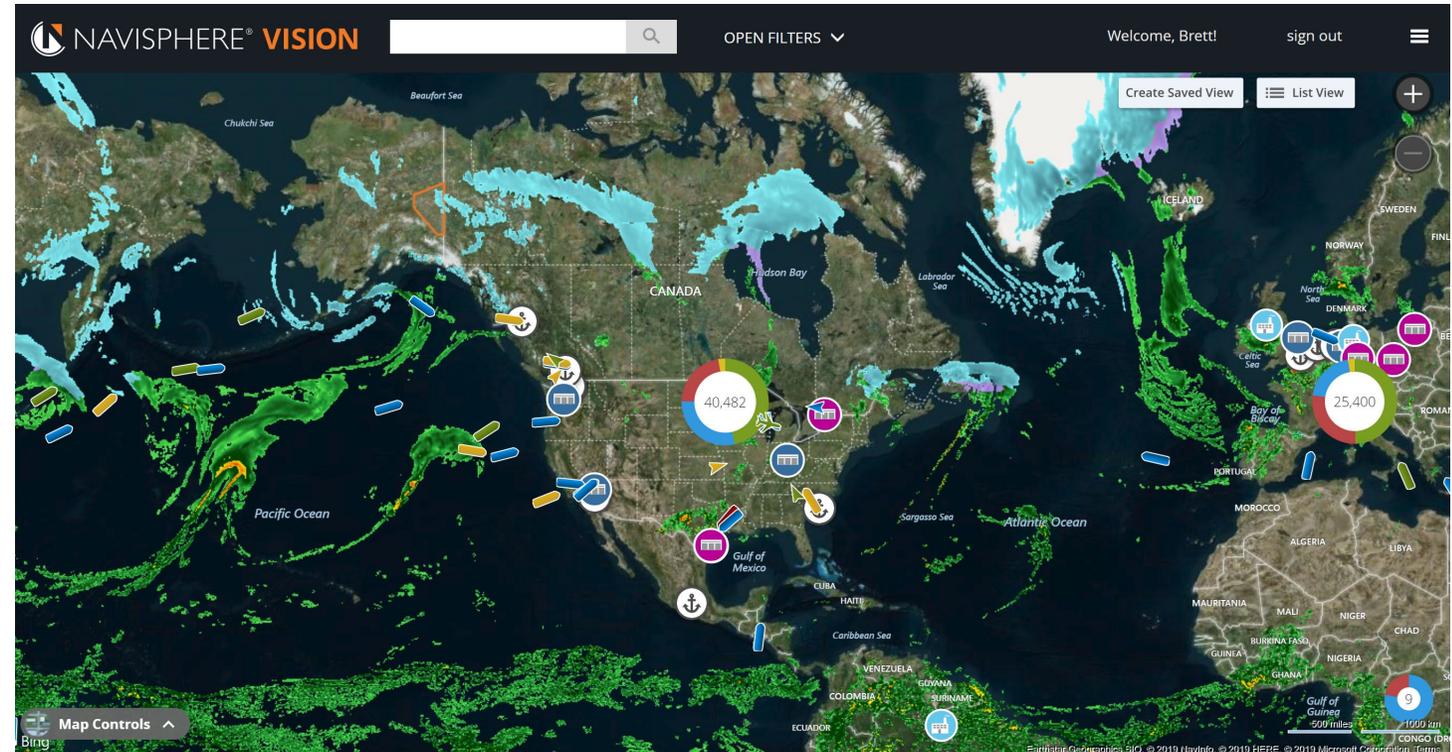

NAVISPHERE VISION

Licensed SaaS global supply chain visibility platform that uses digital connectivity to ingest sources of information across your global supply chain into a single user interface.

Combines real-time order, shipment, and inventory visibility with weather, traffic, and current events.

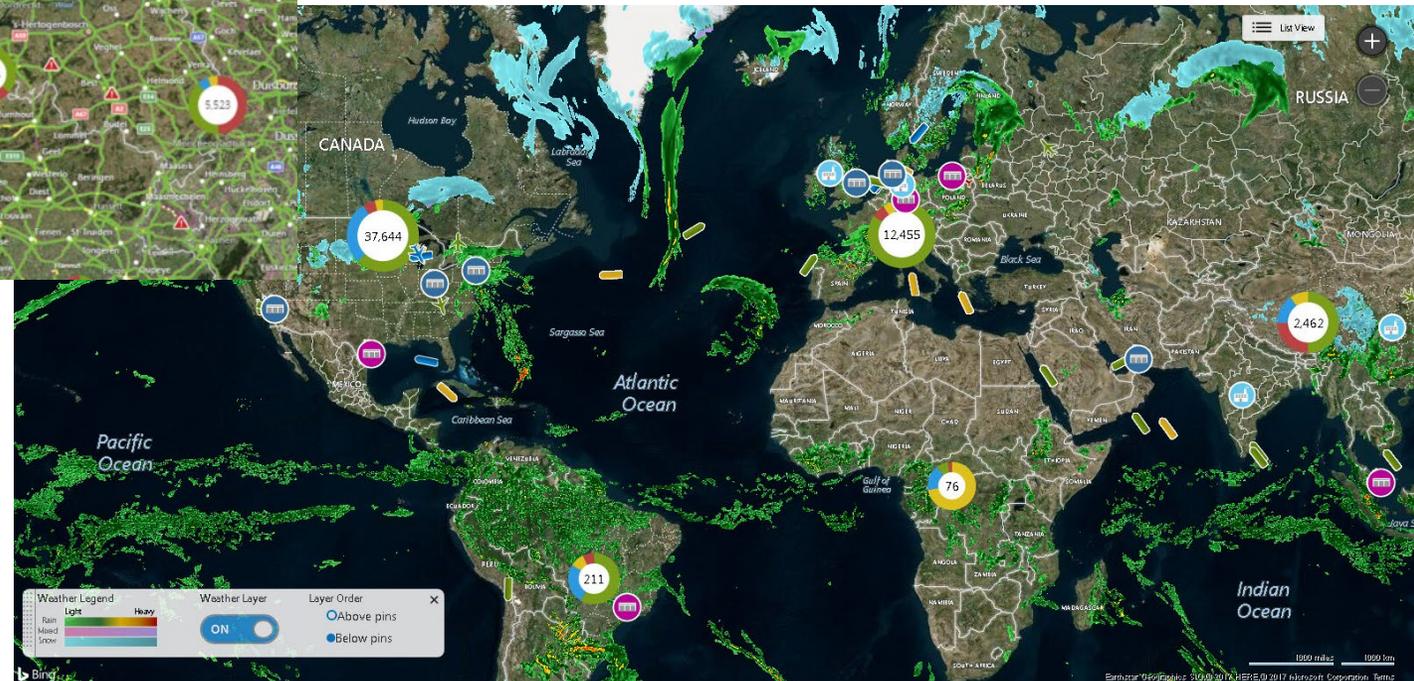

Artificial intelligence and machine learning to provide predictive Estimated Time of Arrival (ETA) and proactive notifications of supply chain risk.

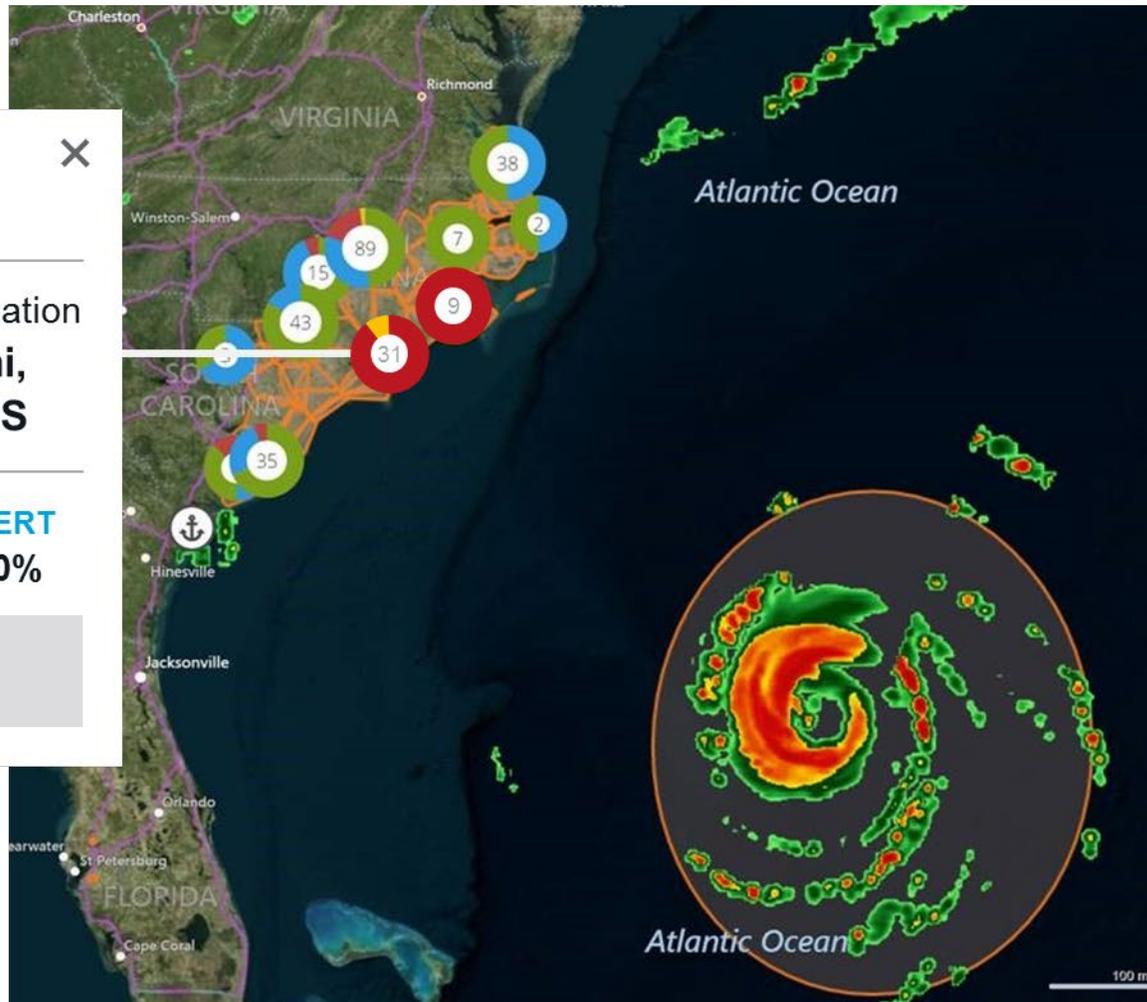

Get a detailed view of your global shipments. Drill down to the ocean vessel, airplane, truck, or train level for all of the details about a particular shipment.

Experience real-time visibility, around the world. Know where all of your shipments are, on all modes, and understand where potential external disruptions could occur.

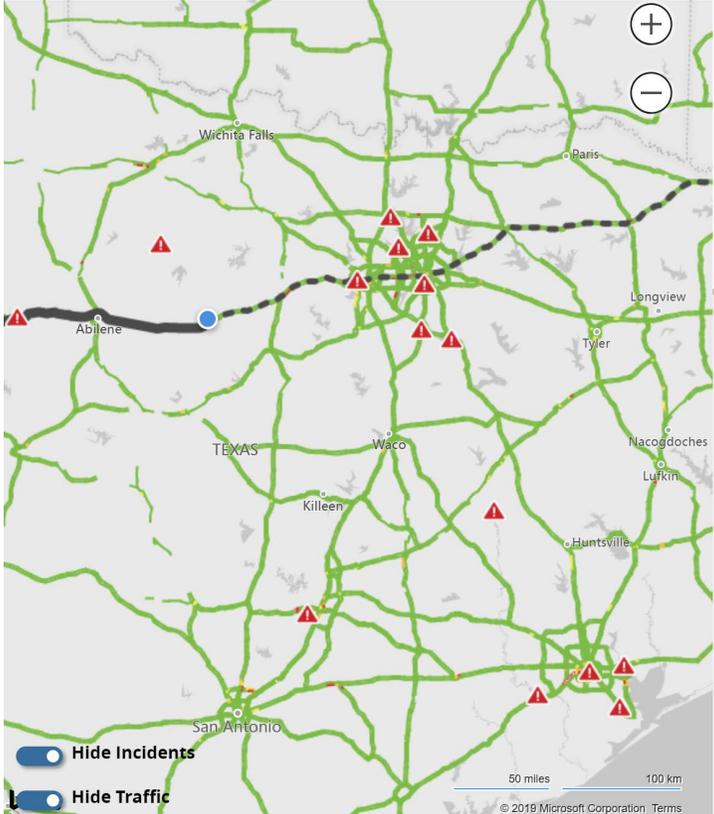

PROACTIVELY AVOID DISRUPTIONS

Manage and avoid supply chain disruptions through proactive shipment alerts. Improve planning and make smarter, proactive decisions to mitigate delays.
