# Who We Are

At Kurvv, we incorporate the best data scientists and developers from leading Machine Learning companies like Microsoft, Amazon, and Google, to **make AI accessible** and **user-friendly** for companies of all sizes.

Our teams utilize Machine Learning to make data driven forecast about your business.

**WE PREDICT THE FUTURE USING COMPUTERS!**

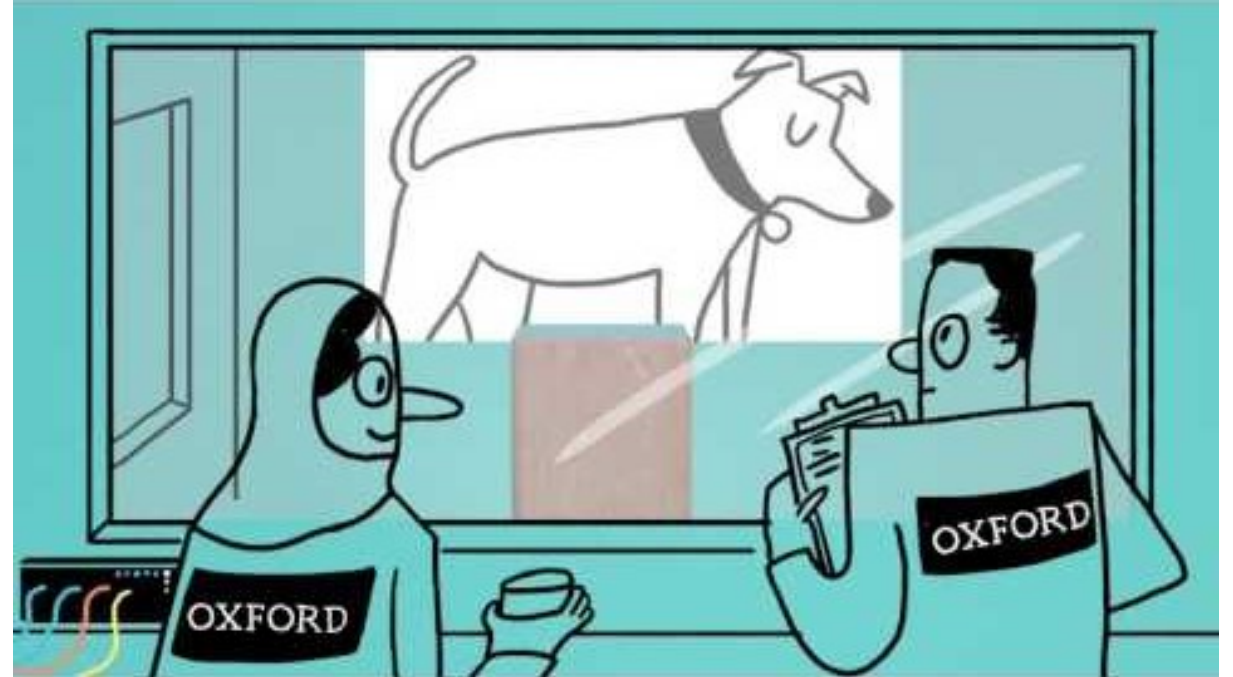

# Machine Learning

Machine Learning uses **statistics** and **probability** to find **patterns in data**.

**Data includes:**

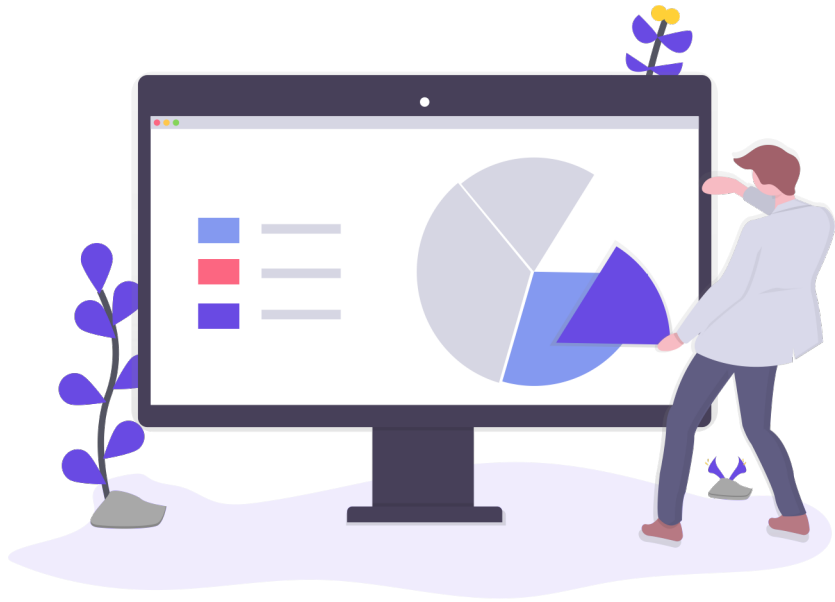

- Numbers
- Words
- Images
- Clicks
- Anything!

<source : Oxford sparks - what is Machine Learning>

If it can be digitally stored,  
it can be used in Machine Learning

# How Kurvv Can Help

- Revenue Forecasting
- Product Recommendations
- Propensity Modeling
- LTV Segmentation (Customer)
- Sales Forecasting
- Demand modeling
- Predictive Maintenance
- And more on the way!!!
