

REVOLUTIONIZES PRODUCT RETURNS MANAGEMENT

VERSO improves operational performance, decision making and cash flow by allowing all supply chain stakeholders to participate in an advanced returns management platform

VERSO is a workflow management system that uses the best of the Microsoft Azure cloud suite combined with a secure blockchain network to:

- Manage workflow across all supply chain participants
- Predict product returns activity using Machine Learning
- Process warranty claims accurately and quickly

**TRANSFORMING YOUR
PRODUCT RETURN PROCESS
FROM A COST CENTER TO A
STRATEGIC ADVANTAGE**

BENEFITS INCLUDE:

- Accelerated cash flow for warranty claims
- Reduced operational cost
- Enhanced efficiencies
- Better inventory and workforce management
- Predictability of product returns
- Reliable warranty management
- Happier Customers
- Better decision making
