MyAdmin®
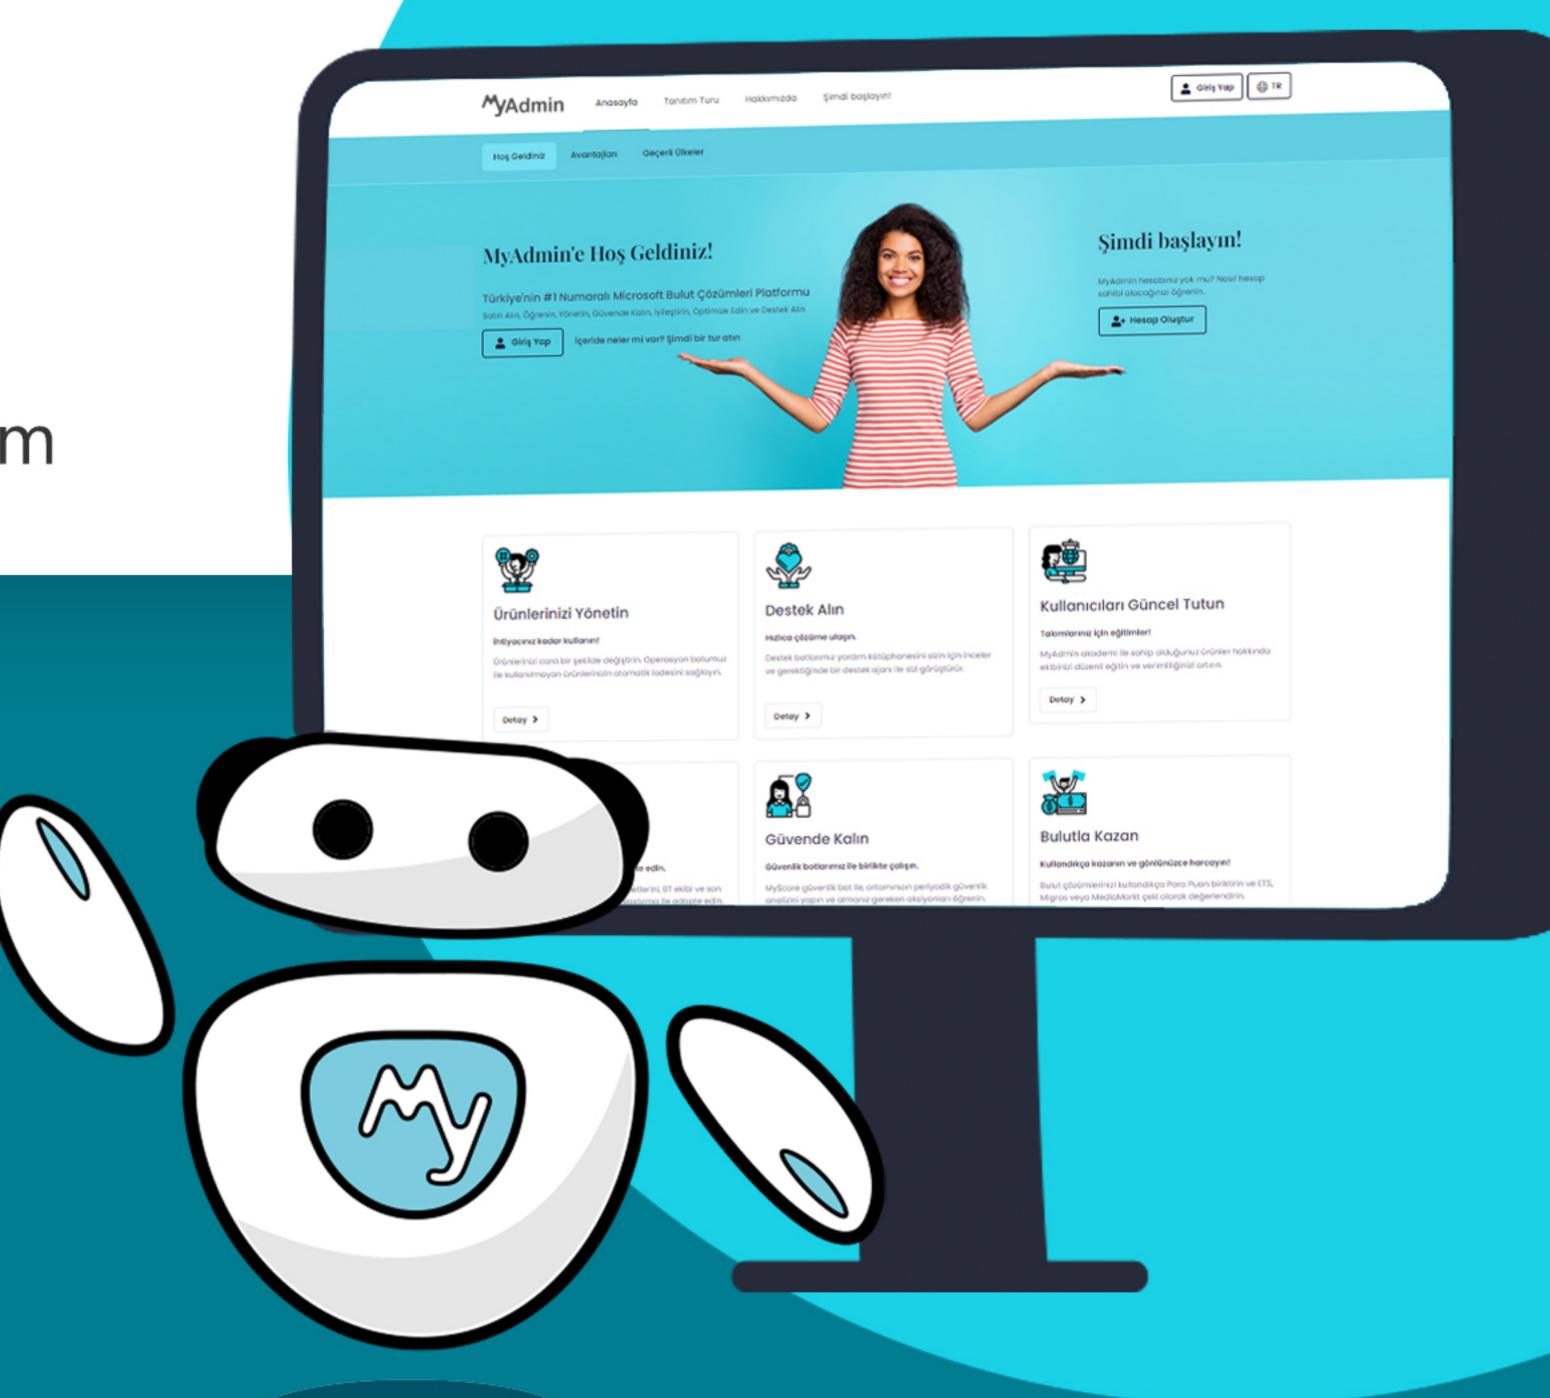

Turkey's **#1** Microsoft Cloud Solutions Platform

Microsoft CSP

Self-service License Management

Cost Optimization and

Advanced Security Solution

MyAdmin enables the Makronet customers to purchase **Microsoft Cloud Services**, manage their licenses, get technical support and trainings, improve productivity and security with gamifications and workshops, and earn money points with loyalty programs.

With MyAdmin, you can add or remove licenses, choose different licensing models, seperate your invoices, get benefit from various workshops and technical articles, increase cyber security awareness and improve security posture, and earn money points with programmatic campaigns.

Manage Your Products

Use as much as you need!

Exchange your products live. Return your products that you do not use automatically with our operation bot.

Get Support

Get the answer right away.

Our support bots will go over the help library with you and, if necessary, connect you with a support agent.

Keep Users Up-to-Date

Trainings for your teams!

With the MyAdmin Academy, you can routinely train your team on the products you own and boost your productivity.

Improve Security

Work with our security bots to help you.

Make frequent security assessments of your environment with the MyScore security bot and understand what measures you need to take.

Adaptation Center

Adapt new products to your users.

Adapt Microsoft cloud services you've acquired to your IT team and end-users with workshops and gamifications.

Win with Cloud

**Win as you use it and spend it as you wish!**

Earn Money Points as you use your cloud solutions and redeem them for discounts, vouchers or donation.

MyAdmin HR

Meet your employee needs easily!

Meet your IT and software employee needs with MyAdmin HR by renting or hiring and win Money Points.
