## Bookado is SaaS Product

Bookado is a SaaS product solving numerous problems, simplifying the room booking process in any organization. Thanks to Bookado, employees can focus on their tasks, not on repetitive activities related to room reservation.

## Your benefits

- Safe time of your employees and let them focus on important activities
- Avoid conflicts and frustration while using meeting rooms
- Increase efficiency and get rid of unused bookings
- Deploy solution in one day by using new innovative approach instead of displays
- Easy in use, no training required

” Booking rooms sounds like a trivial task but many years of experience in organisations from small to large ones show, that it's far from trivial. Having a tool like Bookado makes meeting comfortable without hassle and additional stress. We save time but for most we make our working environment healthier

**Krzysztof, Managing Director, ValueLogic sp. z o.o.**

# How it works

## Better efficiency

- More users reserve their ad-hoc meetings
- This reduces number of potential conflicts and allow to focus on meeting goal
- Meeting earlier results in taking decisions faster

## Smart Office stars here

Be ahead of your competition thanks to new and smart technology. Make your office space smarter!

## SaaS solution

- Build on reliable and secure Microsoft Azure platform
- Integrates with your organization's MS Office 365 calendar
- Employees use their mobile devices and enterprise login & password to login

## Subscribe today

- Find and book a meeting room in up to 10s instead of minutes
- Book on a go, using your mobile device
- Pay monthly a constant fee starting from 5EUR (excl. VAT) per room
- Check yourself and contact us to start your FREE trial

## Bookado

is a product designed and built by professionals with intention to change the office space into a smart space, that helps employees to focus on their business tasks and reduce manual effort – waste.
