The admissions landscape is rapidly  
changing. Are you ready to put your  
best foot forward?

Tell your story using Cirkled In and let  
colleges find you!

## **Why Cirkled In?**

Cirkled In is an award-winning, secure, digital  
portfolio and profile platform designed just for  
YOU.

- Showcase your achievements, activities,  
skills and passions, complete with pictures,  
videos, and recommendations from  
teachers.
- Get discovered by colleges and universities.
- Increase your acceptance rate for ALL your  
applications.

**Prakriti Shukla**

I am in 9th grade at Tesla STEM School. I am a driven and an independent individual. I am active in math and science competitions, music programs and developing as a holistic person. I love math and working on numbers. Being in STEM choice school allows me to strive to be better and challenge myself in the academic standpoint. I give back to the community by volunteering in Take Action Club, Recycle club, and more, in my community.

**My Hobbies :** Some of my hobbies include playing soccer, participating on a competitive swim team (Wave Aquatics), and programming. In addition, I enjoy playing the piano and singing as well. I also play the violin for my school orchestra.

**Something I'm Proud Of :** Recently I helped an employee at a local department store. Employee was so delighted that he came back and gave me a gift. He commented, "I have never met such nice kid". It was very comforting to know that I am developing as an empathetic and caring individual.

Grade 9 | Sep,2017 - Present  
STEM High School, Redmond, Washington  
GPA: 4.0/4.0

I am super excited that I got a place in STEM school. I love being surrounded by great teachers and fun peers.
