

Take the complexity out of IoT

IoTConnect™ is an Azure-based platform and set of pre-built industry and vertical-specific solutions that help you jump-start development of IoT-enabled systems and services. With hardware design and manufacturing support, artificial intelligence, and data analytics you can quickly build innovative solutions that transform real-time operational data into valuable insights. Avnet's IoTConnect takes the complexity out of IoT so you can maximize ROI from the start.

IoTConnect: An end-to-end solution that helps take the complexity out of IoT

Secure connectivity and control

Easily connect and manage all of your devices, data, people, and systems using a secure, Azure-based platform.

Optimized operations

Lower your costs and increase productivity by making existing processes and infrastructure more efficient than ever before.

Data-driven insights

Use real-time analytics and artificial intelligence to gain deeper insights, make informed decisions, and drive innovation.
