

Data analytics to empower human intelligence

Reduce your research time while improving your team performances

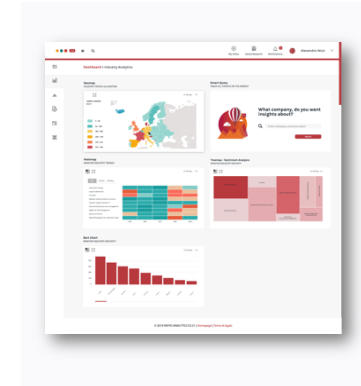

Value Proposition:

- Reduce your research time by instantly creating real-time data analytics.
- Easily integrate our data in the tools your teams use every day.
- Access best-in class company data to convert more clients and increase revenue.
- Work collaboratively with your colleagues based on your top priority.
- Identify hidden market opportunities and trends before others.

What is INVYO?

INVYO develops cutting-edge business intelligence tools that enable all company sizes to adopt a data-driven strategy.

Raise the potential of your Microsoft business applications

Seamlessly integrate INVYO Analytics to power your data-driven experiences and get a 360° view of your customers and markets:

- Powered BI
- Dynamics CRM
- Dynamics 365 Market Insight

A game changing solution

- Industry centric data platform
- Open and adaptable SaaS architecture
- Fully automated data classification process
- Intuitive interface and beautiful analytics

Client testimonial:

"INVYO Analytics brings unique insights to our open platform, in the form of differentiated research built on AI and Big Data, which allows Refinitiv customers to make bold decisions and offers an independent focused view on the Fintech landscape."

Jorge Tavío Ascanio,
Market Development Director EMEA

How we do it?

By leveraging the power of data contextualization.

Behind business intelligence lies the magic of processing unstructured data from millions of sources with advanced technologies to create custom and actionable insights.
