Dashcam for machine errors

Select your machine

The screenshot shows the 'Smart Visual Monitoring' interface. On the left, a list of machines is displayed: 'Maschine 1' with a red warning icon and a dropdown arrow, 'Maschine 2' with a green checkmark, and 'Maschine 3' with a green checkmark. Below this, a video player shows a camera view of a machine. To the right of the video player are controls for 'Anfangszeit' (0:00) and 'Schlusszeit' (0:30). Further right is a 'Kommentar schreiben:' section with a text input field, a search bar, and a feed of comments from users like Maximilian Mustermann, Mareike Musterfrau, Roger Redenswert, and Ingo Igel. At the bottom, there is a 'Hauptalarm:' section with a button for 'Alarme und Meldungen' and a 'Tags:' section with a 'Tags verwalten' button.
