# 1. What is Barcodentum?

Barcodentum is a Barcodes Creator API using an input string of maximum 55 chars and outputs a base64 encoded string image of a barcode among: EAN-13, JAN-13, UPC-A, ISBN, ISSN, Code 128-A, Code 128-B, Code 128-C, automatically recognized, powered by Artificial Intelligence and powerful cloud infrastructure.

## Target Audience

This API is meant for IT developers which are making apps for domains like: e-commerce, manufacturers, distributors, retailers, product management etc.

## 2. Which are the Benefits?

### **Automated Process**

All processes are automated. You just have to follow the required rules for getting a high accuracy reading.

### **Easy to Integrate in your APPS**

We have multiple sample source codes presented on our website written in different programming languages which will help any developer to easy integrate the API in the APP(s).

### **Chat Support 24 x 7**

If you have questions or need some help, we are glad to quick answer you and offer the best we got.

### **You Own Commercial Copyright**

Yes, you may call our API in your APPs and feel free to sell your applications without any extra fee than our pricing packages.
