

Move items with few clicks

The app that co-operates with your financial system

MobiSolutions is a package of apps which makes your business practices more efficient.

We cover the areas Logistics, Sales & B2B, Time & Service, Retail and mobile BI. Employees can enter data on the spot and make decisions based on updated facts.

It's fully integrated with **UNICONTA**, so all you have to do is use our apps to simplify your business procedures.

Little Beacon installs and implements the system completely without risk to you. This implies, inter alia, that the system is installed in parallel with your existing economy system at the pace you want.

Promotion offer

For only **40 EUR** per month/per device you get an easy and manageable app:

- Storage system with standard functions
- 360° mobility
- Safe to use and with real-time data
- Installed in 2 days
- Support and counseling
- Without extra costs and risks
