### Introduction to Instant Loan Audit

Massive numbers of loan applications are manually audited to identify potential fraud which results in Inefficient audit process, enormous time consumption, Human error, and Delay in Loan Disbursement. Our AI-powered Instant Loan Audit is designed to deliver hassle free and effective way to perform loan audit and provides precise results, save time, and reduce costs.

Hexaware uses enterprise Azure – Open AI custom models to automate the audit process by providing checklist of questions and receive relevant answers for each question from the trained Generative-AI Model which also ensure the data is safe and secured.
