eGroup | ENABLING TECHNOLOGIES

together we make IT happen

Azure Express

The Azure Express helps customers early in their journey to the cloud. eGroup Enabling Technologies & Microsoft leverage real-time server and application performance data to determine sizing and cost consumption estimates in Azure.

Receive a cloud readiness report and detailed cost consumption estimates identifying candidates for an Azure migration.

A closer look at what the Azure Express provides

FINANCIAL PLANNING

Multi-year Azure cost consumption estimates help customers understand the economics of moving to cloud.

**MICROSOFT AZURE AND CLOUD PROFILING**

Provide real-time data on server and application performance to support a more detailed cloud strategy discussion.

What's Included

- A Detailed Inventory of the Data Center Environment with Identification of Azure-Ready Candidates.
- Aging hardware
- End of Support Windows Server 2008/R2 and SQL Server 2008/R2
- Low Utilization
- Multi-Year Cost Consumption Estimates

9x Microsoft
Partner of the Year Award Winner

Azure Migration Engagement

The Azure Migration Engagement helps customers take the first step in their cloud migration. eGroup Enabling Technologies & Microsoft deliver an in-depth identification and analysis of specific workloads or applications.
Receive cost estimates, reference architecture design, and a migration plan for a specific workload.

A closer look at what an Azure Migration Engagement provides

DATA PLATFORM MODERNIZATION
Facilitate future planning with detailed performance reporting, virtualization architecture, & support timelines to orchestrate end-of-life transitions & product innovation.

DATACENTER MODERNIZATION
Capture key foundational elements to support datacenter improvement to help customers reduce cost, improve service levels, and drive business agility.
MICROSOFT AZURE AND CLOUD PROFILING
Provide real-time data on server and application performance to support a more detailed cloud strategy discussion.

What's Included

- Data-Driven Findings on Respective Workload/Application
- Azure Service and Architecture Recommendations
- Azure Cost Consumption Estimates
- Procurement recommendations
- Decision Criteria and Time Frame
- Migration Plan
- Proposal for Implementation and Migration

Azure Foundation Assessment

eGroup Enabling Technologies & Microsoft provide a broad data center analysis identifying and prioritizing Azure migration candidates complete with multi-year cloud consumption cost estimates and recommendations for Governance.
With real-time performance data, customers receive prioritization of Azure-ready migration candidates, multiyear cost estimates, and recommendations for Governance.

A closer look at what the Azure Foundation Assessment provides

DATACENTER MODERNIZATION
Capture key foundational elements to support datacenter improvement to help customers reduce cost, improve service levels, governance recommendations, and drive business agility.

MICROSOFT AZURE AND CLOUD PROFILING
Provide real-time data on server and application performance to support a more detailed cloud strategy discussion.

DATA PLATFORM MODERNIZATION
Facilitate future planning with detailed performance reporting, virtualization architecture, and support timelines to orchestrate end-of-life transitions and product innovation.

What's Included

- Executive Summary of Data-Driven Findings
- Alignment to Business Objectives
- Defined Project Scope
- Identification and Prioritization of Candidates to Move to Azure
- Multi-Year Cost Estimates
- Proposal to Execute an Azure Migration Engagement
- Cloud Adoption Framework Governance Analysis and Recommendations
