

Azure Velocity Landing Zone

3-5 Days

FastStart for SMB (from £5,000 to £7,500)

Get up and running in Azure quickly with Fast Start for SMB, a fully functional single region Azure environment that is secure and ready to run production workloads. Designed and implemented in your Azure tenancy by Advania within 3 to 5 days.

The Azure Velocity Landing Zone | Fast Start for SMB is the ideal solution for smaller customers that are looking for a cost-efficient, simple deployment to accelerate cloud adoption.

Following the principle of keeping the architecture as simple as possible, whilst ensuring alignment to good practice, this is a rapid landing zone deployment using recommended configurations that provide a simpler engagement model and faster delivery with a correspondingly lower entry cost to cloud adoption.

Microsoft Partner | **Azure Expert MSP**

Accelerate your cloud journey

- A cloud MVP for smaller organisation built on a core set of core Azure capabilities built from standard Azure cloud services and best practices
