Powerbooks Development Environment for having own User Interface Design integrated with third party applications.

**PowerSuite**

Development Platform with PowerAPI Calls

**PowerApps**

Apps Integrated with PowerAPI Calls

**PowerSpace**

Integrated with MS Teams/Zoom

**PowerDocs**

Document Management System

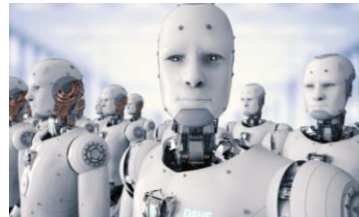

**Third Party Solutions**

Integrated with Third Party Solutions

**PowerForce**

Integration with Salesforce

**Power Robots**

Integration with Blue Prism / UI Path / AutoAnywhere

**Power Projects**

Project Management and Scheduling

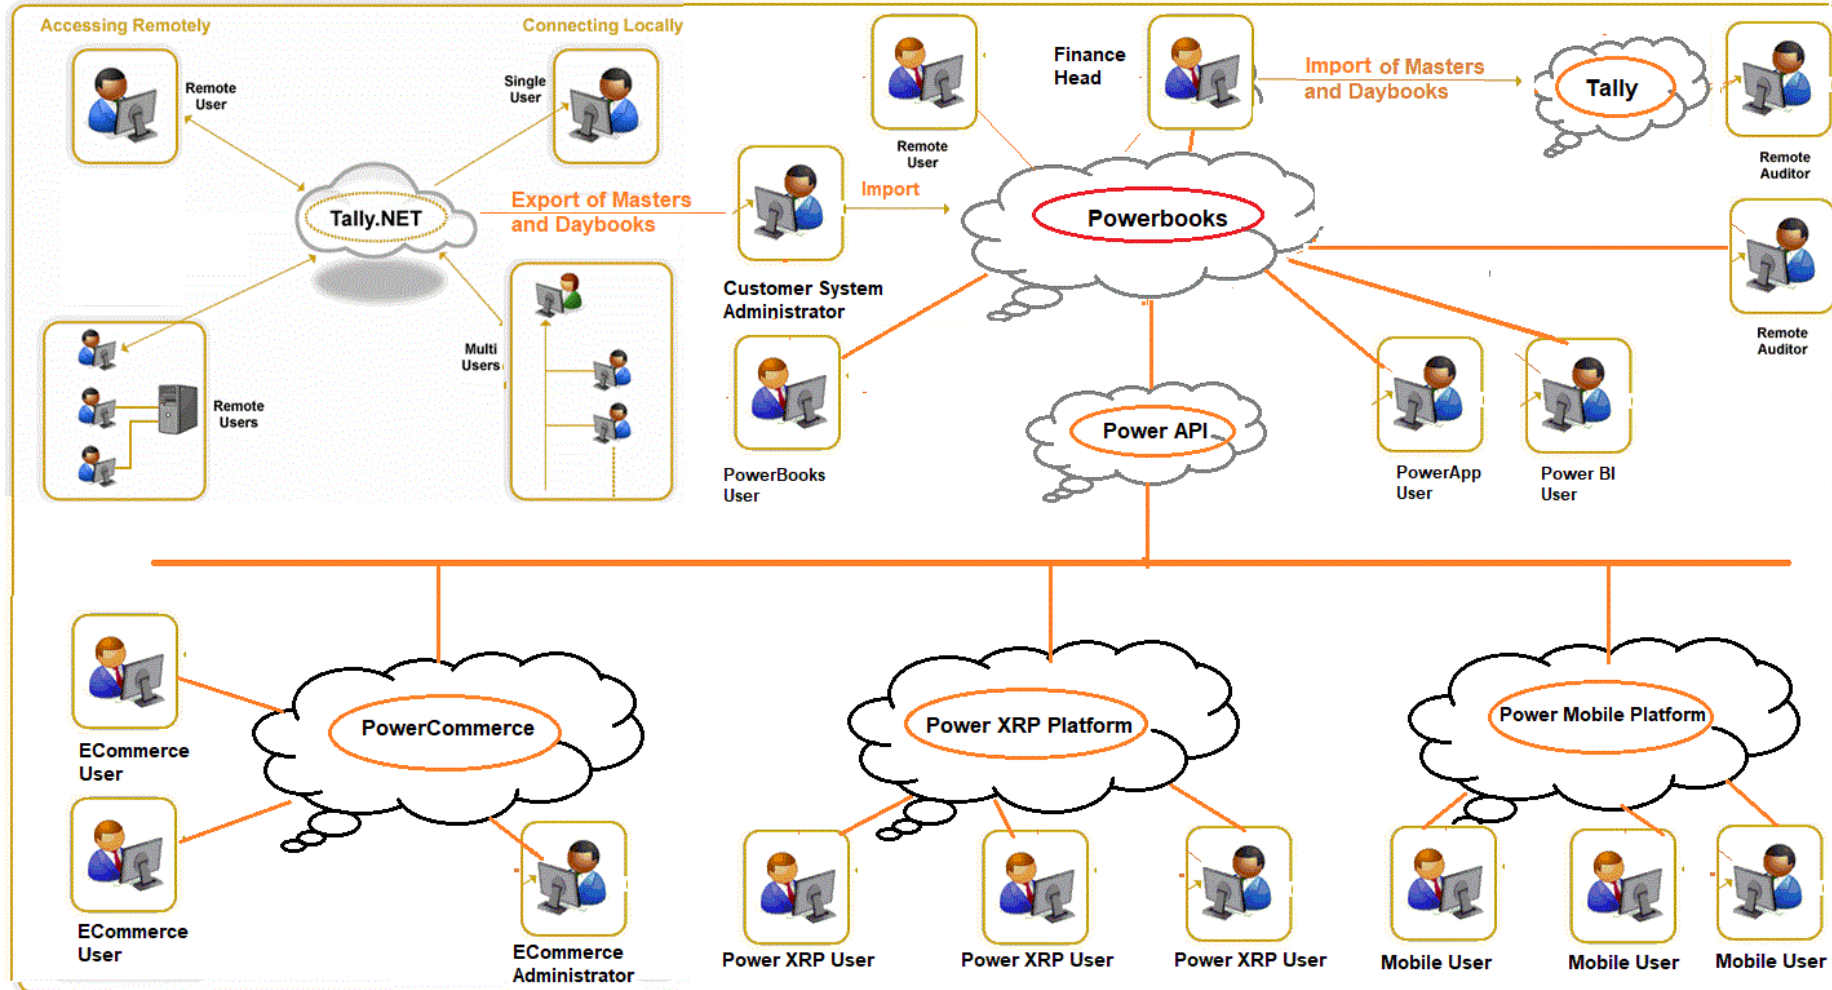

**Power Dynamics**

Integration with MS Dynamics CRM

## Multiple Synchronizations across all Branches

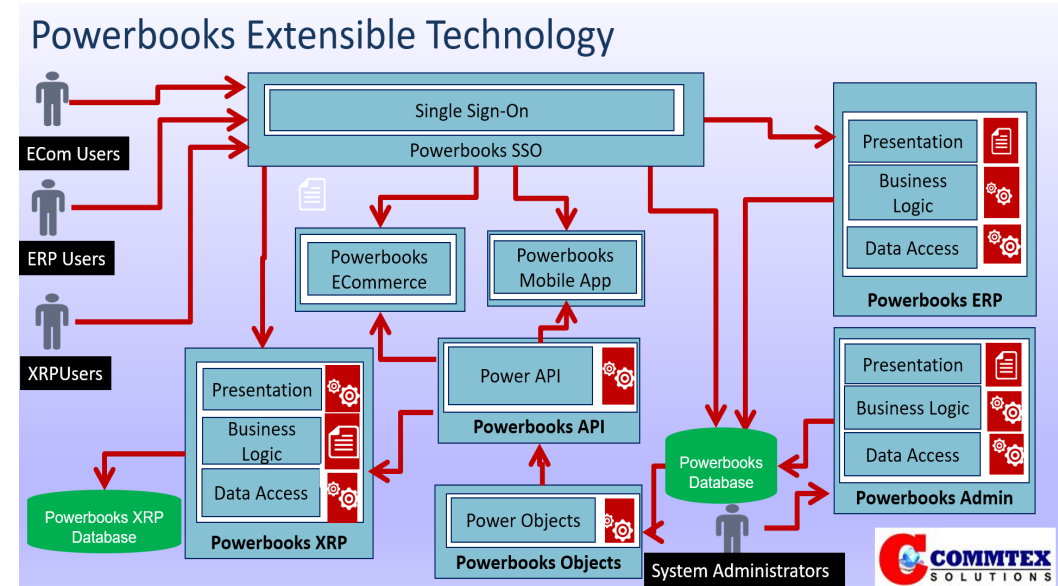

# PowerSuite - Extended ERP (XRP) Platform

- Extended Integration using Open API Architecture

## Features

- On Cloud – Integrated with Microsoft Office 365, Google API and host of Open API available in the Market
- Responsive User Interface with availability on Desktops, Tablets and Mobile
- PowerObjects - API Integration enables new applications to be built and integrated with Powerbooks base ERP Application
- Masters and Transactions - Accounting voucher, inventory voucher and payroll voucher – Entry, Edit and Delete operation.
- Ecommerce Functionality with Power Ecommerce Software
- Customer, Vendor and Employee Portal integrated in Single Sign-On
- Source code availability with API Calls to database.
- Ability to add user interface frameworks for any of the screens, views and white label the product.

- Ability to use both PowerBooks Standard Interface as well with PowerBooks Extensible Interface
- Integration with third Party Applications developed on any platform.
- Display of Screens with multiple templates
- Optional Powerbooks XRP Database for developing additional applications integrated with PowerBooks.

## Intelligent Customer Success Platform

## Benefits include

- Visibility of PowerBooks Reports, Queries, in Salesforce Platform
- Share reports among colleagues & users via Power API
- Author rich interactive reports with Salesforce
- Connect, access and unify data across sources
- Share live reports and dashboards between Salesforce and Powerbooks
- Transform company data into rich visuals - Full suite of BI tools for data visualization and reporting
- Create live, real-time data metric dashboards
- Use get and download Apps in Salesforce Platform from App Exchange
- Build and Extend the overall framework for Sales, Marketing, Operations using Salesforce Platform

# Powerforce

Integration of Powerbooks with Salesforce

# PowerRobots

## Bots for Automatic Data Entry

### Benefits include

- **1) Reduced cost:** cost savings of nearly 30%
- **2) Better customer experience:** frees up high-value resources to be put back on the front line ensuring customer success.
- **3) Lower operational risk:** Eliminating human errors such as tiredness or lack of knowledge, reduces the rate of errors.
- **4) Improved internal processes:** Companies forced to define clear governance procedures thereby allows for faster internal reporting, on-boarding and other internal activities.
- **5) Leverages Powerbooks ERP:** By providing readymade BOTS, the same way a human employee can the users get started immediately.

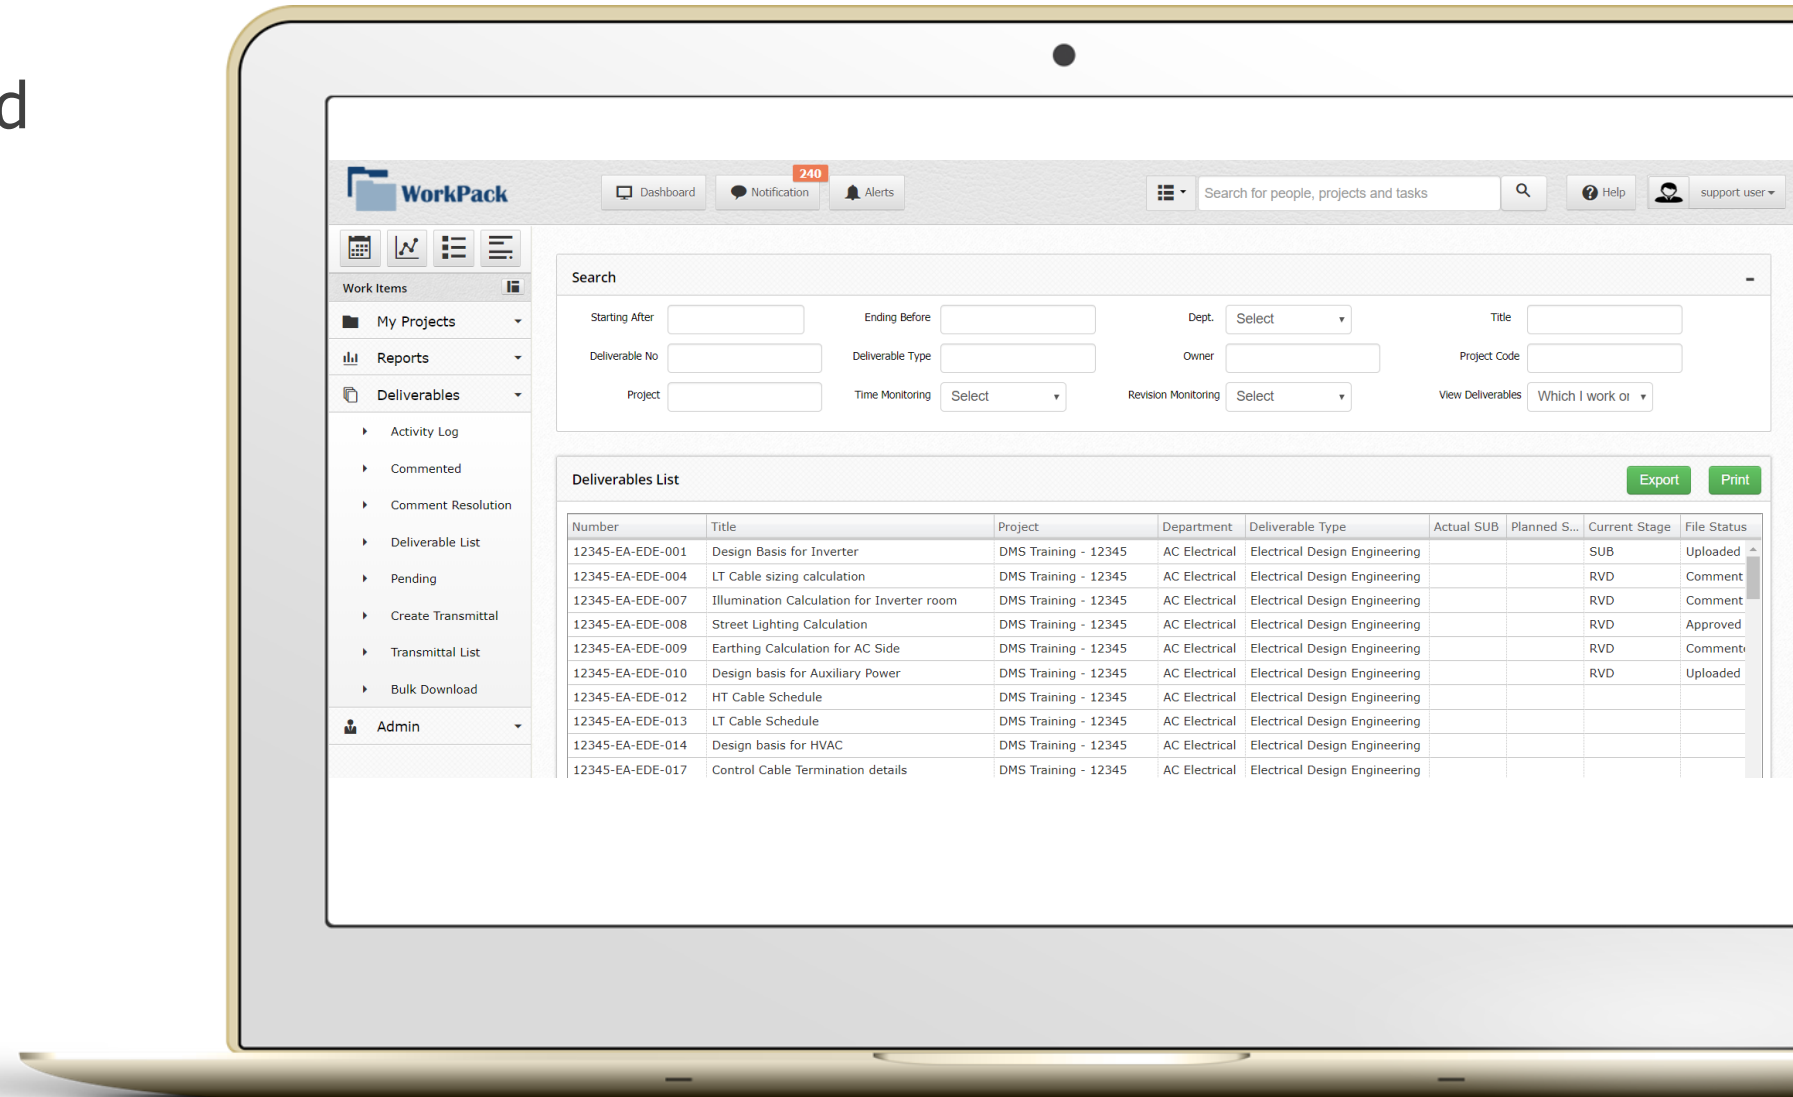

# PowerProjects - Workpack

# Hallmark and Forefront – Cloud ERP Solution for Printing and Publishing Company

## BUSINESS CHALLENGE

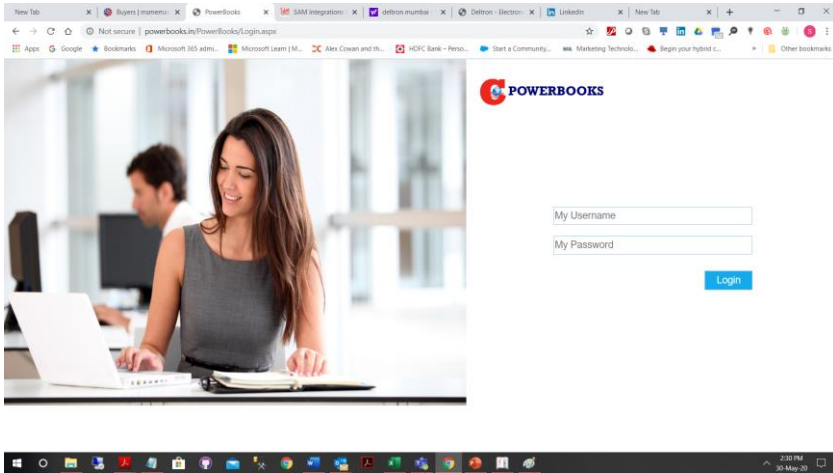

Hallmark Printing and Packaging required to accurately cost for the Printing material for the orders received, the quantity of paper required and the design cost.

## SOLUTION

Commtext Solutions proposed and decided to build a new product, Commtext ERP named later as Powerbooks using state-of-the-art software tools and databases and customize it to meet the requirements of Hallmark and Forefront. The solution was to be built over the Microsoft platform as a Cloud ERP Solution and customized it for the requirements of Printing and Publishing Company.

## IMPACT

By understanding Powerbooks platform, Hallmark was able to understand how to automate their Sales, Finance, Inventory and correctly quote with the Costing of Printing for various orders they received.

Hallmark Print and Packaging Pvt Ltd and Forefront to manage the enterprise wide processes for his DTP and Printing Services in India. Hallmark and Forefront is managed and operated by the same management group and administratively handled from the same office. Hallmark and Forefront wishes to have their ERP System interface with Web to get online reporting anytime, anywhere, job, product and sales performance in a controlled system.

The system enable the Hallmark management to take preventive actions thereby focusing more on sales and reducing the cost and effort put by the staff.

Commtext Solutions implementation and support team was awesome. All our requirements during development and deployment were catered to exceeding our expectations. Our original estimate to get this project started and running were about one year, but we were pleasantly surprised to get it production-ready in less than 7 months by using Powerbooks. Excited by the successful implementation, we are continuing to add more customers. We are using this product for last 7 years now with the support from Commtext Solutions.

CEO, Hallmark Printing and Packaging and Forefront Publishing

## Powerbooks Cloud ERP Development for Printing and Publishing Company

## BUSINESS CHALLENGE

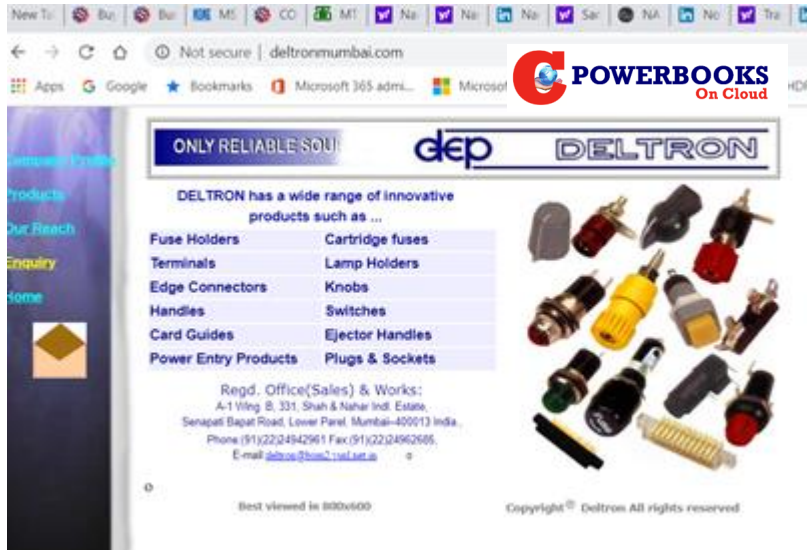

Deltron Mumbai and its sister company Hightech Components & Precision wanted a single cloud based ERP Solution for managing their Accounts, Inventory and CRM with an Ecommerce Portal providing direct orders to their manufacturing business.

## SOLUTION

Commtext Solutions proposed the PowerBooks solution over the Microsoft platform and implemented PowerBooks for the Electronics Trading and Manufacturing Company. A specialized Commerce Product was developed in the same environment for Deltron Mumbai.

## IMPACT

By using Powerbooks platform, Deltron and sister companies was able to automate their Ecommerce site, Sales, Finance, Inventory and Customer Relationships from anywhere, any device any time.

DELTRON has been leading in the field of manufacturing Electronic Component since 1981. It has been catering the reputed companies in public sector and private sector. Deltron is renowned for its quality products with consistency, all over India because of its strong development base and sincere commitment to quality, prompt delivery and excellent customers service. DELTRON has a in house R&D, ToolRoom, Molding Shop, Press Shop, Assembly Line and Inspection Department. The manufacturing & marketing activity is carried out from Mumbai, it has a strong Dealers and stockiest network in major industrial areas ensuring in time supply and prompt customers service. DELTRON HI-TECH COMPONENTS & PRECISION ELECTRONICS are our sister companies. Product manufacture by them bear the names and identification mark on there respective products.

Commtext Solutions implementation and support team was awesome. All our requirements during development and deployment were catered to exceeding our expectations.

Our original estimate to get this project started and running were about one year, but we were pleasantly surprised to get it production-ready in less than 6 months by using Powerbooks. Excited by the successful implementation, we are continuing to add more customers. We are using this product for last 9 years now with the support from Commtext Solutions.

-- Vivek Desai, Director, Deltron Mumbai

## BUSINESS CHALLENGE

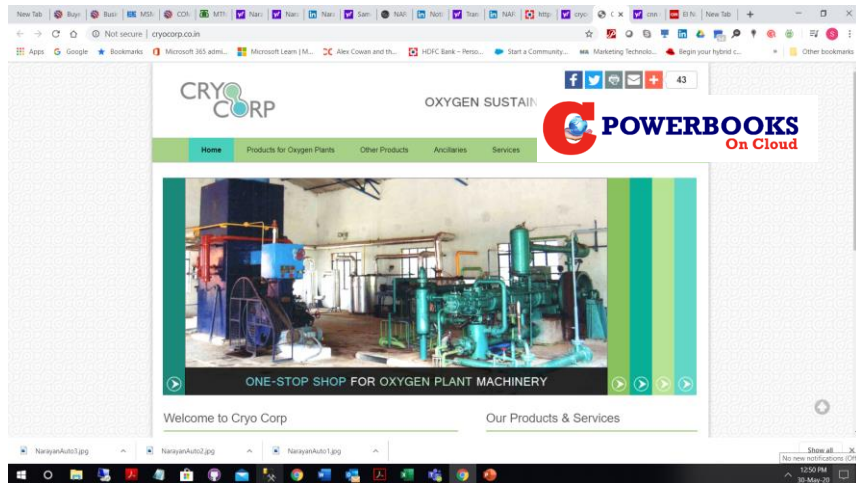

Cryocorp an Industrial Product Export Trading company wanted a single cloud based ERP Solution for managing their Accounts, Inventory and CRM with an Ecommerce Portal providing single system

## SOLUTION

CommteX Solutions proposed Powerbooks solution over the Microsoft platform and developed the PowerCommerce Portal an Ecommerce Portal integrated with the Cloud ERP and CRM Solution.

## IMPACT

By using Powerbooks platform, Cryocorp was able to automate their Sales functions, Ecommerce functions in a single integrated system recording and validating all the Customer specifications for the Industrial Products delivery.

Cryo Corp is one of leaders in spares & accessories of Gas manufacturing plants, for gases like Oxygen, Nitrogen and Acetylene. Initially known by the name of Cryo Sales Corporation, our company has been dealing with spares and accessories of gas manufacturing units since 1996. With humble beginnings then, today, our company has carved a niche for itself with all the end users of plants, all over India & in many countries by providing quality products and genuine spares for Oxygen, Nitrogen and Acetylene plants. Our Products & Services include Air compressor, After cooler and cascade cooler, Chilling unit, Dust Filter & Oil Absorber, Molecular sieve battery, Expansion engine, Air separation unit, Liquid oxygen pum and Oxygen Filling Manifold.

CommteX Solutions developed the PowerCommerce Software along with PowerBook Cloud ERP Solution. CommteX Solutions implementation and support team was awesome. All our requirements during development and deployment were catered to exceeding our expectations.

Our original estimate to get this project started and running were about one year, but we were pleasantly surprised to get it production-ready in less than 7 months by using PowerBooks and PowerBooks. Excited by the successful implementation, we are continuing to add more customers. We are using this product for last 2 years now with the support from CommteX Solutions.

CEO and Managing Director, CryoCorp

## BUSINESS CHALLENGE

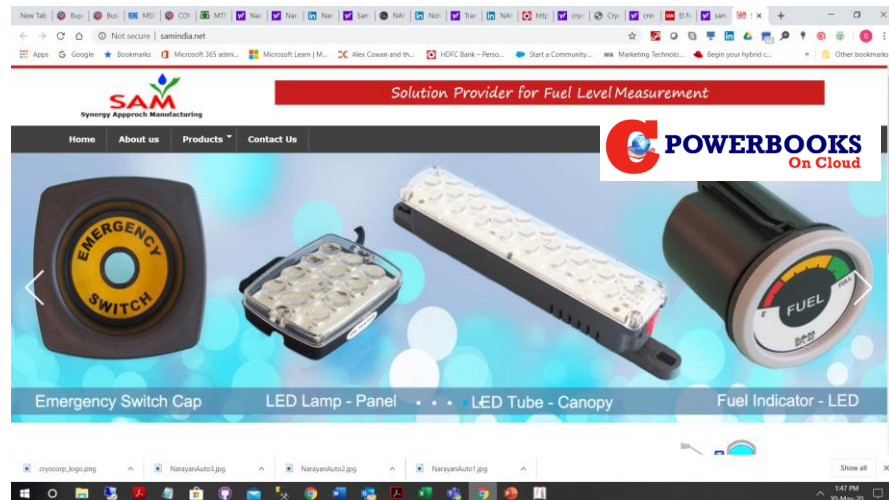

SAM Integrations Pvt Ltd used Tally and the system could not cope up with the data it hold. SAM required a single cloud based ERP Solution for managing their Accounts, Inventory and CRM

## SOLUTION

Commtext Solutions proposed the PowerBooks solution over the Microsoft platform and migrated their entire data into SQL Server Database. The integrated relational database platform could take huge megabytes of data with lightning speed

## IMPACT

By using Powerbooks platform, SAM Integrations Pvt Ltd was able to migrate their huge ERP data and automate their Sales, Finance, Inventory and Customer Relationships from anywhere, any device any time and run their operations very fast.

SAM Integrations Pvt. Ltd., started business under the banner of Ideas Toolings. With over 17 years of experience in this industry in 2004, Ideas merged as SAM Integrations Pvt. Ltd. and has established as one of the premier Manufacturer and Exporter of a comprehensive range of Electro Magnetic Products. SAM's precision engineered range offers critical solutions to the requirements of different industries spread across broad spectrum. The stringent quality parameters of SAM's products are reflected through the high standard performance. Thus, SAM's range is reputed for qualities such as heavy load bearing capacity, high performance, superb design and safe and easy operations. The Electro-Mechanical Products that SAM's offer comprises three main categories such as Genset Accessories, Fuel Gauges and Tank Units. SAM's product range has found appreciative markets in the Indian Sub Continents, USA and European countries.

Commtext Solutions PowerBooks Cloud ERP Solution and implementation and support team was awesome. All our requirements during development and deployment were catered to exceeding our expectations.

Our original estimate to get this project started and running were about one year, but we were pleasantly surprised and got confirmation that we shall be production-ready in less than 1 months by using Powerbooks. Excited by the successful implementation.

CEO, SAM Integrations Pvt Ltd

# Narayan Transports – Cloud ERP Solution for Transport Dealer

## BUSINESS CHALLENGE

Narayan Transport used Tally and Oracle Billing System as required by Automakers for managing the delivery of vehicles. Narayan Auto required a single cloud based ERP Solution for managing their Accounts, Inventory, CRM and billing as per the needs of the Automakers.

## SOLUTION

Commtex Solutions proposed the Powerbooks Platform and implemented Cloud ERP Solution with an Industry solution for Transporters who operate as per Automakers directions. The Industry specific solution developed used to call the PowerAPI Platform for accessing the database and generate bills as per Automakers requirements.

## IMPACT

By using Powerbooks platform, Narayan Auto was able to automate their Sales, Finance, Inventory and Customer Relationships as well as their Vendor billing from anywhere, anydevice any time as per the needs of the Automakers.

Narayan Transports Private Limited is a Private incorporated on 07 February 1996. It is classified as Non-govt company and is registered at Registrar of Companies, Mumbai. Its authorized share capital is Rs. 500,000 and its paid up capital is Rs. 375,000. It is involved in supporting and auxiliary transport activities; activities of travel agencies. The company stocks vehicles from Automakers – Maruti Udyog, Volkswagon, Tata Motors and transports vehicles to dealers and owners who book vehicles from dealers. The Invoicing was necessitated as per the Automakers directions and was proposed to be given as per their needs.

Commtex Solutions Powerbooks Product is fantastic. The implementation and support team was awesome. All our requirements during development and deployment were catered to exceeding our expectations.

Our original estimate to get this project started and running were about one year, but we were pleasantly surprised to get it production-ready in less than 7 months by using Powerbooks. Excited by the successful implementation, we are continuing to add more customers. We are using this product for last 7 years now with the support from Commtex Solutions.

Powerbooks Cloud ERP Implementation for Auxilliary Transport Vehicles.

## BUSINESS CHALLENGE

Ginni Systems needed to automate their internal processes with Cloud based ERP and CRM Solution. Software should automate all Customer AMC Billing and keep track of Leads, Opportunities and Customer Cases.

## SOLUTION

Commtext Solutions proposed a solution over the Acumatica platform. Prior to implementation, the data from Tally ERP was migrated the data to Powerbooks and then implemented Acumatica Cloud ERP Solution. The software was then customized it for the Software Products and Services Organization with India Localization and implementation of GST

## IMPACT

By using Acumatica platform, Ginni Systems was able to automate their Sales, Finance, Project Accounting, Employee Time tracking and Customer Contract Billing proactively.

Ginesys is a popular POS and retail ERP used by the top retail companies in India.

Ginni Systems aspire to be the best retail software provider and Point of sales out there in the market. Ginni Systems Ginesys product is already the most preferred solution for fashion and lifestyle brands and in supermarkets. Be it Fashion, Supermarkets, Departmental stores, Furnishings and Electronics, Ginesys has customers in every vertical of retail. Using Commtext Solutions implemented Acumatica internally we are able to keep control and grow our customer base exponentially. We have been able to concentrate on development and enhancements of our products and are humbled that our smart businesses have stuck with Ginesys with their ever increasing demands for automation and value.

Commtext Solutions migrated the data from Tally to PowerBooks and then from PowerBooks to Acumatica. The Commtext Solutions implementation and support team was awesome. All our requirements during development and deployment were catered to exceeding our expectations.

Our original estimate to get this project started and running were about one year, but we were pleasantly surprised to get it production-ready in less than 7 months by using Acumatica. # PowerBooks as a Software As A Service

## 12 Business Advantages of Cloud Computing, THE POWER BEHIND SAAS

Cost savings

Security

Flexibility

Mobility

Insight

Increased collaboration

Quality control

Disaster recovery

Loss prevention

Automatic software updates

Competitive edge

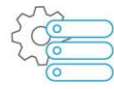

Sustainability

Source: salesforce.com

## Software as a Service TAKES THE BURDEN OFF YOUR IT TEAM

Cloud computing offers three well-known services:

Platform as a Service (PaaS)

Infrastructure as a Service (IaaS)

Software as a Service (SaaS)

One of the greatest benefits of SaaS is that the vendor manages the bulk of the work so your IT department can focus on more important things.

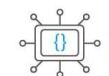

Package Software	Infrastructure As a Service	Platform As a Service	Software As a Service
YOU MANAGE	YOU MANAGE	YOU MANAGE	MANAGED BY VENDOR
Applications	Applications	Applications	Applications
Data	Data	Data	Data
Runtime	Runtime	Runtime	Runtime
Middleware	Middleware	Runtime	Middleware
O/S	O/S	Middleware	O/S
Virtualisation	Virtualisation	O/S	Virtualisation
Servers	Virtualisation	Virtualisation	Servers
Storage	Servers	Servers	Storage
Networking	Storage	Storage	Networking
	Networking	Networking

## 14 BENEFITS OF SOFTWARE AS A SERVICE, OR SAAS

Easy application access over the internet

No hardware or software to install or maintain

Widespread adoption

Lower initial costs

Painless upgrades and updates

Seamless integration

Instant data updates

Customizable use

Advanced security

Multiple backups (redundancies)

Offline functionality

Access on any internet-connected device

Scalable as a company grows

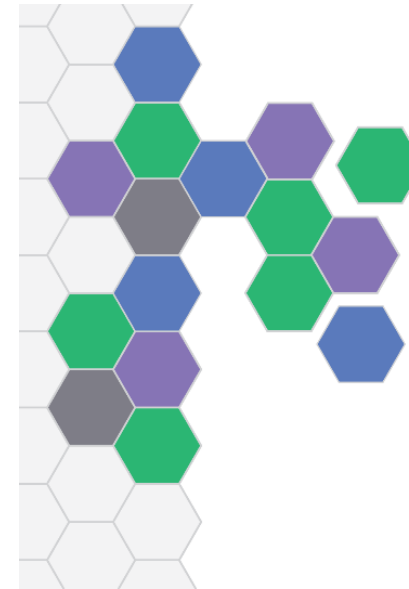

More accurate analytics and reporting
