## Predica Intranet Accelerator

Gain user-friendly a digital modern workplace  
with ready to deploy Predica Intranet Framework

# Work with your data whenever and where you want!

## Empower teamwork with dynamic and productive team sites

### Challenges

**Modern companies are faced with the problems of:**

- Secured access to data stored on physical servers
- Remote data access, regardless of location
- Varying degrees of knowledge of the employees on the use of modern tools

Most of today's Intranets are based on SharePoint, which is the first step to modern workplace. It allows to share and manage content, knowledge, and applications. Issues shows when it comes to present a data in a user-friendly dashboards.

### Ideal Solution

**A dedicated solution can enable companies to:**

- User-friendly environment
- Secure internal sharing of data
- Dashboards matched with branding
- Empowered teamwork and seamless collaboration

User-friendly solution that empowers teamwork, easy to use and don't need a special training. Obviously looks good because it is tailored to customer brand colors and features.

### Desired Outcomes

**With our customized solution you can:**

- Make the best use of your data to increase the efficiency of teamwork
- Lower your operational costs
- Provide a better service to your customers
- Flexibly use your data, no matter where you are

Companies are more in control of their data. User-friendly environment encourage better productivity and great teamwork. If there is no need for special training and the user interface is intuitive, companies save time and thus money.

# Stay ahead of your competition!

## Fulfill Your data sharing operations more efficiently inside and outside your organization

### Ease of use

- After implementation IT don't need to support business users, who create the content
- End-users do not require extensive training
- After deployment, the customer can instantly use selected modules

### Support

- Support for Polish and English is built-in
- Works on PCs, Macs, tablets and smartphones

### Integration

- The solution integrates with Microsoft Productivity suite
- Can be deployed on SharePoint server, SharePoint online or can use Microsoft Azure for hosting

### Multifunctional

- Editors can easily add images or video editors with no worry about the right size
- Users may comment or like news – like they do on Social Media

# Personalized dashboards that are consistent with your company brand book, adapted especially to your needs **predica.**

The dashboard features a dark blue header with the 'predica.' logo and navigation links for Intranet, News, Essentials, Company, Communities, People, and Resources. A search bar is located on the right. The main content area is divided into several sections: a large featured article titled 'How Microsoft Azure Can Make Your Life MUCH Easier?' with a blue cloud icon; a 'Company news' section with three smaller articles; and a 'Unit and resource news' section with two articles. On the right side, there is a 'CREATE NEWS' sidebar with buttons for 'Mobile', 'Productivity', 'CRM', and 'AZURE', and an 'ADD BANNER' button. Below that is an 'Events' calendar showing dates from June to November.

This is the 'Edit news' interface. It includes a dark blue header with navigation and a search bar. The main area has a 'Title' field containing 'How Microsoft Azure Can Make Your Life MUCH Easier?' and a 'Photo' field with a large image of a blue cloud and a padlock. Below the photo is a rich text editor with a toolbar. On the right, there is a 'News details' sidebar with fields for Author, Published in, Publication start date, News category, Language, Company, Status, and Keywords. At the bottom, there are sections for 'Related items' and 'News translations'.

The 'Galleries' page has a dark blue header with navigation and a search bar. It is split into two main columns. The left column, 'Find gallery', contains search and filter options for Category, Author, Keywords, and Company. The right column, 'Galleries list', shows a grid of gallery cards. One card is for 'Videos' (09 May 2017) and another is for 'Global Gallery' (03 May 2017). Below the main content, there is a 'Marketing' section with a gallery of images and a 'Gallery details' sidebar on the right showing metadata like 'Gallery name: Marketing', 'Category: Company', and 'Created date: 08 May 2017 14:04'.
