

POWER PLATFORM

Power BI: 4 Hours Assessment Workshop \$1200

Introduction to Power BI

Power BI is quickly becoming the world's most powerful self-service business intelligence platform, and an essential tool for data professionals and beginners alike. With Power BI you can connect to hundreds of data sources, build complex relational models using simple and intuitive tools, and design stunning, interactive dashboards from scratch

Duration: 4 Hours

Power Apps: 4-Week Implementation \$9,000

PowerApps in 4 weeks Workshop

PowerApps is a Microsoft tool used to develop data-driven business applications. It serves as both a development environment and data layer that allows users, analysts, and managers, to build scalable applications with no code. Almost all manual Excel / paper processes can be replaced by Power Apps. PowerApps is quickly growing to become the number 1 no code development environment.

Duration: 4 weeks

Power BI Roadmap: 1-Week Assessment- \$15000

Power BI Roadmap in 1 week Workshop

The roadmap presents a series of strategic and tactical considerations and action items that directly lead to successful Power BI adoption and help build a data culture in your organization. Advancing adoption and cultivating a data culture is about more than implementing technology features
