# KloudIdentity

## Entra ID is now IAM & IGA ready!

### Challenge:

Integrating HR Solutions and custom applications with Entra ID (formerly Azure AD) can be complex, especially when native integrations are lacking. Handling diverse data sources like Flat files, CSV files, and SQL staging tables requires a flexible approach. Additionally, ensuring smooth provisioning and deprovisioning for applications not natively supported by Entra ID poses a significant challenge.

### Kloudynet's Solution:

Enter Kloudynet, your key to unlocking seamless integration with KloudIdentity! Our solution serves as the bridge between your HR Solution and Entra ID, empowered by the wizardry of API-Driven technology. We understand the complexity of this task and offer a straightforward solution. Bring your HR system to us, and we'll transform it into a fully Entra ID-ready component.

But our capabilities extend beyond mere compatibility. We supercharge your Entra ID experience by seamlessly connecting it with any application using our SCIM Gateway. Whether your applications are native or custom, Kloudynet has you covered. We simplify integration, taking the complexity out of the equation, and in doing so, we elevate productivity across your organization. With Kloudynet, you can confidently navigate the integration landscape, knowing that your HR Solution and Entra ID will work harmoniously, streamlining processes, and ensuring security and compliance every step of the way. Say goodbye to integration challenges; embrace a future where technology works seamlessly for you.
