

TxMQ's QConsole Solution for CBP Connectivity

TxMQ has built an online, cloud-based integration solution featuring IBM MQ, and custom engineered proprietary components to deliver online solutions for companies requiring connectivity to US Customs & Border Protection Agency.

- Manageable monthly billing
- NO long-term contracts...cancel anytime
- Monitored 24x7
- US Based 24x7 support
- Fully secure, redundant HA implementation
- Customizable

QConsole supports logistics & software providers of all sizes, at all stages of maturity. Whatever your status is with CBP – count on TxMQ to handle the connection. TxMQ is a long-standing IBM Business Partner with deep expertise and certifications in MQ, CBP connectivity and Cloud Architecture.

Packages start at \$999.00/month. Contact us today for details and rapid provisioning: gconsole@txmq.com
