

Epiq Microsoft Purview eDiscovery Workflow & Automation

Streamline the entire discovery process within your environment, enabling efficient data retrieval and analysis while ensuring compliance with legal requirements.

Our solution facilitates cloud-based legal holds and eDiscovery management, emphasizing Microsoft 365 and harnessing the power of Microsoft Purview. Through automated in-place preservation, advisory services, and Microsoft eDiscovery tools, we empower compliance and best practices. This minimizes risks and enhances data management for clients.

As data and processes move to the cloud, legal and compliance professionals need visibility and control over the eDiscovery process and hold notifications.

Legal Hold Preservation Assessment to identify gaps/ discrepancies & mitigate retention failure risk.

Legal hold automation to eliminate manual efforts to save time, improve accuracy, and enable quality control.

Comprehensive advisory on the Microsoft Purview eDiscovery portfolio: workflows, runbooks, best practice training.

Epiq Chat Connector- Microsoft 365 seamless integration with downstream document review tools.
