

Finchloom+ for M365 Email Security

Monthly Managed Service

The Problem with Email

- Tried and True Communications Method (Still primary for most)
- THE EASIEST AND MOST EFFECTIVE WAY FOR HACKERS TO HACK YOU
- Spam and Malware outnumber good Email and create lost time for employees
 - Phishing is the #1 reason for lost revenue and customer data

Who is this for?

- Commercial, Academic, Non-Profit with an IT Department
- Using Microsoft 365 for Email with 100+ users
- Don't want to use internal resources for mundane work
- Want to ensure Best Practices being followed to protect Email and End Users

Why Managed Services with Finchloom+?

- We are Microsoft Experts with a Solutions Designation in Cloud Security
- Fine tuning of your Microsoft 365 tenant to security best practices
- User control over Email – Self Service Junk Box, and Report Phishing button
- Ongoing user education through reinforcement training and security awareness
- Faster and more secure Email for your business
- We have been protecting customer Email for over 5 years with our Managed Services

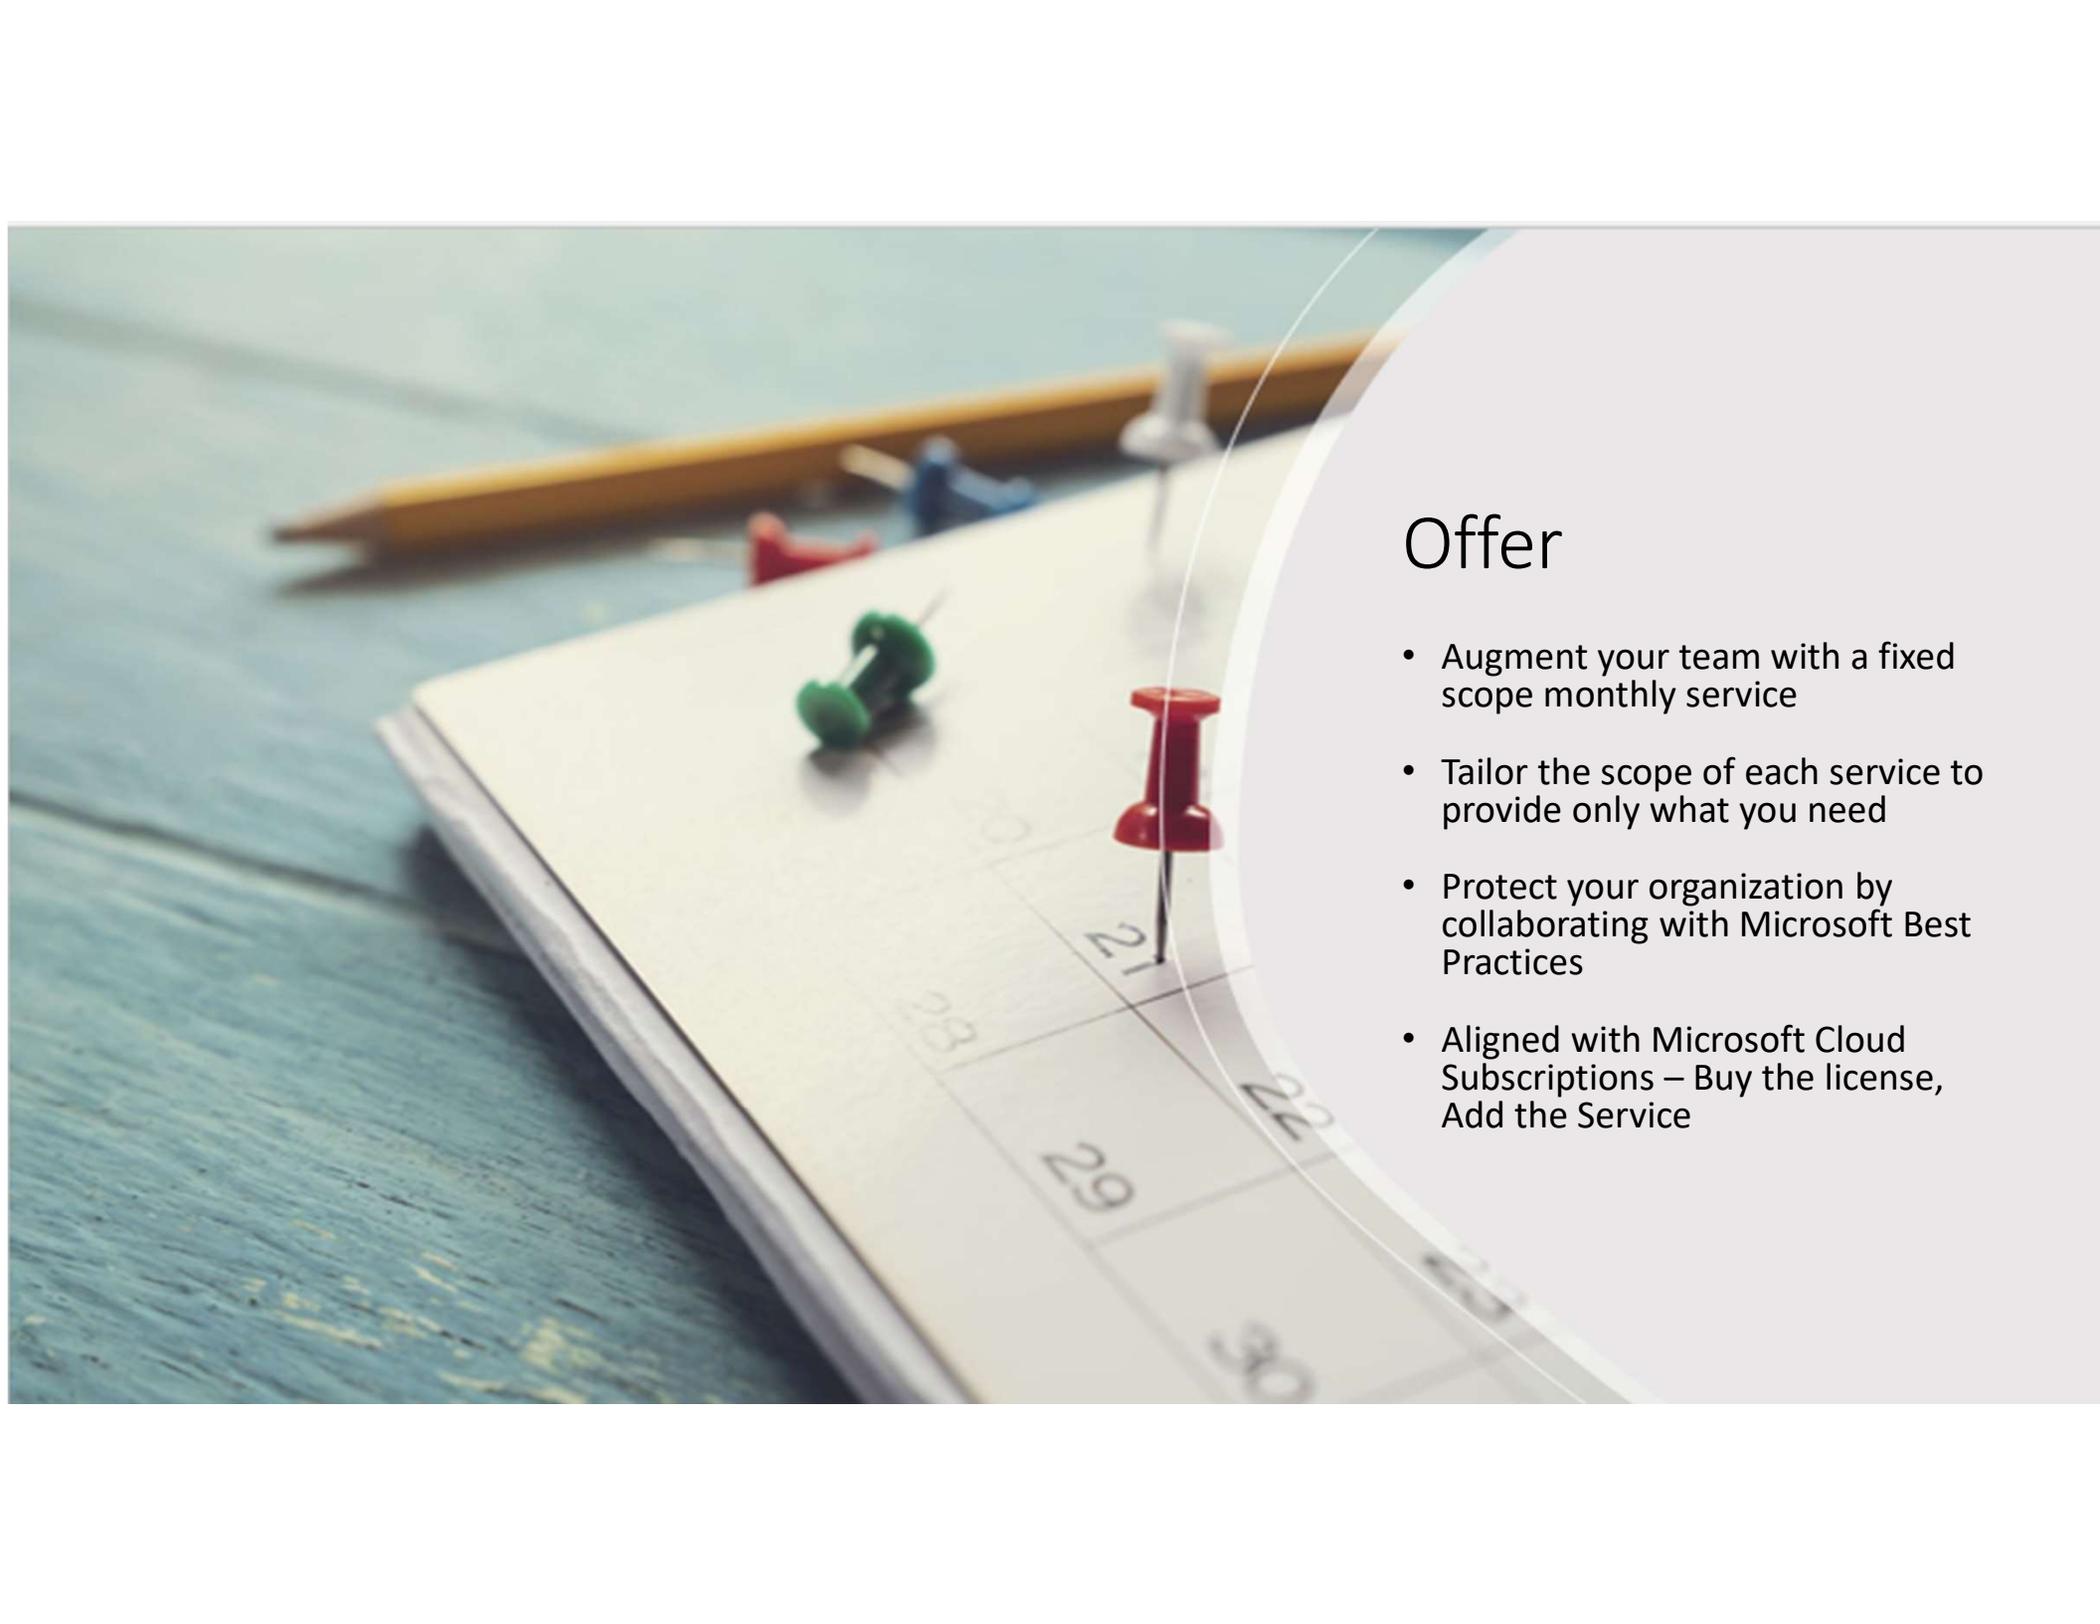

Customer Success Stories

(Names Hidden for Privacy)

- Academic Customer 1 – 575 Users (3000 Submissions per month)
– no Phishing incidents for 3 years
 - CIO/VP of IT – “Finchloom+ allows us to focus on our projects for the business instead of constantly fighting Email fires with Spam and Phishing management”
- Commercial Customer 2 – 300 Users (500 Submissions per month) – All end users above 90% reporting!
 - IT Director – “No Brainer – we’ve been customers for 3 years and our invoice is on Autopay. It pays for itself”
- Non-Profit Customer 3 – 150 Users (200 Submissions per month)
– Never been phished
