

**Cloud Adoption
Framework for Azure
Strategy and Plan 6-week
Assessment**

Azure Cloud Adoption Assessment Made Simple

The Advania **Azure Cloud Adoption Framework (Strategy and Plan Assessment)** was developed to help any organisation adopt Azure quickly and with complete peace of mind. Designed to meet challenges and remove barriers for businesses wanting to migrate and transform their IT investments by adopting Microsoft's Azure public cloud platform and services. Advania utilises a mature repeatable approach aligned to the Microsoft Cloud Adoption Framework to ensure the development of a sound public cloud adoption strategy and plan creating the conditions for rapid Azure public cloud adoption. Our expertise, your cloud, right first time.

Cloud Adoption Framework for Azure Strategy and Plan Assessment

Outcomes + Benefits

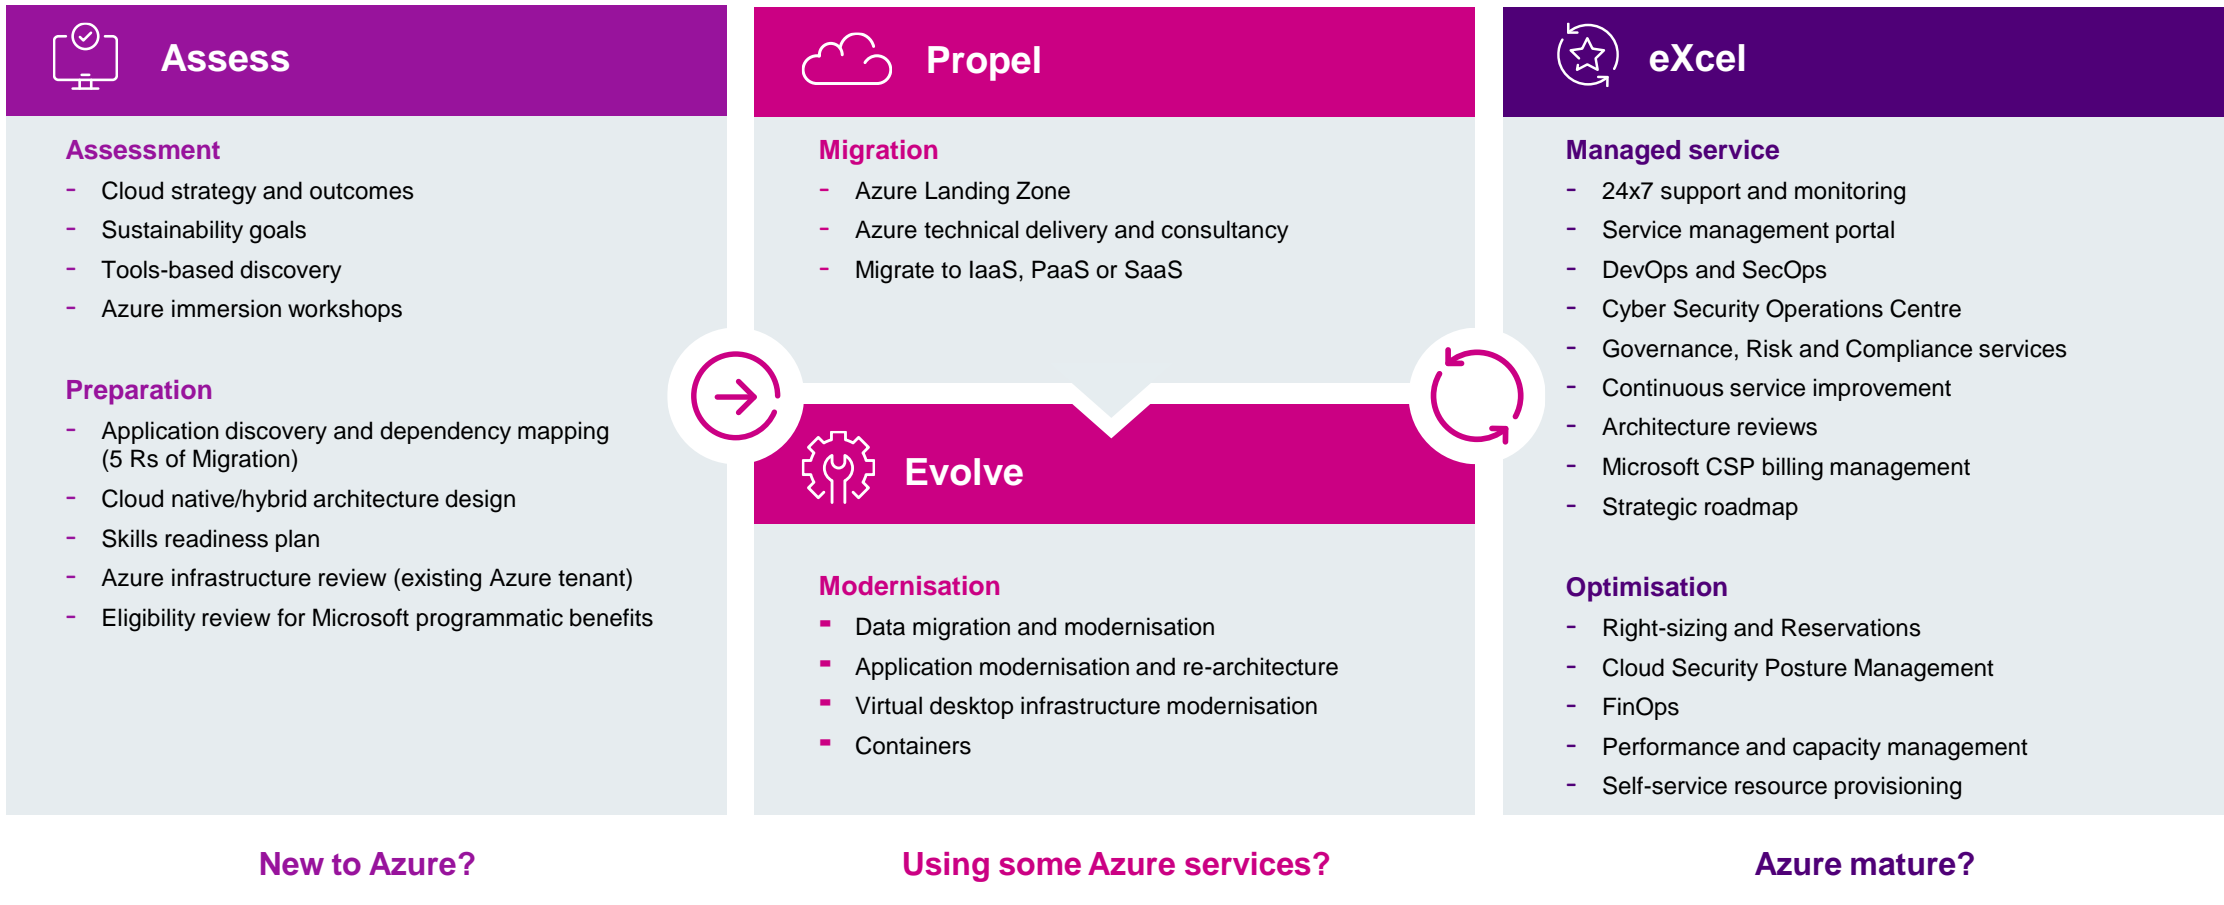

- Gain an understanding of cloud economics and get the financial and technical guidance to help develop your cloud strategy and build your business case.
- Understand your motivations and align clear desired business outcomes and cloud adoption priorities.
- Define your high-level business case and assess business impact of your cloud adoption strategy.
- Review and validate your digital estate and take high-level rationalisation decisions in preparation for hosting them in the cloud.
- Create your cloud adoption plan by prioritising your workloads based on their business impact and technical complexity.
- Define your initial organisational alignment and create your skills readiness plan to prepare your business for changes and new technologies.

APEX – Our Azure Adoption Methodology

APEX represents Advania's approach in supporting clients with their digital transformation journey through Azure adoption. From the initial application assessment and cloud economics, through to migration, modernisation and innovation our team can offer expertise to guide and plan your next steps. Once operating workloads in Azure, we provide ongoing assurance that your service is operating effectively through our accredited cloud experts and comprehensive **Azure Managed Service**.
