AnatomyX
By MEDIVIS

The augmented reality anatomy lab and learning platform.

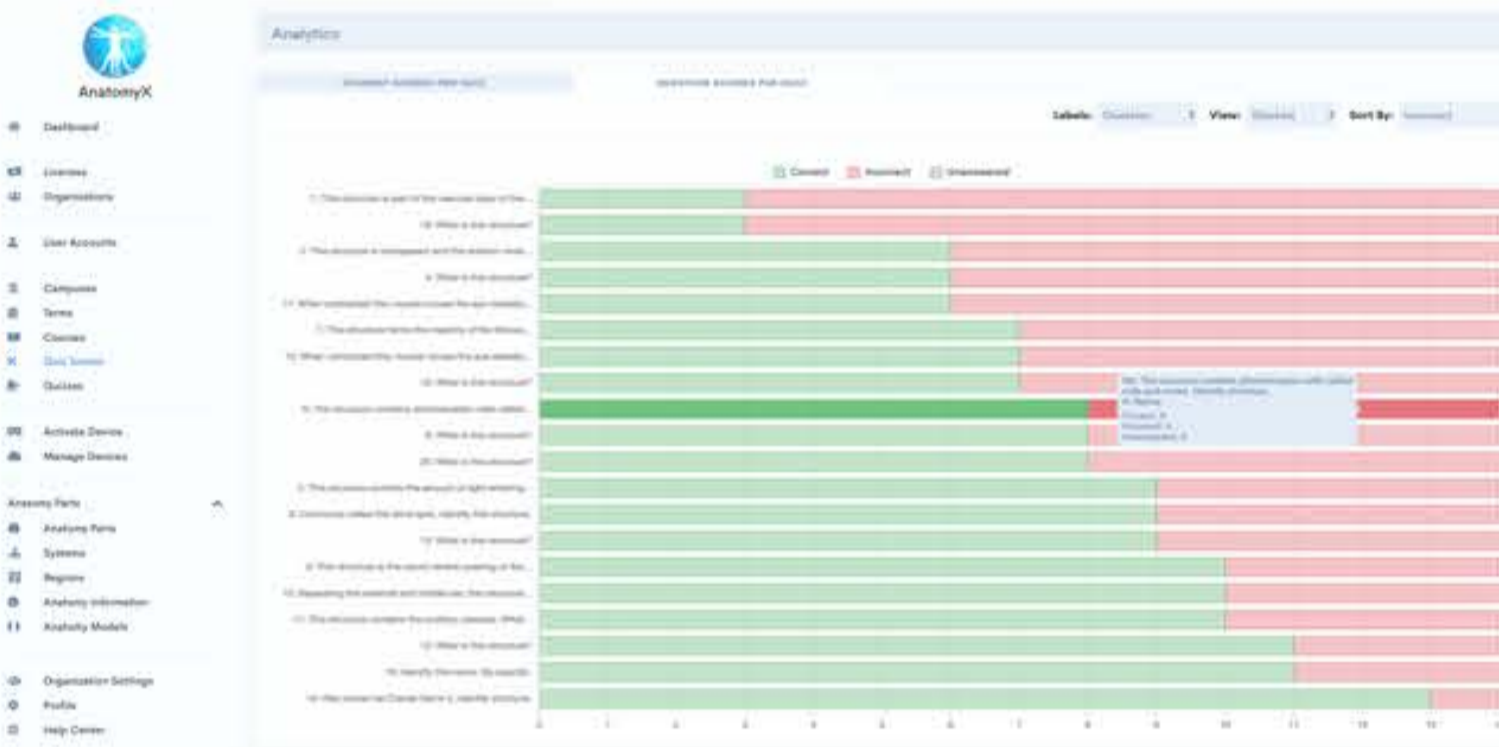

ENGAGE YOUR STUDENTS

Results from West Cost University
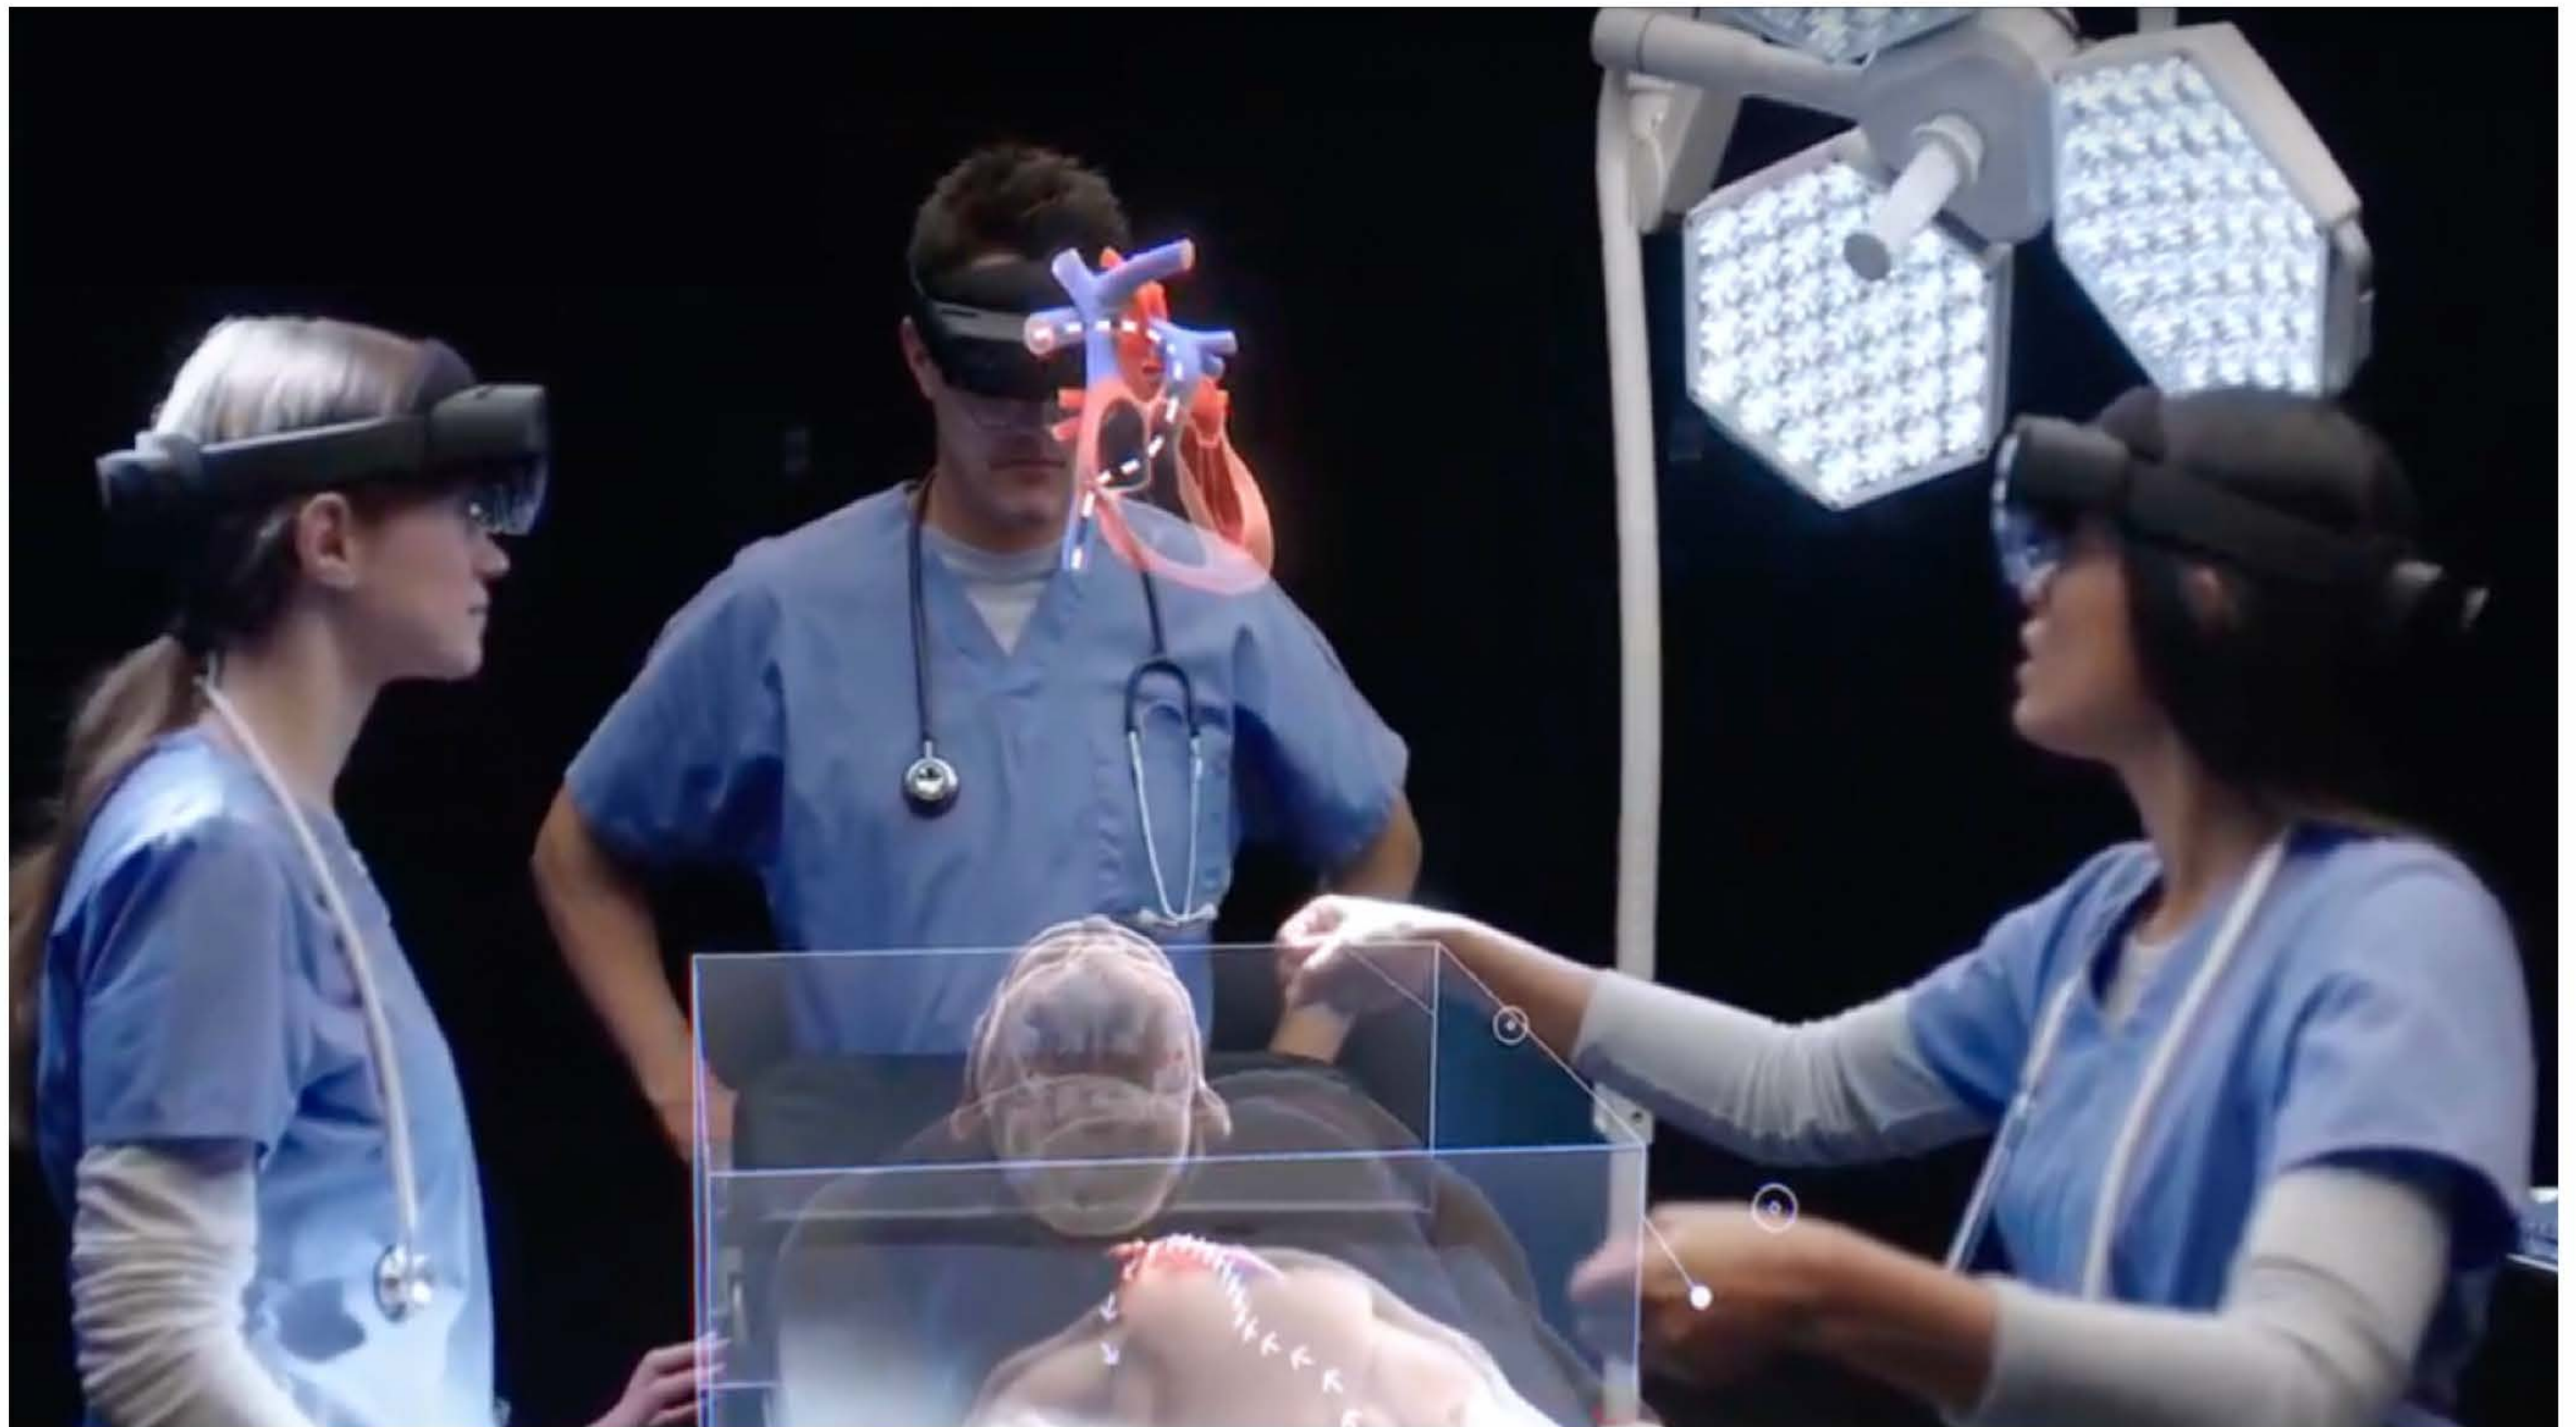

- **95%** Enhanced Understanding
- **20%** Fewer Course Failures
- **15%** Higher Scores

ENABLE YOUR EDUCATORS

- Curriculum Integration Web Tools
- Re-Configurable Lesson Plans
- Assessment & Analytics Platform

REDUCE YOUR COSTS

$25-50K · $70-100K · $250K+

AnatomyX · Anatomage Table · Cadaver Lab

- Superior Market Value
- Ongoing Updates At No Cost
- Medivis Enterprise Support

> " For students that learn best when they are immersed in the subject, **augmented reality is the gateway to the future.**
>
> — Dr. Sharam Bakhtiari
> Anatomy Instructor, West Coast University
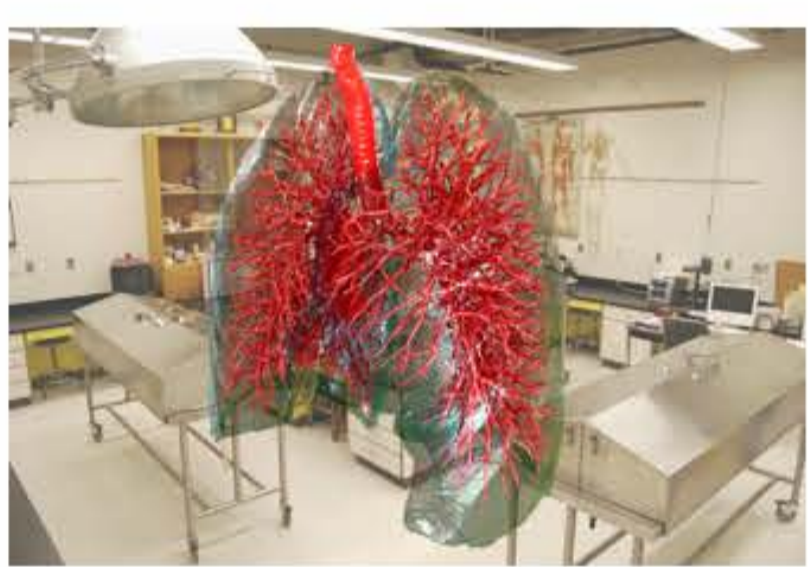

Medical-Grade Human Anatomy Visualization
Over 5,000 intricate anatomic structures of male and female anatomy, expertly segmented from real CT and MRI patient imaging datasets. Advanced textures, lighting and shader techniques provide the most superior photorealism available.
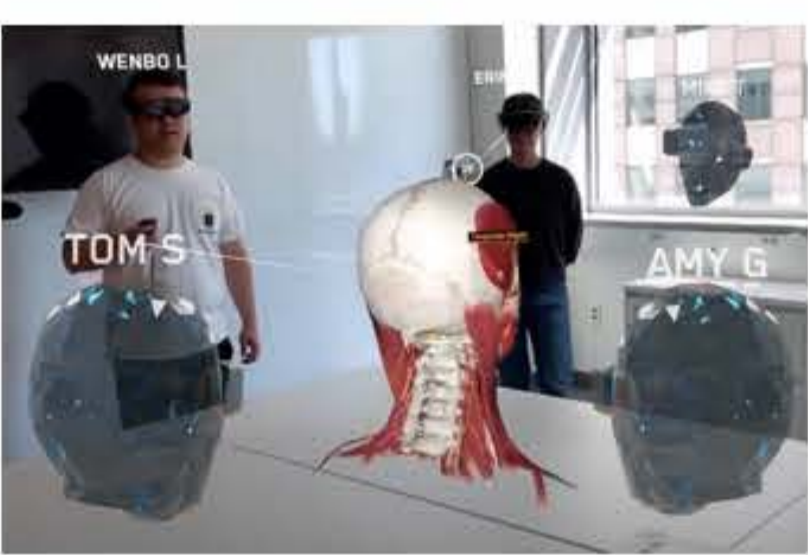

Remote Learning & Collaboration
Whether in the same room or thousands of miles apart, AnatomyX enables immersive collaboration with **40+ users simultaneously** for an unparalleled learning experience - an absolute game-changer for innovative programs.

Clinically Validated Details For All Anatomic Parts
Insightful clinical knowledge coupled to each anatomic part for a seamless learning experience including up-to-date facts, figures, functional details, etymology, clinical pearls and pathological correlations with novel mutlimedia integration.
