

Cloud Payout

24/7 live linear with ad management.

Increase reach and revenue reusing owned content.

Cloud Payout allows social media units, online publishers, and multi-channel networks to extend audience reach by delivering linear live video across platforms. Schedule your program using archived

footage and live segments, manage destination-side ad-break events, and monetize your owned content while extending your brand's reach.

Extend audience and brand reach
via multi destination publishing.
