

# CUSTOMER SUCCESS STORY

## CLIENT

## PARTNERSHIP OVERVIEW

ProcessMiner developed a holistic system for a large continuous manufacturer producing 1500 tons of paper per day to provide real-time process monitoring and diagnosis, prediction of yield quality, and recommendations to bring output closer to target with reduced raw materials.

## KEY CHALLENGES

- Complex dynamics
- Measurement errors
- High-dimensionality
- Lack of experimental data

## WIN RESULTS

### PRODUCTIVITY PERFORMANCE

**2.2** times greater yield  
(120% increase)

### QUALITY OPTIMIZATION

output  
**37%** closer to target

### RAW MATERIAL MANAGEMENT

**3%** reduction in raw material use (pulp)

### COST SAVINGS

**\$350K** annual savings
