Microsoft Azure Sentinel

Cloud-native SIEM with built-in AI so security analysts can focus on what matters most.

Azure Sentinel is a cloud-native security information and event manager (SIEM) platform that uses built-in AI to help analyze large volumes of data across an enterprise—fast. Azure Sentinel aggregates data from all sources, including users, applications, servers, and devices running on-premises or in any cloud, letting you reason over millions of records in a few seconds. It includes built-in connectors for easy onboarding of popular security solutions. Collect data from any source with support for open standard formats like CEF and Syslog.

Collect data at cloud scale—across all users, devices, applications, and infrastructure, both on-premises and in multiple clouds.

Detect previously uncovered threats and minimize false positives using analytics and unparalleled threat intelligence from Microsoft.

Investigate threats with AI and hunt suspicious activities at scale, tapping into decades of cybersecurity work at Microsoft.

Respond to incidents rapidly with built-in orchestration and automation of common tasks.

Zimperium integrates mobile threat intelligence into Microsoft Azure Sentinel

As the global leader of enterprise MTD solutions, Zimperium is helping Microsoft Azure Sentinel customers close the mobile endpoint security gap. Zimperium and Microsoft have partnered to integrate Zimperium's detailed mobile threat alerts and forensics directly into the Microsoft Azure Sentinel dashboard. The combination of Microsoft's management and security solutions and Zimperium's unique on-device mobile device security delivers unequaled protection for managed and unmanaged BYOD devices.

CUSTOMER BENEFITS

- Zimperium's MTD is integrated with Microsoft's Enterprise Mobility + Security (EMS) Solution.

- Zimperium and Microsoft jointly developed the BYOD unenrolled device solution that is the foundation for the Intune MAM - BYOD offering.

- Advanced integrations with Microsoft Defender ATP and Azure Sentinel for forensic level threat visibility and hunting.

- Zimperium is the only MTD solution that is capable of running natively on Azure.
