About Openlearning

About OpenLearning

OpenLearning is an education technology company founded in Australia in 2012 and has since expanded to Malaysia, Singapore and ASEAN.

OpenLearning is a leading online teaching and learning platform with over 2.3 million users worldwide. Our largest partners include Australian and Malaysian universities, agencies, ministries and companies.

OpenLearning aims to be the No. 1 social and lifelong platform in Australia and ASEAN through a combination of training, learning design expertise and quality assurance that produces measurable outcomes for organisations.

What We Offer

One Stop Solution for Education

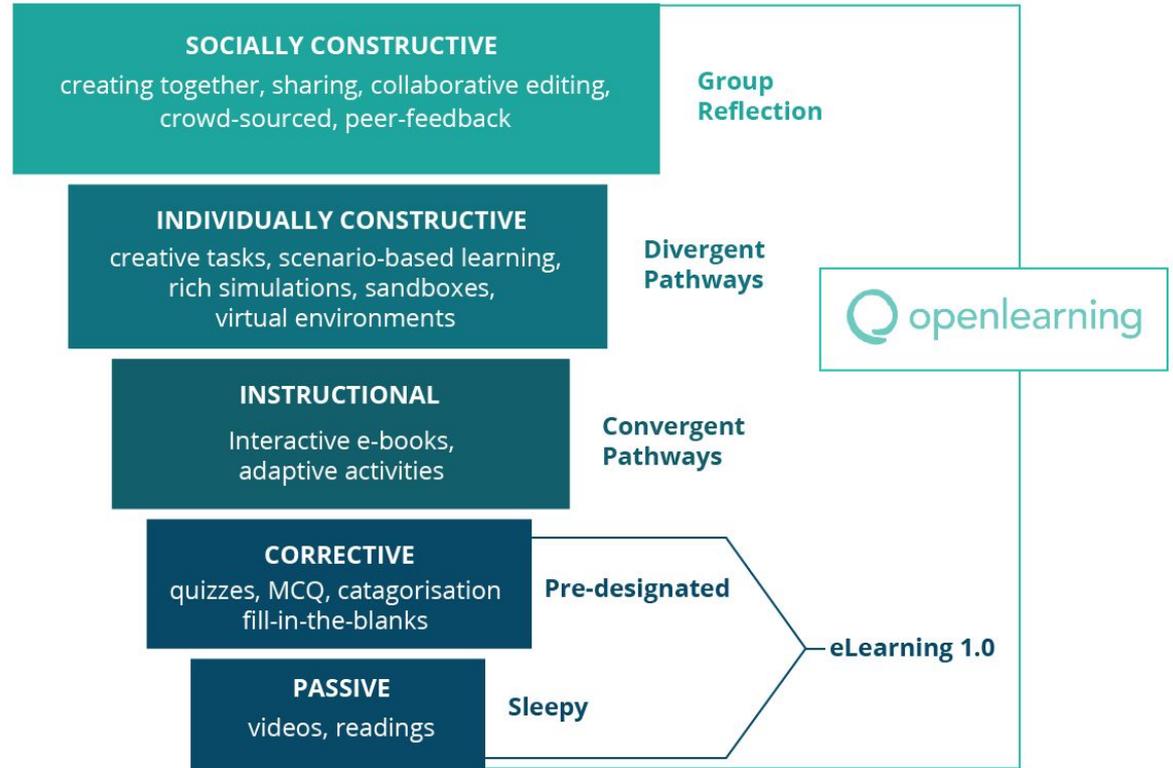

Platform Versatility

Design, deliver and effectively launch courses or qualifications in any format.

We Enable Social Learning Experiences

The platform enables a full spectrum of online learning activities that can engage and inspire students through scalable, replicable, methods of creating social, online courses.

Increase Reach, Scale Quickly

Courses can be built and deployed within 4-8 weeks* and made accessible for all students regardless of their location and time availability

- Short courses can be built within 1 - 2 months
- Courses can be built on a staggered basis and released as required

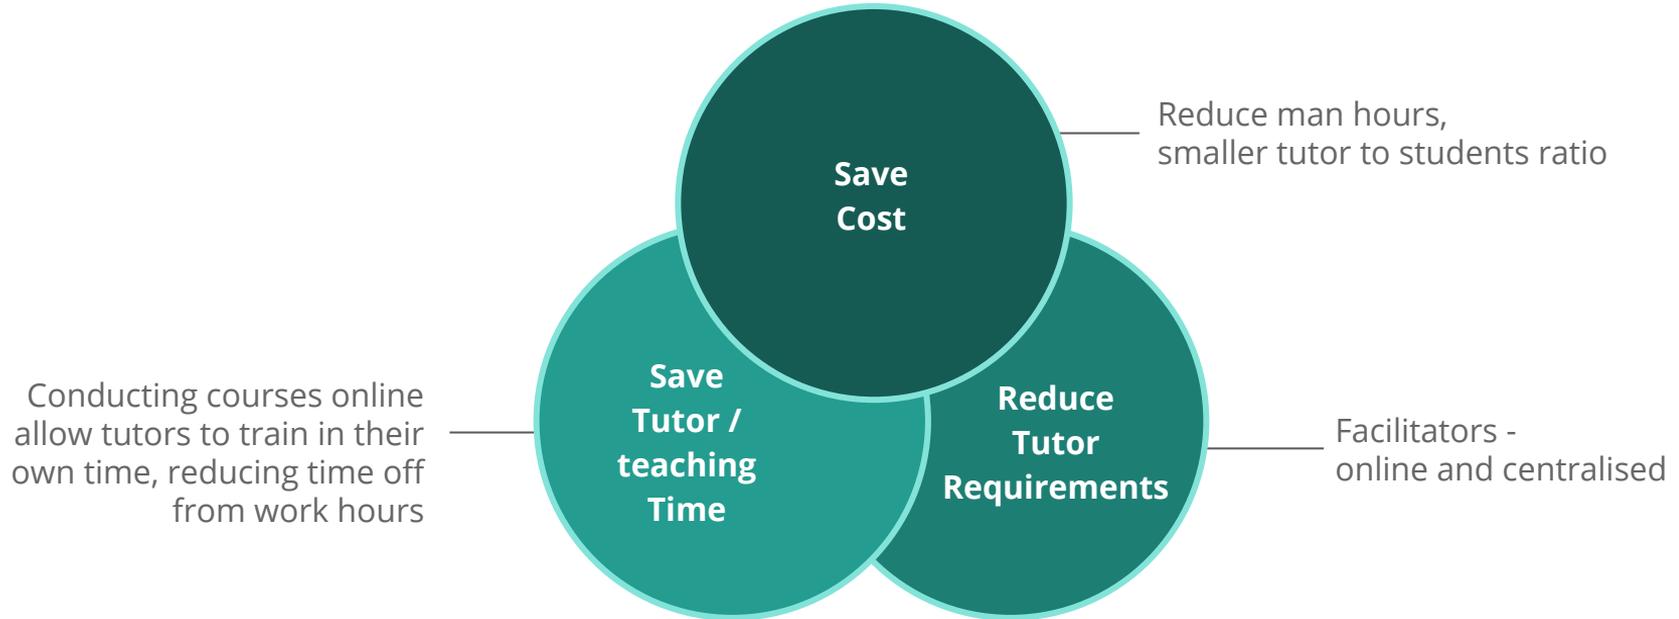

*Course deployment subject to content and complexity

Courses

In this course, you will be exposed to awareness of water safety near water; managing personal and group safety and a series of simple safe rescue skills such as self-rescue, reaching rescue, throwing rescue and human chain. We hope by joining this course, you will be able to respond appropriately in an aquatic emergency. So, are you ready to learn with us? Let's learn about water safety!

Curated course offerings

Track Student Progress

Monitor and evaluate actual learning with real-time student engagement and progress data.

Access Student Data

See all your learners in one place, view their progress, activity completion statistics and peer interaction data.

Student data is available to course facilitators, educators, teachers and administrators.

The screenshot displays the Open Learning interface. On the left is a navigation sidebar with options like 'Announcements', 'Getting Started', 'Your Industry 4.0 Journey', 'Course Feed', 'Learning Circle', 'Glossary', 'Help and Support', 'Course Setup', and 'Administer Students'. The main area is titled 'Students in the class' and includes a search bar and action buttons: 'Send Reminder Message', 'Export Data', 'Remove Students', and 'Sorting'. Below these is a table with columns for Student, Student ID, Enrolment Date, Completion Date, Active Time, Progress, Comments, Kudos, and % Course Completed. A pink callout bubble highlights the table with the text 'Student activity is tracked via various metrics'.

Student	Student ID	Enrolment Date	Completion Date	Active Time	Progress	Comments	Kudos	% Course Completed

Student Data Analytics

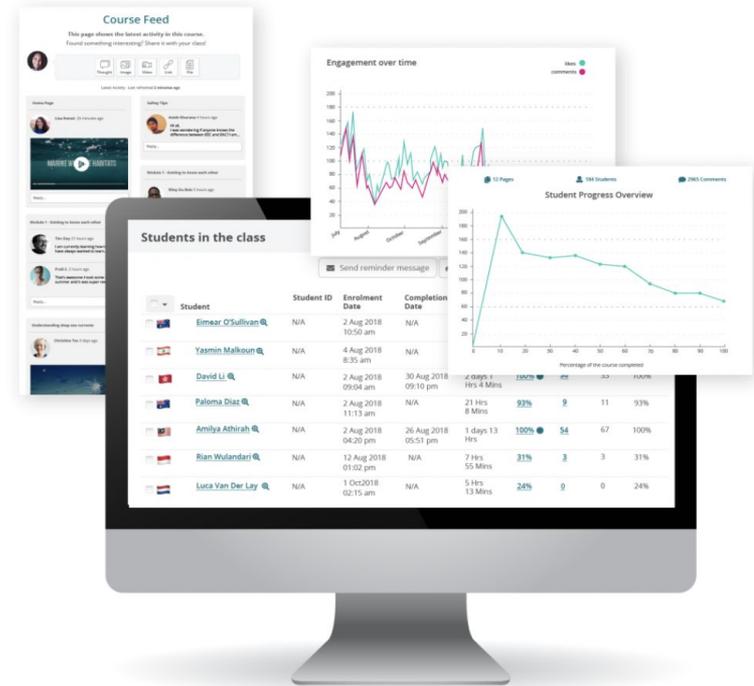

Gather and track student data, understand learning patterns and run a successful course.

Export Student Activity

Student interaction data including posts, comments, user generated content and completion data are available for export by course administrators so you can analyse data in your favourite tools

Stream Data to an LRS via xAPI

OpenLearning supports xAPI so that activity completion data can be streamed into a Learning Record Store for further analysis.

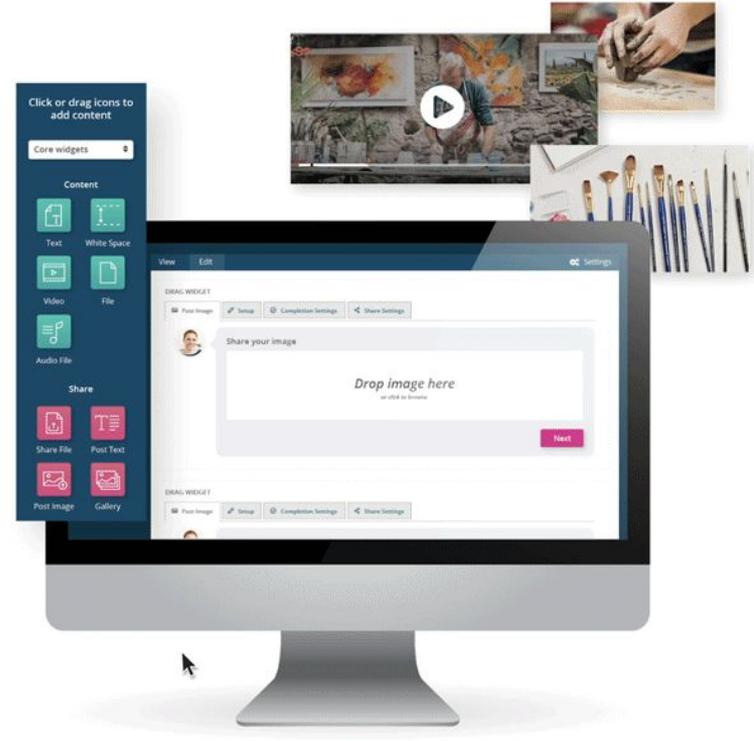

Widget Authoring Tools

Built-in Authoring Widgets

Over 30 built-in widgets support all basic data types and resources that you would expect for inclusion in a course. iFrame and HTML can be embedded.

Drag-and-drop Functionality

The drag-and-drop functionality allows easy access to the entire suite of authoring widgets for user-friendly course building and delivery.

Certification, Badges & Micro-credentials

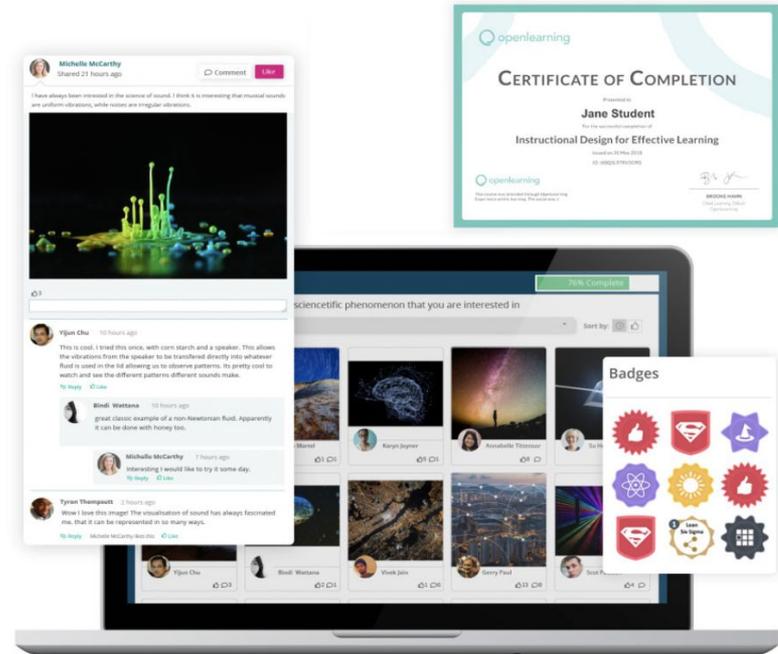

Reward your learners with digital badges and certificates.

Certificates of Completion

Automatically or manually issue customised certificates to learners upon completion of a course. Every certificate has a unique identifier that can be traced and verified by OpenLearning.

Digital Badges

Upload badges or choose from OpenLearning's library of digital badges. Badges can be issued to learners automatically on completion of activities, courses or based on student engagement.

Right-to-left Functionality

Build multilingual courses for learners around the world.

Language of Choice

OpenLearning supports unicode text, enabling the development of courses in a range of languages, including right-to-left requirements.

The screenshot shows a course page on the OpenLearning platform. The course title is "BAHASA ARAB PROFESIONAL & TEKNOLOGI" (Professional Arabic & Technology) with a subtitle "اللغة العربية لأغراض مهنية وتكنولوجية" (Arabic for Professional and Technological Purposes). The main content area features the Arabic phrase "أَهْلًا وَسَهْلًا" (Ehlan Waselan) in red calligraphy, followed by a paragraph in Arabic: "في صفحة اللغة العربية لأغراض مهنية وتكنولوجية. نتمنى أن تكون لكم وسيلة نافعة للتواصل والتعليم وتبادل الخبرات ونشر العلم المفيد، بمشيئة الله". Below this is a video player titled "BAPT INTRO" showing the same Arabic text "اللغة العربية لأغراض مهنية" in blue. The left sidebar contains a navigation menu in Arabic, and the top navigation bar includes the OpenLearning logo, search, and user account options.

Online Payment Gateway

Easily charge students before they enrol, or request payment for a certificate of completion.

OpenLearning supports multiple currencies and online payment platforms.

Do you want to showcase your skills and experience to employers?

The course will guide you in carving a pathway towards achieving your professional goal as well as showcase your best work on OpenLearning portfolio!

The background of the slide is a teal-tinted photograph of two people in a meeting. They are standing in front of two whiteboards. The person on the left is leaning forward, pointing at something on the whiteboard. The person on the right is also leaning forward, looking at the whiteboard. The whiteboards have some faint writing on them, but it is not legible. The overall scene suggests a collaborative work environment.

OpenLearning Support

Onboarding, Customer Success & Training

OpenLearning Onboarding

Our in-house onboarding experts will guide you through every step of the way.

Dedicated Onboarding Specialist

A dedicated OL Learning Designer will be assigned to support your institutions *onboard* which includes set-up, achieve your goals and implementation strategies.

1-Day Onboarding Workshop

A 1-day onboarding workshop is included in your premium plan to help you set up your portal and kickstart your OpenLearning journey.

Monthly 1-on-1 Check-In

A monthly 1-on-1 check-in with your onboarding specialist can be scheduled to help you track and improve your outcomes.

Continuous Customer Support

Get round-the-clock help from our localised support team when you need it most.

24/7 Customer Success

- Priority email and phone support
- Live-chat with localised help
- OpenLearning Help Community

The image displays a screenshot of the OpenLearning dashboard and a live chat interface. The dashboard, titled "openlearning", shows a user profile for "Administrator Class of 2019" and a navigation menu with options like Home, Learning Activities, Course Feed, Team Games, Course Setup, Administer Students, Assessment, and Certification. The main content area is titled "Vision and Values" and features a grid of nine images with captions: "Homepage", "Welcome to OpenLearning, take The Spotlight Challenge", "Getting set up checklist", "OpenLearning journeys and stories", "Our purpose, mission and vision", "Our values", "Team Guess Who challenge", "Our global policies", and "Team Games". A progress indicator shows "Completed: 2 of 10".

Overlaid on the right is a live chat window titled "OpenLearning" with the message "We'd love to help! Chat with us." The chat history shows a message from "Jan Marlowe" at 6/21/19, 15:00 PM: "Hi Marilyne! My name is Jan. How can I help you?". The chat is powered by "FRONT" and includes a "Type a message..." input field and an "Online" status indicator.

A pink speech bubble on the right contains the text: "Get your queries answered via 24-hour live chat".

Case Studies

Malaysia MOOC: Transforming Higher Education

World's first national MOOC program, launched in 2014 involving all 20 public universities and 34 public polytechnics in Malaysia.

Over 520,000 students have enrolled in one of 500 courses through Malaysia MOOC, delivered entirely through OpenLearning.

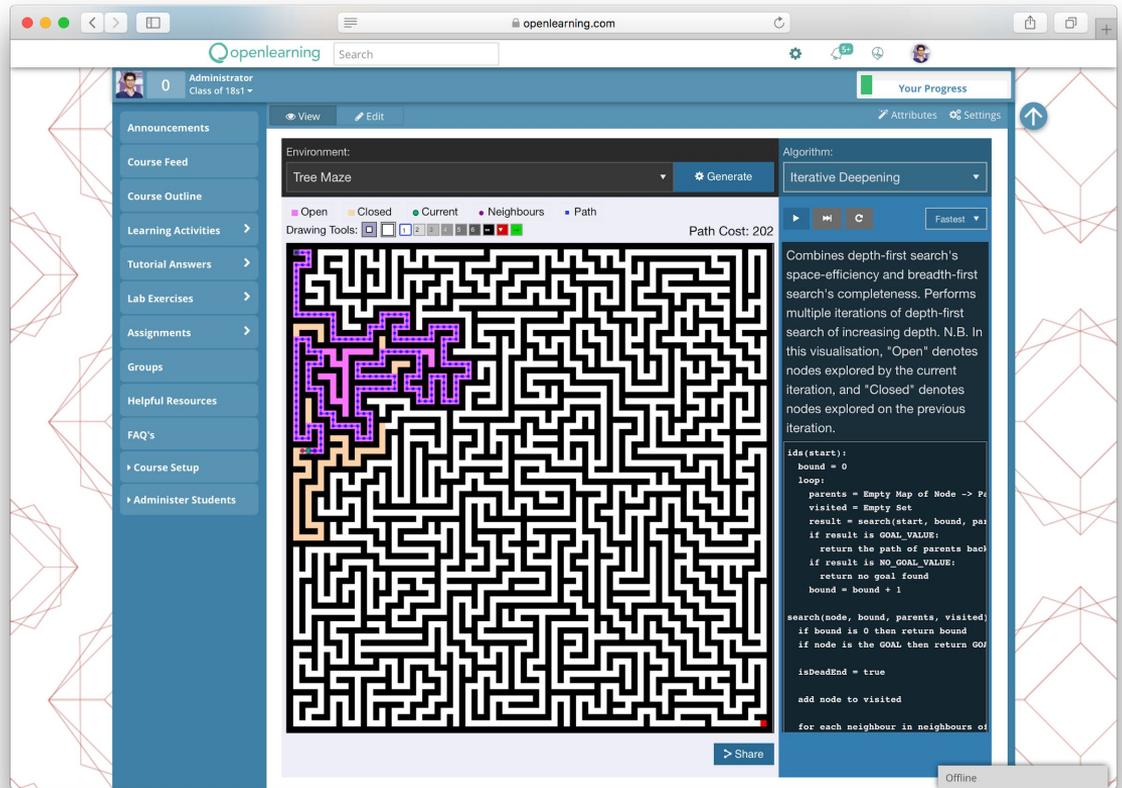

OpenLearning works with the Malaysian Ministry of Education, various committees and academics.

UNSW Sydney: Increasing Campus Capacity

Migrating from face-to-face lectures to blended learning courses on OpenLearning to enable UNSW Engineering to increase the number of students enrolled in face-to-face programs.

OpenLearning's learning design team collaborated with lecturers from postgraduate engineering courses in Civil Engineering, Computer Science, Electrical Engineering and the Faculty of Built Environment.

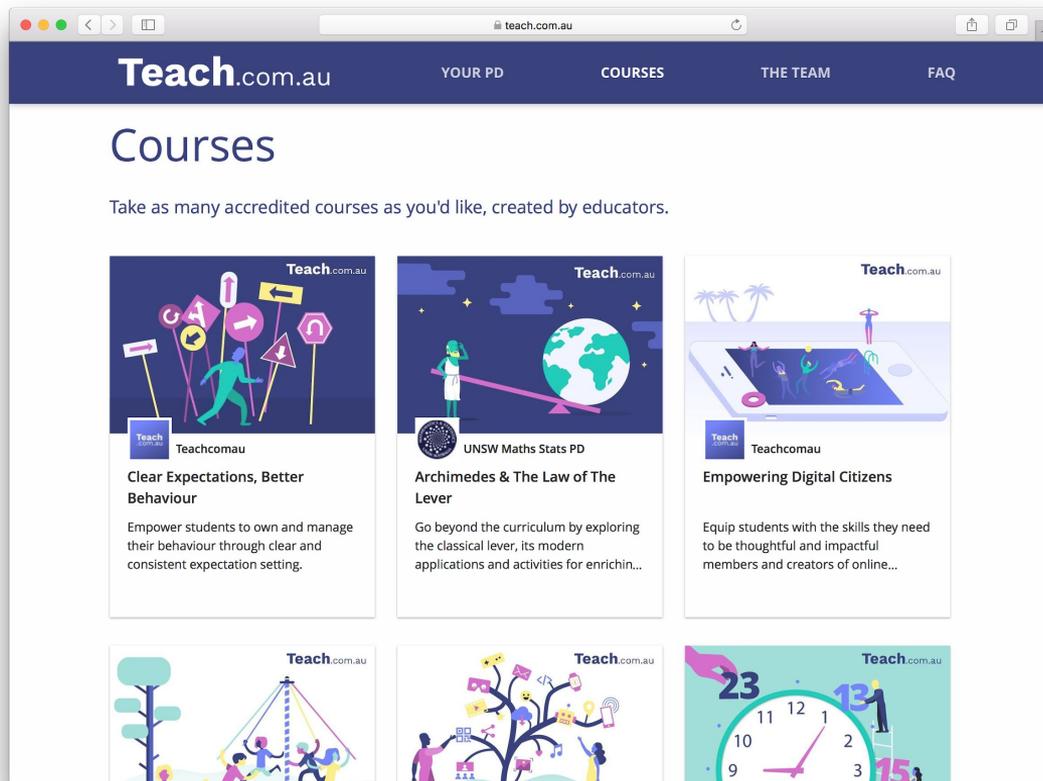

The screenshot displays the OpenLearning web application interface. The top navigation bar includes the OpenLearning logo, a search bar, and user profile information for an Administrator in the Class of 18s1. A left-hand sidebar contains a menu with items such as Announcements, Course Feed, Course Outline, Learning Activities, Tutorial Answers, Lab Exercises, Assignments, Groups, Helpful Resources, and FAQ's. The main content area is titled "Tree Maze" and features a "Generate" button. Below the title is a drawing toolbar and a "Path Cost: 202" indicator. The central focus is a large, complex maze with a path highlighted in purple and yellow. To the right of the maze, there is a panel for the "Algorithm: Iterative Deepening", which includes a "Fastest" dropdown and a detailed description: "Combines depth-first search's space-efficiency and breadth-first search's completeness. Performs multiple iterations of depth-first search of increasing depth. N.B. In this visualisation, 'Open' denotes nodes explored by the current iteration, and 'Closed' denotes nodes explored on the previous iteration." Below the description is a code block containing pseudocode for the search algorithm. At the bottom right of the interface, there is a "Share" button and an "Offline" status indicator.

Teach.com.au: Accredited Teacher Training

Unlimited access to the highest quality NESA accredited online teacher training courses for A\$190/year.

Australian market has 310,000 full-time teachers and 125,000 casual teachers - average spend of \$700/teacher/year on teacher Professional Development.

Project conceptualised, implemented and marketed by OpenLearning within 8 months, including NSW NESA accreditation.

The screenshot displays the Teach.com.au website interface. At the top, there is a dark blue navigation bar with the logo 'Teach.com.au' and links for 'YOUR PD', 'COURSES', 'THE TEAM', and 'FAQ'. Below the navigation bar, the main heading 'Courses' is prominently displayed, followed by the tagline 'Take as many accredited courses as you'd like, created by educators.' The content area features a grid of course cards. Each card includes a colorful illustration, the course title, and a brief description. The visible course cards are:

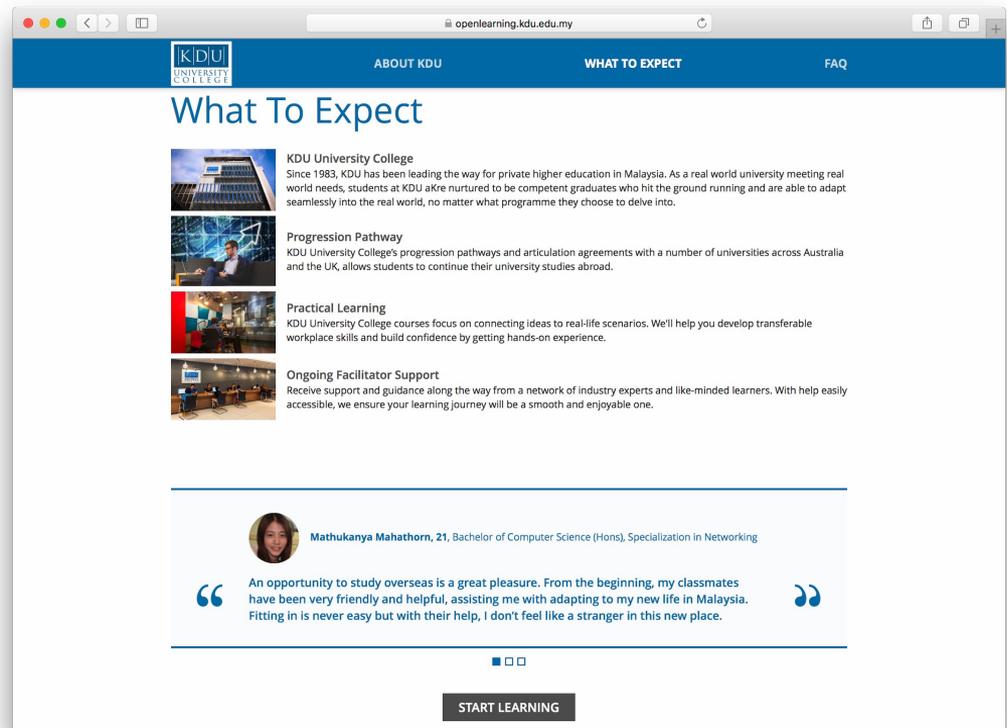

- Teachcomau**: Clear Expectations, Better Behaviour. Empower students to own and manage their behaviour through clear and consistent expectation setting.
- UNSW Maths Stats PD**: Archimedes & The Law of The Lever. Go beyond the curriculum by exploring the classical lever, its modern applications and activities for enrichin...
- Teachcomau**: Empowering Digital Citizens. Equip students with the skills they need to be thoughtful and impactful members and creators of online...

Additional course cards are partially visible at the bottom of the grid, including one with a tree illustration and another with a clock illustration.

KDU University: End-to-End Course Delivery

KDU University College is switching to the OpenLearning platform for all on-campus and off-campus courses, including their Learning Management System (LMS).

On top of managing the technology migration, OpenLearning will also train 220 KDU academics towards using the platform for their course delivery via fully-online and blended-learning approaches.

The screenshot shows a web browser window displaying the KDU University College website. The browser's address bar shows 'openlearning.kdu.edu.my'. The website has a blue header with the KDU logo and navigation links for 'ABOUT KDU', 'WHAT TO EXPECT', and 'FAQ'. The main content area is titled 'What To Expect' and features four sections, each with a small image and a text block:

- KDU University College**: Since 1983, KDU has been leading the way for private higher education in Malaysia. As a real world university meeting real world needs, students at KDU are nurtured to be competent graduates who hit the ground running and are able to adapt seamlessly into the real world, no matter what programme they choose to delve into.
- Progression Pathway**: KDU University College's progression pathways and articulation agreements with a number of universities across Australia and the UK, allows students to continue their university studies abroad.
- Practical Learning**: KDU University College courses focus on connecting ideas to real-life scenarios. We'll help you develop transferable workplace skills and build confidence by getting hands-on experience.
- Ongoing Facilitator Support**: Receive support and guidance along the way from a network of industry experts and like-minded learners. With help easily accessible, we ensure your learning journey will be a smooth and enjoyable one.

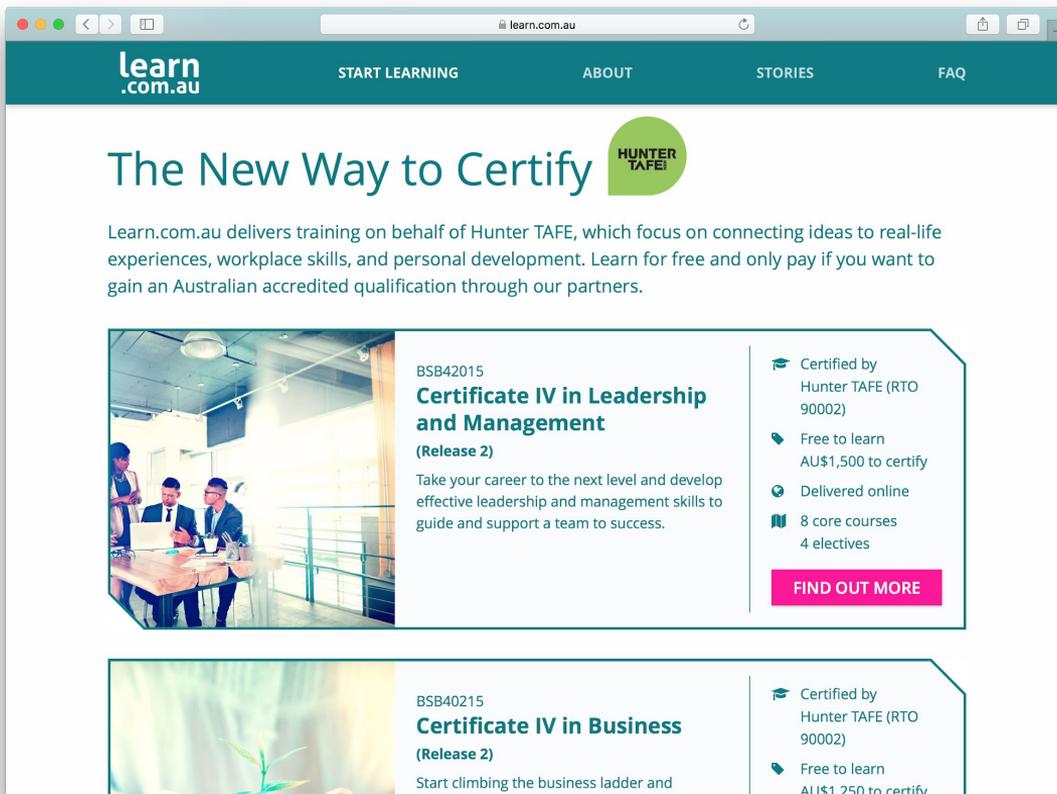

Below these sections is a testimonial from Mathukanya Mahathorn, 21, Bachelor of Computer Science (Hons), Specialization in Networking. The testimonial is enclosed in a blue-bordered box with a quote icon on the left and right. The text reads: "An opportunity to study overseas is a great pleasure. From the beginning, my classmates have been very friendly and helpful, assisting me with adapting to my new life in Malaysia. Fitting in is never easy but with their help, I don't feel like a stranger in this new place." Below the testimonial is a small social media icon and a 'START LEARNING' button.

Learn.com.au: Increasing Access to TAFE NSW

Partnership between TAFE NSW (Hunter Institute), IBSA and OpenLearning to provide VET under a 'free to learn, pay to certify' model

Three qualifications: Cert IV Leadership & Management, Small Business Management and Business.

Project conceptualised, implemented and launched by OpenLearning within 10 months from commencement.

The screenshot shows the Learn.com.au website interface. The header includes the logo and navigation links: START LEARNING, ABOUT, STORIES, and FAQ. The main heading is 'The New Way to Certify' with the HUNTER TAFE logo. Below this is a descriptive paragraph about the partnership. The main content area features two course cards. The first card is for 'Certificate IV in Leadership and Management (Release 2)' with a photo of people in a meeting. The second card is for 'Certificate IV in Business (Release 2)' with a photo of a plant. Both cards list key details like certification, cost, and course structure.
