IoT
CONNECTOR

YOU'D LIKE TO
UTILIZE DATA FROM DEVICES AND MACHINES
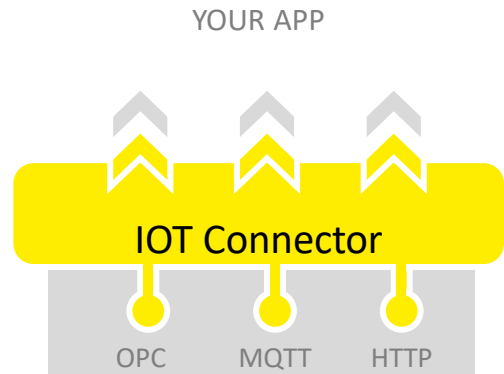

LET US DO THE HEAVY LIFTING TO
ACCESS AND PREPARE YOUR DATA

FOR YOU TO BE ABLE TO
FOCUS ON DATA USAGE AND APP DEVELOPMENT

WHAT DOES THE
IOT CONNECTOR DO?

Supporting various communication protocols the IoT Connector allows you to quickly onboard and collect data from different devices and machines. Once access is possible the connector provides a standard interface for any application to utilize the machine data. Various data stores and analytics components can easily be incorporated.

YOUR APP

IOT Connector

OPC   MQTT   HTTP

FUNCTIONS > ADDED VALUE

CONNECT INDUSTRY / IP DEVICE   CONNECT OPC UA, MQTT, HTTP

STANDARDIZED CONNECTORS DRIVERS

MANAGE DEVICE
