WEARFITS®

Digital disruption of fashion and footwear industries through 3D & Augmented Reality.

Our mission is to provide a better online shopping experience with 3D and AR solutions, helping manufacturers and retailers increase sales and reduce returns.

Footwear

Automatic 3D digitization scanner for footwear. Virtual try-on on foot in AR mirror. Foot scanner mobile app.
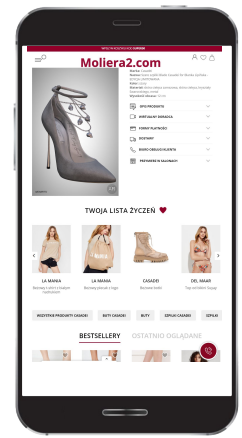

Apparel

AR and 3D web viewer. Support for OBJ and ZPAC files. Easy clothing digitization from DXF patterns with sizing and fabric data.

Virtual Models

Self-service virtual photo shoots with virtual models. Real people digitized into 3D avatar. Cheaper and more flexible than traditional photo shoots.

Microsoft for Startups

Microsoft Azure

NVIDIA. INCEPTION PROGRAM

We let apparel producers and retailers create a stunning digital shopping experience by using modern 3D visualization and size fitting.

E-commerce & Mobile

Easy integration through API and SDK. Lower returns and higher sales.

Augmented Reality

WebAR converter for iOS and Android devices. 5G and upcoming AR glasses ready.

Simple pricing:
60 EUR per product (one time)

Payment depends on the number of products. There is an optional initial fee for the digitization services (30 EUR per hour of digitization services).

Size Advisor

Custom silhouette and accurate body avatar generator. Size fitting with comfort advisor.
