BLOCK ARMOUR

NEED TO ENABLE SECURE AND COMPLIANT REMOTE ACCESS TO IT SYSTEMS DURING THE CURRENT CRISIS?

BLOCK ARMOUR OFFERS AN ENTERPRISE-GRADE SOLUTION TO ENABLE SECURE AND COMPLIANT ACCESS TO IT SYSTEMS WHEN WORKING REMOTELY / FROM HOME

The solution allows organizations to quickly enable teams of remote workers without sacrificing security or productivity as well as provides secured remote access to IT administrators and external vendors to manage systems – all without the need for a VPN

BLOCK ARMOUR'S SECURE SHIELD DELIVERS HOLISTIC ZERO TRUST NETWORK ACCESS FOR TODAY'S HYBRID AND DISTRIBUTED IT ENVIRONMENT

KEY BENEFITS

A single platform to enable **secure remote access** to multiple servers/applications

Quick deployment for reduced impact on operational performance

One single instance for all systems; whether **on-premise** and in the **Cloud**

Authentication and **controlled Access** based on **digital id's**, not just IP Address

Immutable and tamper proof logs for instant visibility and control
