

DO YOU KNOW?

One single employee (or guest) infected with COVID-19 can lead to a closure of your entire office resulting in a loss of millions of dollars in revenue.

You can significantly decrease the risk of infection by following our best practices and technology assisted prevention solutions.

Covid@Bay is a streamlined set of best practices, tools and technologies to enable safe "Back to Work" strategies for organization of any size. Our extensible platform works for companies ranging from large corporations, plants, warehouses and individual stores.

TECHNOLOGY ASSISTED COVID SAFETY

Carefully crafted controls and configurations to ensure your employees safety to implement your "back to office" strategy. Our software provides non-intrusive real time cues to drive employee behaviour and ownership at work.

Our platform uses Spatial Awareness, Sensors, Cameras and state of the art AI Technologies to ensure safe distances, mask usage and other policies are being followed in your organization.
