Phidélity is a suite of document security features which **protects** an organisation's **hardcopies** from **counterfeit, forgery** and **information leakage** (disclosure). With advanced and patented security technologies, Phidélity provides a **powerful** and **flexible** secure printing solution, using common desktop printers.

COMPREHENSIVE FEATURES*

Guards **authenticity** of a document against replication and imitation

Ensure **integrity** of a document

Prevents information **leakage**

*Phidélity features are patented

DEPLOYMENT

Phidélity can be deployed in the following ways across a variety of sectors:

- ✓ **Enterprise deployment:** Printing via applications such as Microsoft Office
- ✓ **e-Services deployment:** Printing via domain specific web application

Government	Cross-Border Trade	Education	Judiciary	Commercial

Document Security Features

Transactional Micro-Print

A string of dynamically generated fine print that will appear distorted on a photocopy.

ID-Trace

The document is protected against leakage by inserting an invisible identifier into the document.

Username : JoSmith2875
Docname : Certificate.pdf
Timestamp : 01.11.2013 16:03

Deliberate Error

Document owners would include errors at random locations which a counterfeiter may overlook while forging the document.

Optical Watermark

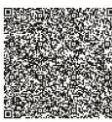

An anti-copy feature that is embedded in the printed document to reveal unauthorized attempts to copy the document.

Signature:

Name: Simon Jones
Designation: Business Executive
Date: May 4, 2013

SecureCODE

A standard two-dimensional barcode that uses Public Key Infrastructure (PKI) security to protect against document forgery and can be verified via various channels.

Exporter (Name & Address):
CrimsonLogic Pte Ltd,
Science Park Rd, Singapore - 117611
Sr.No : SCC-01-4

CryptoMark

A lens-based anti-forgery feature that visually encrypts text.

SCC-01-4

Print Control

This feature limits the number of copies that can be printed by an authorised user.

650978321235

Page Serialization

A unique serial number is assigned to each page of the document printed for traceability.

650978321235
