Our products

Data Cleansing

Batch Cleansing

Optimise your existing databases with our batch cleansing service which validates and corrects global contact data against our official address data sources for accurate and correctly formatted physical addresses, email addresses, and phone numbers.

Send & receive your data files via our secure UK servers for GDPR compliance and complete peace of mind.

- ✓ Low per-record cleansing costs
- ✓ Clear resolved data
- ✓ Append addresses with rooftop geocode data

On-Demand Cleansing API

Cleanse data in real-time or batches from within your own infrastructure using our new Data Cleansing API

- ✓ Integrate directly into your existing systems
- ✓ Cleanse address data internally
- ✓ Automate cleansing jobs to optimise workflows
- ✓ Maintain data on site

ggggg sssss aaaaa

mlalivnd

United Kingdom

123456

Unlikely in UK addresses unless entry is missing postcode, numbers or any clear street name.

Our products

Multiple Residence Data

Sometimes the building number is not enough to **guarantee** correct delivery.

 For buildings subdivided into multiple residences that share one letter box.

 **Crucial for financial and utilities services** to ensure they reach the exact residence every time

 Supplements the **Royal Mail PAF database** in the UK

Our products

Rooftop GeoCoding

Converts global address data into property level latitude & longitude co-ordinates.

Shipping / Courier delivery

Providing lat/long coordinates to a shipping company ensures last-mile delivery accuracy. Use to inform delivery points and for efficient route planning.

Nearest store information / lookup

Create simple queries for online store locators, or use for personalised marketing campaigns for a customer's nearest store or event.

Customer Profiling

Deliver more accurate demographic profiling insights to inform on location based campaigns.

Insurance & Financial Services

Inform on risk factors such as rivers, flooding, subsidence, and crime rates.

Telecoms Coverage

Use for service coverage for mobile, landline and internet services. Plan service upgrades and rollouts based on coverage data.
